ANNUAL
MEETING
24-26 June

Welcome to BAUS 2024...

It is hard to believe that this BAUS Annual Meeting will be my Presidential “swan-song”. The President’s Address will be an opportunity to thank all of you who have trusted and supported me over the last 2 years, and it will be my great honour to present the BAUS President’s Badge to Prof Ian Pearce who will take over for the next 2 years. I will also be delighted to present our Medals and Awards to an inspirational and talented group of BAUS members and international leaders. It’s always a tough ask for our awards committee to select from such a high calibre field – I am sure you will agree that all are very well-deserved. It is my honour to bestow the medals to an outstanding group of colleagues. Congratulations to Shamim Khan, Sanjay Kulkarni, Suzie Venn, Hashim Ahmed, Jean McDonald, Rob Feasey. Come along to congratulate all our inspiring recipients at the BAUS Welcome Drinks Reception in the Exhibition Hall on Monday evening.

One of the very few drawbacks of being President, is that I often don’t have time to participate fully in the Annual Meeting as a BAUS member, because as you can imagine, our annual get-together is a great opportunity to schedule lots of meetings and workshops whilst we are all together. This year’s program is packed with sessions that are “must see” as far as I am concerned. I may have to use outgoing President’s privilege to excuse myself from some of my duties to join the audience.

I congratulate Joe Phillip (Honorary Secretary) and Mo Belal (Honorary Secretary Elect) along with Harry Heald (Events Manager) and Chloe Austin (Events Assistant), for delivering an incredible program. For any of you who have not yet organised a conference program, this represents a huge amount of work. Thank you to all our Section teams and partners for contributing to the program development and to all our speakers who put so much effort into their presentations. Remember all of this is impossible without two groups of very important people. The members of BAUS who input lively interaction and networking. I hope you will agree that this membership benefit is well worth your continued support to BAUS. The second group are our amazing sponsors and partners who contribute so much to this successful meeting each year.

There is so much to digest in this program, I suggest you spend some time taking it all in. Clinical and technical innovation for every aspect of our work. Some of which is for us to marvel at, in the hands of the subspecialist, and perhaps more importantly updates in techniques and knowledge for the general urologist. Specialty section sessions include both, and the BAUS Updates round-up at the end of the meeting will bring it all together for you. In an unselected non-elective take or general urology clinic, we are all generalists and I look forward to brushing up my clinical knowledge to benefit my patients.

Alongside our clinical focus, the annual meeting is an opportunity to highlight and debate some of the political hot topics of the year. At our opening session, we welcome the Presidents of all four Royal Colleges of Great Britain and Ireland. We have selected four controversial topics that none of you could have missed in the media. Each of the Presidents have courageously accepted an invitation to share their thoughts on topics that have vexed clinical leaders over the last twelve months. I know you all have a lot to say on these matters, make sure you get to Birmingham in time to join the conversation. Our BAUS, BJUI and JCU Guest Lectures provide insights from elite sports, industry and the highest levels of NHS leadership. Is there any similarity between delivering high performance clinical care year after year, and performing at a world class level in sports, join us to hear what Olympian, Colin Jackson has to say, and learn first hand about being a patient and its impact on the life of a professional athlete from John Hartson.

We also have plenty of sessions highlighting the wellbeing of clinicians and managing ourselves and our workload in a testing healthcare environment. Only the Annual Meeting can offer the forum to bring us all together to share experience and practice. A problem shared is a problem halved? Perhaps not, but never underestimate the value of conversations between peers, and the knowledge that you are not alone in facing challenges. Surely this is what Our BAUS community and all of our regional societies are all about.

Great to see BSoT highlighting some issues that are relevant to us all, the challenges we face are technical, personal, interpersonal and affect our wellbeing. Freedom to speak up will also be explored, from all perspectives. And who better than the consultants of the future, to lead the exploration of the impact of Artificial Intelligence. BURST will also have a strong presence, highlighting their portfolio of ongoing research work. Delighted that once again we can showcase the best papers from trainees representing every region in our TUF-BAUS Best Regional Paper session. Come along to support your regional champions. Thank you to TUF for sponsoring and providing a prize for the overall champion.

A final message to you all, is that we really do welcome suggestions for sessions at our Annual Scientific Meeting for 2025. Please do talk with Joe Philip, Mo Belal and Ian Pearce early if you have ideas. The program is often fairly well developed by September for the following June.

Looking forward to seeing you all in Birmingham, to celebrate and debate all that is UK Urology.

Jo Cresswell
President

Welcome from the Honorary Secretary Joe Philip

ANNUAL
MEETING
24-26 June

I am thrilled to extend a warm welcome to each and every one of you as we gear up for what promises to be an enriching and enlightening conference experience. On behalf of Mo Belal, the remarkable events team comprising Harry Heald & Chloe Austin, our dedicated Section Secretaries, and the awesome colleagues and friends who have poured their time, energy, and passion into making #BAUS24 a reality, I am excited to kick off our gathering.

This year's conference boasts an exceptional lineup curated by our esteemed Programme Committee, featuring over 20 international speakers hailing from regions spanning North America to New Zealand. With a lineup of more than 100 chairs and nearly 300 speakers across 62 sessions, we are poised to delve into a wide array of topics aimed at expanding clinical horizons, nurturing well-being, and fostering innovation.

In a groundbreaking move, our inaugural session will witness representation from four Royal Colleges, engaging in discussions close to the hearts of urologists worldwide. From the evolving role of the Physician Associate to the imperative of addressing sexual misconduct in surgery, these sessions epitomize the depth and breadth of our shared interests and concerns. Moreover, this year's program features an increased emphasis on workforce dynamics, burnout prevention, and emergent themes such as the identity of the future emergency urology surgeon.

Ben Turney and colleagues will challenge us to contemplate the landscape of urology in 2040, while Angus Luk's session on surgeon sustainability underscores the pressing need to reassess traditional paradigms within our field. Drawing inspiration from diverse spheres including industry, healthcare, athletics, and journalism, we aim to glean insights on optimizing performance, maintaining well-being, and navigating the complexities of our profession.

Our schedule also includes sessions on innovation and artificial intelligence, spotlighting the latest advancements poised to transform urological practice. Notably, the session on reducing risk, enhancing patient safety, and optimizing team performance promises to be a highlight, featuring experts from realms as diverse as air traffic control and Formula One racing.

Monday sets the tone with a bustling evening reception in the exhibition hall, featuring Awards ceremony and live entertainment—a perfect opportunity for networking and camaraderie. Tuesday will witness the prestigious St. Paul's and St. Peter medal ceremony, alongside the BAUS Presidential handover, offering a moment for reflection on her successful past two years for Jo Cresswell and Ian Pierce presenting his vision for future endeavours.

Poster sessions, including the introduction of the new Gallery posters, will unfold on days two and three, showcasing a selection of high-quality research curated by our diligent abstract markers. Wednesday morning brings a focus on widening participation, with sessions tackling pertinent issues such as surgeon sex influencing outcomes, strategies for combating sexual misconduct in surgery and how to be an active bystander a must attend session.

Honorary Secretary welcome continued

ANNUAL
MEETING
24-26 June

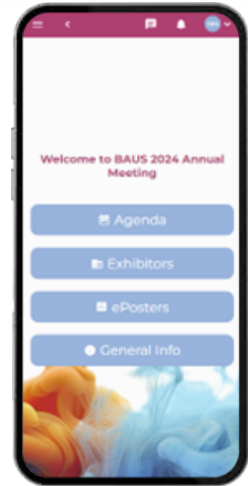

As we draw the conference to a close, we invite you to partake in a two-hour “Best of BAUS” scientific bonanza, featuring dynamic presentations from young urologists highlighting the pinnacle of urological innovation and excellence.

I encourage all attendees to explore the Exhibition Hall and engage with our industry partners and sponsors, whose invaluable support has been instrumental in making #BAUS24 possible. Satellite sessions will offer further opportunities to delve into cutting-edge technologies, novel therapeutics, and innovative care approaches.

I eagerly anticipate reconnecting with each of you in Birmingham and collectively shaping the future of urology.

Joe Philip

Honorary Secretary

BAUS 2024 Platform

Web Access

<https://crowdcomms.com/baus2024>

Smartphone Access

To download the BAUS 2024 App search 'CrowdComms' on the Apple IOS or Android (Google Play) Store.

Enter the event code: **BAUS2024**

You will be required to enter your email address used to register for BAUS 2024. First time users will be required to set a password

Platform/App launches on 20th June

Abstract Book

The BAUS 2024 Abstract Book will be available online in the Conference Edition of the JCU from 7am on Monday 24 June.

Accommodation

BAUS is pleased to offer delegates an accommodation booking service provided by Reservation Highway, the official accommodation providers for BAUS 2024.

[Click here](#) to book your accommodation.

Please book early to secure your preferred hotel - availability in June 2024 is likely to be extremely busy. Reservation Highway can assist with any bookings, particularly larger groups: Tel: 01423 525577 or Email: admin@reservation-highway.co.uk

Badge Scanning

We will be using badge scanning as lead retrieval. Exhibitors can hire scanners and scan delegate badge barcodes to download the following information:

- **Name, Job Title, Place of Work**
(as you specify on your online registration form)
- **Work Email address**
(as you specify on your online registration form)

You will receive 1 CME point for attending a Satellite Symposium and getting your badge scanned, badge scanning by exhibitors is not compulsory. If you **DO NOT** wish to disclose this information to exhibitors, then do not allow your badge to be scanned. **Please Note:** BAUS Staff will scan you on the entrance into all sessions; this is purely for a count of attendance at the sessions.

BAUS 2024 Format

We are pleased to be returning to a face-to-face format for BAUS 2024 at the ICC Birmingham. Virtual attendance will be available, and content will be streamed live from the ICC Birmingham and available to watch via the BAUS 2024 Platform.

Certificate of Attendance

Certificates will be emailed to delegates from Monday 8th July. Certificates for onsite Teaching & Skills courses will only be issued to those whose attendance is registered by a member of staff.

Clean Air Zone

Birmingham operates a clean air zone. No vehicle is banned from the zone, but vehicles of specified classes that do not meet emissions standards will be required to pay a daily charge if travelling within the area. You can check if your car is eligible to drive within the Clean Air Zone without charge by visiting www.brumbreathes.co.uk. The daily charges apply to the following vehicles: cars, taxis, LGVs, HGVs, coaches and buses and range from £8 for a private car to £50 for HGVs. The criteria for not incurring a charge differs across diesel, petrol, gas, electric and hybrid vehicles. For further information, please [click here](#).

Cloakroom

The complimentary Cloakroom is located along the main concourse and will be open at the following times:

Monday 24 June	0800-1930
Tuesday 25 June	0700-1900
Wednesday 26 June	0700-1800

Conference Catering

Delegate registrations will include complimentary lunch each day. Street-Food lunch will be served on Monday 24 June & Tuesday 25 June from 12.30-14.00 and Deli Bistro lunch will be served on Wednesday 26 June from 13.00-14.00. Lunch will be available from Exhibition Hall 3.

Dietary requirements will be requested at the time of registration. **Please note** we endeavour to accommodate all dietary requirements where possible with each venue. However, not all dietary requirements or preferences can be accommodated. If you would like further information, please email events@baus.org.uk

Continuing Medical Education

This meeting has been accredited with CME points as follows:

Monday 24 June	6 points
Tuesday 25 June	6 points
Wednesday 26 June	6 points

The Satellite Sessions are each accredited with 1 CME point.

Delegate Badges

For security purposes, all delegates and exhibitors must always wear the official BAUS 2024 delegate badge to be admitted to the conference centre and social events. Badges will be issued from the badge kiosks by the Registration Desk.

ePoster Sessions

Full details of the presenters and ePosters will be available on the BAUS 2024 online platform as well as the ePoster viewing wall in the Registration Foyer.

Exhibition - Location and Opening Hours

The exhibition is in Hall 3 of the ICC Birmingham and will be open at the following times:

Monday 24 June	0900 - 1900
Tuesday 25 June	0900 - 1800
Wednesday 26 June	0900 - 1415

Please Note: Entry to the conference or exhibition is **NOT** available to personnel from commercial companies who do not have an exhibition stand.

Gallery Poster Display

A selection of posters will be on display for the duration of BAUS 2024 on the Gallery Level of Hall 3 Exhibition.

Media Check-In

Media Check-In will be located near Hall 1 and a short walk from the Registration Foyer. Media Check-In will be clearly signed, and all speakers & presenters are required to upload slides via Media Check-In. Media Check-In will be open at the following times:

Monday 24 June	0730 - 1800
Tuesday 25 June	0700 - 1800
Wednesday 26 June	0700 - 1415

Full AV information will be sent to all speakers well in advance of the meeting. Any queries prior to the meeting should be directed to BAUS Events (events@baus.org.uk).

Photography

BAUS 2024 will have an official photographer and videographer who will be operating onsite. By registering for BAUS 2024, photographs may be taken, and this footage may be used by the organisers for marketing purposes. If you require further information on this, please email BAUS Events (events@baus.org.uk).

Prayer Room

A room will be available to delegates throughout the conference for private religious observance, please ask the BAUS Registration Desk for further details.

Programme

We will not have a printed programme for BAUS 2024; delegates should instead use the BAUS 2024 Platform/App. Printed 'Programme at a Glance' will be available to collect from the BAUS Registration Desk

Registration Desk

The desk will be situated in the Registration Foyer outside the Exhibition Hall 3. It will be open at the following times:

Monday 24 June	0800 - 1730
Tuesday 25 June	0800 - 1800
Wednesday 26 June	0800 - 1415

Satellite Symposia

Satellite Symposia will be held in Hall 1 Auditorium and Hall 3 Exhibition Hall (stand 230).

Scientific Session Access

Scientific sessions are only open to registered delegates and exhibitors with an all-access pass. **Please Note:** Entry to the conference or exhibition is **NOT** available to personnel from commercial companies who do not have an exhibition stand

Sustainability

For more information of ICC Birmingham's sustainability credentials, please visit:
www.theicc.co.uk/about-us/sustainability/

We will have various water refill points available throughout the venue and encourage delegates to bring their own water bottles and re-usable coffee mugs.

Teaching & Skills Courses

Teaching courses: Paediatrics Urology, Succeed the Portfolio Pathway, Good Urodynamics Practice, The Medical Protection Society: Medico Legal Course, Simulated Course for Urology NTN Interviews, An Evidence Based Approach to Managing Active Surveillance for Prostate Cancer, Updates in Stone Management, Management of Functional Urology Emergencies

Skills courses: Hands on Ultrasound Training, Cognitive/MRI Fusion LA Transperineal Biopsy of Prostate, Introduction to Robotics will take place at the ICC Birmingham.

Places are strictly limited, and we encourage delegates to book early to avoid disappointment. Certificates for onsite Teaching & Skills courses will only be issued to those whose attendance is registered by a member of staff.

Travel and Parking

Birmingham is easily reached from Birmingham Airport, with Birmingham New Street a 10-minute train ride from the terminal.

There are three train stations in the city centre, and all just a short walk from the ICC with New Street Station the closest.

Parking is available the Arena Birmingham (B1 2AA) for delegates travelling by car – charges apply. If you would like any further information or assistance, please visit: www.theicc.co.uk/find-us/

X (Twitter) & Social Media

BAUS 2024 is on X (Twitter):
[@BAUSurology](https://twitter.com/BAUSurology)
[#BAUS24](https://twitter.com/BAUS24)

Delegates are reminded of the GMC and BMA guidance in respect to social media.

Venue

The ICC Birmingham
8 Centenary Square
Birmingham
B1 2EA
United Kingdom

Virtual Interaction

Q&A for virtual attendees will be available for all sessions taking place in Hall 1 only. There will be no Q&A for sessions taking place in Halls 4, 8, 9, 10, & 11. Virtual attendees can engage in discussion & debate with other virtual attendees via the chat function.

Watch it again

Recorded content from the meeting will be uploaded onto the BAUS 2024 platform and available to Watch Again for up to 6 months.

Wi-Fi

Wi-Fi is available for the duration of the meeting using the following details:

Username: **BAUS2024**

Password: **Birmingham2024**

All Conference content, speakers and timings are correct at time of publication. The Organisers cannot be held responsible for changes due to circumstances beyond their control, including the withdrawal of speakers from the programme, for any reason.

University of Central
Lancashire

Monday 24 June: Karl Storz

1315-1400 Hall 1 Auditorium

Sustainable Healthcare: Using Evidence and Designing Change

This session will explore why the NHS is well placed to take a leading role in tackling climate change, and the progress to date on the path to net zero.

We will address gaps in knowledge and in action. How do we generate and interpret quality evidence? How do we think about harm in relation to greenhouse gas emissions? And how do we implement sustainable healthcare at scale?

Mr Joseph John,
National Fellow for
Getting It Right
First Time (GIRFT)
Urology programme,
Urology Specialty
Trainee (Southwest
Deanery), Royal
Devon and Exeter NHS
Foundation Trust

Monday 24 June: Coloplast

1530-1600 Hall 3 Exhibition Hall (Stand 230)

Presenting the Safety and Efficacy of Coloplast TFL Drive in Stone Management, Focusing on ThuFLEP with Coloplast TFL Drive

New Thulium Fibre technology - Coloplast TFL Drive where in vitro tests comparing Coloplast TFL Drive vs Holmium technology has shown an increased ablation volume, finer dust quality and less energy consumption. Discussions and videos from an expert faculty sharing their experiences and perspectives on this technology in stones and BPH.

TFL Drive - Safety and Efficacy in Stones

Professor Bhaskar Somani MRCS, FEBU, DM, FFSTEd, FRCS (Urol)

Consultant Urological Surgeon, Honorary Senior Lecturer, University Hospital Southampton

ThuFLEP with Coloplast TFL Drive

Mr Tamer el Hussein MBBCh, MSc, MD, FEBU, FRCS (Urol)

Consultant Urological Surgeon & Honorary Senior Clinical Lecturer, Imperial College London

Tuesday 25 June: medac Pharma

0900-0930 Hall 1 Auditorium

Are We Getting Intravesical Treatment Right in NMIBC?

Join medac Pharma and an international panel led by Professor Mariappan, to discuss best practices for managing High-Risk NMIBC patients.

Intro and Initial Interventions - Real World Outcomes in the NHS

Professor Param Mariappan, Symposium Chair

Ideal Pathway for High-Risk NMIBC in the NHS

Professor James Catto

Sub-Stratification and Selecting the Right Intravesical Treatment

Ms Elsie Mensah

EAU Recommendations for Contemporary BCG Treatment in High-Risk NMIBC

Tuesday 25 June: Procept Biorobotics
1315-1400 Hall 1 Auditorium

PROCEPT | AQUABLATION
BIOROBOTICS | THERAPY

Is Aquablation Therapy Becoming a New BPH Standard of Care?

Come and join us at for an insightful **symposium on how Aquablation therapy is shaping the future of BPH Care**, hosted by surgeon scientist in the field of urology, Dr. Kevin Zorn. Participate in-depth exploration of this clinically proven procedure, endorsed by numerous global guidelines, and accepted by leading urologists around the globe. Hear first-hand experiences from UK experts Mr. Neil Barber, Mr. Rick Popert and Mr. Jeremy Nettleton as they discuss their latest clinical data and why Aquablation therapy is poised to become the new standard of care. Don't miss this opportunity to be at the forefront of BPH Care innovation!

Chair: Dr Kevin Zorn,
University of Mont Real

Speakers:
Mr Neil Barber, Frimley
Park Hospital

Mr Rick Popert, Guy's
and St. Thomas' Hospital

Mr Jeremy Nettleton,
Gloucestershire Hospital

Cultivating Diversity and Inclusion in Urology: A Path to Better Patient Care

Join us at the Boston Scientific Symposium as we delve into the critical importance of Diversity, Equity, and Inclusion (DE&I) within the field of Urology. This symposium aims to explore how diverse gender and cultural representation can enhance patient satisfaction and improve medical outcomes.

Key Topics

Significance of DE&I in Medicine: Understanding how diverse perspectives and inclusive practices lead to better healthcare delivery.

Impact on Urology: Discussing how gender and cultural diversity among urologists can foster patient confidence and improve communication, leading to more effective medical advice and treatments.

Personal Journeys: Highlighting the experiences of two distinguished urologists, Miss Tamsin Greenwell and Mr. Anthony Noah, who come from diverse backgrounds. They will share their challenges, triumphs, and the ongoing efforts needed to create a more inclusive healthcare system in the UK and Ireland.

Join us and be part of the conversation on creating a more equitable future in medicine.

Tamsin Greenwell,
University College
Hospital, London

Anthony Noah,
University College
Hospital, London

Wednesday 26 June: BD
1330-1400 Hall 1 Auditorium

The Full Freehand Transperineal Prostate Biopsy

A review of Cost-Effectiveness, Diagnostic Accuracy and Greater Control.

This symposium will provide an in-depth exploration of the Full Freehand TP Biopsy Technique. The event will be segmented into several key presentations, each focusing on real world clinical experience of the Full Freehand technique.

Prof Persad will set the stage for the symposium, introducing the technique and its significance in the field of prostate biopsy. This symposium promises to be an enlightening event for all attendees, offering a deep dive into the potential capabilities of the Full Freehand technique, without the use of a guide, for transperineal prostate biopsy.

Mr Amar Mohee,

BAUS Section of Andrology and Genito-Urethral Surgery Annual Meeting

ANNUAL
MEETING
24-26 June

Introduction

On behalf of the Andrology and GenitoUrethral Surgery committee I would like to welcome you all to BAUS 2024 in Birmingham, where cutting-edge advancements and critical discussions in andrology and urethral surgery take centre stage. From Monday, June 24th to Wednesday, June 26th, esteemed experts from across the country and beyond, will convene to explore the latest developments, offering invaluable insights into these rapidly evolving fields, as well as provide opportunities for you to speak to and network with colleagues.

We start on Monday, June 24th (Hall 9; 1100-1230) with our showcase *“What’s going on in Andrology”*, which sets the stage for a series of engaging and diverse discussions by world renowned experts from the US, UK and Europe including penile augmentation, trans health issues, testosterone replacement and Post Orgasmic Illness Syndrome.

In the afternoon (Hall 9; 1630-1730), we have the new and improved video session examining new, (and re-visiting some old but gold), surgical techniques including; infrapubic penile prosthesis, laparoscopic groin node dissection, grafting with collagen fleece and Nesbit procedures in Peyronie’s disease, and emergency penile fracture repairs. A must see for tips and tricks and a chance to examine experts in their field.

On Tuesday we have the ever-popular joint session with our sister sections FNUU and BAGURS (Hall 8; 1400-1500hrs) and then in the afternoon we have an unmissable chance to update your knowledge with a run through of *“The papers that Changed Andrology and urethral surgery in 2023.”*

Building on last year’s highly rated sessions, the Benign Andrology MDT (25th June; Hall 9; 1630-1730) and Genital Cancer MDT (26th June; Hall 10; 1400-1500) returns, where experts will explore the uncertainties of diagnosis and management in erectile dysfunction, Peyronie’s, infertility, testis and penile cancer.

On behalf of Vaibhav, Ayo, myself and the committee, we invite you to immerse yourself in the rich learning and networking opportunities that await. Whether you are a seasoned practitioner or a trainee seeking to expand your knowledge, BAUS 2024 promises to be a transformative experience, shaping the future of urological care.

BAUS Section of Female, Neurological and Urodynamic Annual Meeting

ANNUAL
MEETING
24-26 June

Introduction

A very warm welcome to BAUS 2024, on behalf of the BAUS Section of Female, Neurological and Urodynamic Urology (FNUU) or as we liked to be known - the FUN section. The FNUU Committee - Mo Belal (ex-chair) Suzanne Biers (Secretary), Hashim Hashim, Magda Kuwaja, Mahreen Pakzad, Nadir Osman, Ased Ali, Tina Rashid, Andrew Kozan (BSOT rep) and myself have created a stimulating educational program for this year. I would like to thank Mo Belal for his excellent leadership over the last 2 years. He has truly been a role model and an inspiration. I would like to thank Ased Ali and Tina Rashid for their valuable contributions as they leave the committee and welcome James Moore and Mehwash Nadeem to the FNUU family.

Over the 3 days we cover a range of functional and reconstructive topics and have joint sessions with the sections of oncology, endourology and AGUS/BAGURS. We are also excited to have Professor John Stoffel, MD from the University of Michigan, USA, Dr Benoit Peyronnet, Associate Professor at the Rennes University, France and Professor Helen O'Connell, University of Melbourne, Australia as our international guests speaking and / or chairing in the programme.

The program will start mid-morning on Monday with the FNUU highlights session, featuring updates from Sachin Malde, Chris Harding and Mo Belal on the latest developments in research, clinical trials, and mesh. Afterwards, we turn our focus to uro-neurology and will hear from Professor Stoffel on the USA Neurogenic Bladder Research Group Registry on LUTS, incontinence and bowel dysfunction. We will get an update on the spinal injuries and the UK network from Richard Nobrega, and finally hear on the fertility aspects and sexual dysfunction in spinal cord injured patients from Asif Muneer. Monday finishes with a 'How to do...' session and includes several robotic reconstructive procedures as well as the vaginal approach to vesicovaginal fistula repair from experts in the field including Anthony Koupparis, Hashim Hashim, Tamsin Greenwell, Benoit Peyronnet and Arjun Nambiar.

Tuesday's program includes 3 sessions. The first session covers all aspects on overactive bladder and we will hear presentations from Andy Kozan, Mehwash Nadeem, Mahreen Pakzad, Ased Ali and Simon Fulford. Following on from this we have the joint FNUU/AGUS/BAGURS session - 'widen our horizons - update on stricture, stenosis and prosthetics'. Speakers include Tony Mundy, Benoit Peyronnet, Suzanne Biers and Asif Muneer. Next is a very relevant session on 'diversifying the urology workforce' and we will be updated on workforce planning and the roles of advanced nurse practitioners and clinical scientists in urology departments. In the session we will hear views from Mark Rochester, Eskinder Solomon, Julie Jenks and Jonathan Broughton.

Wednesday's schedule includes a joint session with endourology on ureteric stricture management. Findlay MacAskill will deliver the final results from the REJOIN UK experience of ureteric injury management audit, and we will then hear about ureteric injury and stricture management - endoscopic, robotic buccal mucosa grafting and open reconstruction perspectives from Alistair Rogers, Rajesh Nair and Voula Granitsiotis, respectively.

Arun Sahai, Chair,
BAUS Section
of Female,
Neurological
and Urodynamic
Urology

Mo Belal,
Immediate Past
Chair, BAUS
Section of Female,
Neurological
and Urodynamic
Urology

Suzanne Biers,
Secretary, BAUS
Section of Female,
Neurological
and Urodynamic
Urology

The session will finish with 'challenging ureter cases' from Joe Phillip, Nikesh Thiruchelvam and Muhammed Shamim Khan and will focus on uretero-ileal stenosis, endometriosis and radiation/RPF cases. The final session is joint with oncology and covers the topic of urinary diversion. There is a not to be missed debate of open versus robotic continent urinary diversion from James Catto and John Kelly, followed by a complications MDT run by Richard Nobrega and Rosie Blades. Next up is an incontinent diversion overview from James Dyer and, last but not least, Jeremy Ockrim will discuss continent catheterisable channels.

Our ePoster session is on Tuesday morning, featuring presentations from various UK functional units. We also have two excellent teaching courses. 'Good Urodynamics Practice' led by Hashim Hashim which will take place on Monday from 1630. A new and exciting course on the 'Management of Functional Urology Emergencies' will be led by Sachin Malde on Wednesday.

I would like to thank all the speakers and chairs for their expertise, time and efforts in making this such a wonderful programme.

I hope you will join us for as many FNUU sessions as possible and look forward to seeing you in person. On behalf of the FNUU subcommittee, I wish you a productive and enjoyable BAUS 2024.

Introduction

We are excited to introduce our sessions for BAUS 2024. We are fortunate to have eight sessions dedicated to Endourology this year and we have put together an interesting collection of topics that guarantees to stimulate your curiosity and appeal to both subspecialist Endourologists as well as General Urologists.

On Monday 24th June (1100-1230), our expert panel of Nephrologists and Urologists will share their experience in the management of a “mixed bag” of renal and transplant problems, advances in Nephrology and management of retroperitoneal fibrosis. This is your opportunity to learn everything you wanted to know about contemporary Nephrology, but were afraid to ask.

No Urology meeting is complete without an update on the increasing alternatives to TURP. On Monday afternoon (1400-1500) an expert panel will discuss details of Rezūm, Urolift, iTind and Echolaser, followed by a case-based discussion.

Also on Monday 24th June (16.30-1730), we will hold a fascinating balloon debate on new technology used in Endourology with experts debating for disposable scopes, new LASERs, applications of Artificial Intelligence (AI), suction devices & pressure monitoring, and the application of genetics in stone disease.

The first session on Tuesday 25th June (1130-1230) showcases topical issues around infections in Urology. This will include pre-operative management of urinary tract infections (UTIs), fungal infections, instillations for upper tract infections, infections associated with small stones, and the future direction of UTI research.

The afternoon of Tuesday 25th June (1400-1500) features two further sessions, the first discussing different aspects of the management of PUJ obstruction then followed by an update about “*What is new?*” in Endourology. As well as covering new research on stones, BPH, upper tract urothelial cancer and related clinical trials, we bring to you the results of the recently conducted National Nephrostomy snapshot audit.

The final session on Tuesday (1630-1730) is not one to be missed with experts in Endourology taking part in an MDT discussing challenging cases.

If Monday and Tuesday haven't completely satisfied your quest for knowledge, we have a joint session on Ureteric strictures with FNUU on Wednesday 26th June (1130-1300). Topics for this session include Endoscopic and minimally invasive management, as well as more invasive techniques, followed by presentation of the results of the REJOIN audit and an MDT discussion of difficult cases. We are also running another iteration of the “*Updates in stone management*” teaching course where an expert faculty will provide up-to-date evidence and practice guidelines, also on Weds 26th June.

We are looking forward to seeing you all in Birmingham for a packed programme!

Subu Subramoniam,
Chair, BAUS

Section of
Endourology

Introduction

Welcome to BAUS 2024 in Birmingham! The Section of Oncology is thrilled to extend a warm invitation to all participants, promising an engaging exploration of the latest advancements in uro-oncological care. Our meticulously crafted program, led by a consortium of esteemed international and national experts, offers a captivating journey into the depths of uro-oncological practice.

Monday

The inaugural oncology session promises an immersive dive into the realm of uro-oncological surgery. Chaired by Amit Mevcha, Karen Fransis and Philip Charlesworth, esteemed speakers from around the world and own national experts will unveil ground-breaking techniques aimed at revolutionizing patient care. From Karen Fransis's innovative robotic-assisted radical prostatectomy techniques to N. Raghavan's insights into augmented reality's pivotal role in complex robotic partial nephrectomy, each presentation aims to inspire and inform. Bhaskar Somani will discuss expert techniques in the endoscopic management of Upper Tract Urothelial Cancers (UTUC), while BM Zeeshan Hameed will present En-Bloc Resection of Bladder Tumours using novel energy and non-energy sources. Campbell Tait will explore the evolving role of Transurethral Laser Ablation for Bladder Tumours, and Alistair Lamb will navigate the challenges of difficult Transperineal Prostate Biopsy, offering strategies for enhanced accuracy. Ashwin Sridhar will share points of technique in Robotic Intracorporeal Neobladders, aiming for optimal outcomes.

In the afternoon the discourse continues with sessions exploring synchronous pathologies in uro-oncology and navigating management challenges. The session is chaired by Nina Patrick, Gokul Kandaswamy and Elizabeth Bright. With insights from Param Mariappan, Alex Laird, Nikhil Vasdev, and Bill Cross, attendees can expect a comprehensive understanding of diagnostic and management strategies.

The final session on Monday will focus on "Navigating Urological Diagnostic Challenges: Strategies and Innovations." Facilitated by Mr. Ben Ayres and Karen Fransis, this session will guide participants through the intricate landscape of diagnostic hurdles encountered in urological oncology. Esteemed experts including Joe Philip, Benjamin Lamb, Asif Muneer, and Maxine Tran will contribute to this session.

Tuesday

Tuesday promises to be a bustling day for uro-oncology, featuring four exhilarating sessions. We commence with a "Fresh Off the Press" session, dedicated to exploring the most recent advancements and trial outcomes in the field. This session will be chaired by our national experts: Rakesh Heer, Grant Stewart and Caroline Moore. From the shifting paradigms in metastatic urothelial cancers, as presented by Thomas Powles, to the latest updates on NMIBC EAU guidelines, led by Paolo Gontero, attendees will be kept informed about the continuously evolving landscape of urological oncology. Alison Tree will delve into the updates from the PACE trial, while Prasanna Sooriakumran will address the necessity for a UK-based trial assessing the role of radical prostatectomy in metastatic prostate cancer. I will provide insights into the ongoing I-DUNC Audit.

Jon Aning, Chair,
BAUS Section of
Oncology

**Vishwanath
Hanchanale**,
Vice Chair,
BAUS Section of
Oncology

Bhavan Rai,
Secretary, BAUS
Section of
Oncology

The second oncology session addresses the holistic needs of individuals with urological cancer, exploring end-of-life care pathways and mitigating treatment-related regret. Chaired by Murthy Kusuma, Helena Burden, and Mary Brown, expert speakers include Christopher Wallis, Kerem Atalar, and Alice Hartley.

At 15:30 to 16:30, a virtual multidisciplinary session moderated by Vijay Ramani and Tom Walton will replicate real-life practice with expert panellists.

The final session culminates with thought-provoking discussions on resilience and sustainability in complex uro-oncological procedures, chaired by Edgar Paez, Jon Anning, and Elizabeth Bright.

Wednesday

The final day features a session titled “Controversies in Uro-Oncology,” with presentations and discussions on various contentious topics in the field. Chaired by Vish Hanchanale, Jo Creswell, and Jim Armitage, this session will address updates on prostate cancer screening by Hashim Ahmad, the role of lymph node dissection for high-risk renal cell carcinomas by Axel Bex, the ongoing debate surrounding pelvic lymph node dissection in prostate cancer by Krishna Narahari, management of persistent low-grade bladder recurrences despite previous intravesical therapy with MMC and BCG by Paolo Gontero, and whether molecular imaging should replace conventional imaging in the staging of advanced urothelial cancer by Prashanth Patel. The session will conclude with Jose Karam’s presentation on screening for cytoreductive nephrectomy in patients with metastatic renal cancer.

The final oncology session is joint session between section FNUU and Oncology chaired by Vishwanath Hanchanale and Hazel Ecclestone. In this joint session, members from Section FNUU and Oncology convene to deliberate on the optimal surgical approach for radical cystectomy, discuss real-life scenarios in a Complication MDT, Incontinent Diversions and Continent Catheterizable Channels.

This year, we’re proud to host several exceptional poster sessions, celebrating our excellence. We encourage you to visit these sessions, which are likely to be dominated by our talented trainees showcasing their latest research and findings.

Finally, we extend our heartfelt gratitude to our esteemed international speakers for their invaluable contributions to our program: Paolo Gontero, Karin Fransis, Christopher Wallis, and Jose Karam. Their expertise and insights enrich our conference, and we’re honoured to have them join us.

We hope you thoroughly enjoy the uro-oncology sessions we’ve meticulously developed, and we look forward to a rewarding and enlightening experience together.

Introduction

The BAUS Section of Trainees (BSoT) is excited to welcome you all at BAUS 2024. Our Monday programme kicks off with our 'Challenges as a Surgeon' session. It will feature various topics that affect all surgeons including dealing with complications and conflict resolution. Ben Challacombe will conclude the session by delivering a talk on 'Taking care to avoid the 7 Deadly Sins of Surgery', which will no doubt be a must, given his vast experience in complex surgeries.

Tuesday is a jam-packed day, starting bright and early with the 5km BSoT Fun Run (don't forget your running shoes!) for TUF along the Birmingham Canal. Our 'Freedom to speak up... Or not' session is guaranteed to be one of the highlights of BAUS 2024. The session will explore the intricacies of whistleblowing and the implications for those involved. Ravi Jayaram will start the session with his account of whistleblowing in the Lucy Letby case that shook up the country. Peter Duffy, ex-urology consultant, will share his experience of the aftermath following whistleblowing. The partners of Cole Khan law firm will explain the existing laws that protect us and our careers. Our afternoon session 'Urology in the Age of Artificial Intelligence in Urology' will delve into the emerging use of AI in Urology, especially related to training. We finish a packed Tuesday schedule with the annual BSoT social dinner kindly sponsored by Karl Storz.

Concluding our programme on Wednesday is the "Future Directions for Urologists". This session will cover everything from fellowships, the new urology curriculum and infertility and pregnancy issues among doctors. This will also be a great opportunity for those in all training pathways to see what BSoT does and how to get involved. We will conclude the session with the presentation of the Silver and Bronze Cystoscope Awards.

Sarika Nalagatla,
Chair, BAUS
Section of Trainees
(BSoT)

Tony Tien,
Secretary, BAUS
Section of Trainees
(BSoT)

BAUS Section of SAS and Trust Urologists

ANNUAL
MEETING
24-26 June

Introduction

On behalf of the BAUS Section of SAS and Trust Urologist Committee, we are thrilled to welcome you all to the BAUS Annual Meeting 2024. This is a special year for us as a newly formed Section, and marks the start of an exciting chapter for SAS and Trust Urologists. We hope to make you all feel welcome and very much an integral part of BAUS and British Urology.

Our inaugural session is on Tuesday afternoon when we are excited to meet you all for a wide ranging discussion about the STU journey to date, and the opportunities for us individually and as a group going forwards. We are grateful for the unwavering and invaluable support of BAUS President Jo Cresswell and Vice President Ian Pearce, who will be joining us to share their perspectives for the Section. We hope to see as many SAS and Trust Urologists, as well as non-STU colleagues and friends, at the session as possible.

We are also excited to be offering a course at BAUS this year to help delegates navigate the Portfolio Pathway. We have experienced Course Directors and Faculty to help attendees understand the application process and requirements. We will be joined by Justine Royale, Chair of the Urology SAC, to hear the assessor's perspective of the Portfolio Pathway which will be invaluable for candidates. The course is on Monday afternoon, and places are limited, so register soon to avoid disappointment!

We look forward to meeting old friends and new faces alike and are very keen to hear your experiences, thoughts and what you would like from the Section. Please feel free to approach any of the Committee during the Meeting to say hi and see where we can take our new Section together.

**Samavedam
("SS") Murali,**
Chair, BAUS
Section of SAS and
Trust Urologists

Adham Ahmed,
Vice Chair, BAUS
Section of SAS and
Trust Urologists

Rickaz Raheem,
Secretary, BAUS
Section of SAS and
Trust Urologists

British Urology Researchers in Surgical Training (BURST)

ANNUAL
MEETING
24-26 June

Introduction

We are delighted to welcome our colleagues and collaborators at BAUS 2024. BURST continues to grow from strength to strength and this is well represented in our BAUS activity this year. This year, for the first time, BURST will expand our programme across all three conference days to cover the wide range of our ongoing studies involving all sections of BAUS.

The first day will cover *“Big Data, AI and International Collaboration”*, chaired by Jo Cresswell and Kevin Gallagher. We anticipate this topic will be timely, given growing interest in the use of artificial intelligence (AI) across urology. Our keynote speaker, Professor Nikhil Vasdev will explore how AI will be applied to our clinical practice in the coming years. Further, the recent release of our RESECT study results, the largest dataset on TURBT quality with nearly 20,000 patients, will be sure to generate a buzz. Our study leads Kevin Gallagher and Nikita Bhatt will be leading the discussion alongside our star-studded panel of Veeru Kasivisvanathan, Param Mariappan, Elsie Mensah and John Kelly.

Our second day introduces WASHOUT, our latest and greatest project investigating the management of inpatient haematuria. This session will be chaired by Kevin Byrnes and Nikita Bhatt. This session will involve a quick-fire MDT on emergency haematuria, with a selection of diverse specialists providing insights on CEPOD management (John McGrath), hyperbaric oxygen (Thomas Lynch), oncological management (Amy Clifford), interventional radiology (Conrad Von Stempel), surgical management (Jhumar Pati). Ben Challacombe will chair a round-table discussion and pitch clinically relevant cases to the panel to see how expert knowledge can be applied to achieve optimal patient management.

Our last session will include a pair of debates on controversial areas in urology, chaired by Veeru Kasivisvanathan and Hannah Warren. The first quick-fire debate will pitch Milan Gopan against Caroline MacDonald for the motion *“Improving the Pathway in Testicular Torsion in the UK: More than a Pipe Dream?”*. We hope this subject will generate much discussion given the recent publication of GIRFT and CEPOD national guidance. It also bears direct relevance to the RESCUE study by BURST. Our second debate will see the motion *“Anticoagulation in The Postoperative Period: How Do We Get the Balance Right?”* debated by Kari Tikkinen and Alex Colquhoun. Accompanying this will be an introduction to the ARTs trial by Alex Ng. These debates promise to be a lively, engaging and interactive discussion.

We look forward to welcoming our project collaborators to the annual BURST dinner on Monday evening, but also welcome all attendees to join us for a welcome drink on Monday afternoon, just before we kick off the BURST programme.

We are looking forward to seeing you all in Birmingham!

Kevin Byrnes,
Co-Chair, BURST

Arjun Nathan,
Co-Chair, BURST

Cameron Alexander,
BURST lead for
BAUS programme,
Co-Vice Chair,
BURST

Hall 1
1400-1500

Pre-habilitation & Frailty Management for the Complex Urology Patient

Chairs: **Aniruddha Chakravarti**, New Cross Hospital, Wolverhampton and **Katherine Warren**, Southmead Hospital, Bristol

- 1400-1402 **Introduction**
Aniruddha Chakravarti, New Cross Hospital, Wolverhampton and **Katherine Warren**, Southmead Hospital, Bristol
- 1402-1414 **Enhanced Care for the Frail Urology Patient and Accelerating Safe Discharge**
David Shipway, Consultant Physician in Complex Care, North Bristol NHS Trust
- 1414-1426 **The Use of CPET Before Major Surgery**
Matthew Stott, Consultant Anaesthetist, Liverpool University Hospitals
- 1426-1438 **Peri-operative Optimisation of Complex Urology Patients**
Professor S. Ramani Moonesinghe, National Clinical Director for Critical and Perioperative Care, NHS England, Director, NIHR Central London Patient Safety Research Collaboration and Professor and Head of Centre for Perioperative Medicine, University College Hospital, London
- 1438-1458 **Frailty and Peri-operative Enhanced Care MDT**
All Faculty
- 1458-1500 **Summary**
Aniruddha Chakravarti, New Cross Hospital, Wolverhampton and **Katherine Warren**, Southmead Hospital, Bristol

Hall 4
1400-1500

Synchronous Pathology in Uro-Oncology: Challenges and Solutions

Chairs: **Elizabeth Bright**, Royal Cornwall Hospital, Truro, **Nina Patrick**, Arrowe Park Hospital, Wirral and **Gokul Kandaswamy**, Morrision Hospital, Swansea

- 1400-1402 **Introduction by Chairs**
- 1402-1414 **Navigating Synchronous High-Grade Unilateral UTUC and High-Risk NMIBC in a Fit Patient**
Param Mariappan, Western General Hospital, Edinburgh
- 1414-1416 **Q&A**
- 1416-1428 **Considerations in Managing Synchronous Bilateral Renal Masses: Expert Guidance**
Alexander Laird, Western General Hospital, Edinburgh
- 1428-1430 **Q&A**
- 1430-1442 **Diagnostic and Management Strategies for Fit Patients with MIBC and High-Risk Prostate Cancer, including Pelvic and Retroperitoneal Lymphadenopathy**
Nikhil Vasdev, Lister Hospital, Stevenage
- 1442-1444 **Q&A**
- 1444-1456 **Approach to Managing Cambridge Prognostic Score 4 Prostate Cancer in a Fit Man with Ulcerative Colitis in Their 50s**
William Cross, St James's University Hospital, Leeds
- 1456-1458 **Q&A**
- 1458-1500 **Conclusion by Chairs**

Hall 8
1400-1500

Minimally Invasive Treatments for BPH – Case Discussion

Chairs: **Feras Al Jaafari**, NHS Fife, Scotland, **Richard Hindley**, Basingstoke and North Hampshire Hospital and **Danielle Whiting**, Frimley Park Hospital

- 1400-1410 **Rezum**
Elsie Mensah, Guy's & Thomas's Hospital, London
- 1410-1420 **UroLift**
Ananda Dhanasekharan, Sandwell District General Hospital, West Bromwich
- 1420-1430 **iTind**
Toby Page, Freeman Hospital, Newcastle
- 1430-1440 **Echo Laser**
Petre Cristian Ilie, Norfolk and Norwich University Hospital
- 1440-1500 **Case Based Discussion**

Hall 9

1400-1500

Navigating Complex Urological Pain & Wellness

Chairs: **Mo Belal**, Queen Elizabeth Hospital, Birmingham and **Mahreen Pakzad**, University College Hospital, London

- 1400-1415 **Chronic Testicular Pain: Evaluation and Multidisciplinary Management**
Johnny Boylan, Consultant Physician in Genitourinary Medicine, Liverpool University Hospitals
- 1415-1420 **Q&A**
- 1420-1435 **Chronic Pelvic Pain: Unravelling the Complexity**
Moein Tavakkoli, Consultant in Pain management and Neuromodulation, National Hospital for Neurology and Neurosurgery, The London Clinic
- 1435-1440 **Q&A**
- 1440-1455 **Psychological Care for Genito-Urinary Pain: Beyond Organic Causes**
Caroline Selai, Chartered Psychologist for Neurology and Neurosurgery, University College Hospital, London
- 1435-1500 **Q&A**

Hall 10

1400-1500

Lower Urinary Tract and Sexual Function Aspects of Neurological Injury

Chairs: **Nadir Osman**, Royal Hallamshire Hospital, Sheffield and **Richard Parkinson**, King's Mill Hospital, Nottinghamshire

- 1400-1425 **Lessons Learnt from the USA Neurogenic Bladder Research Group Registry on LUTS, Incontinence & Bowel Dysfunction**
John Stoffel, University of Michigan, USA
- 1425-1430 **Q&A**
- 1430-1445 **Spinal Injury Update & UK Networks**
Richard Nobrega, University College Hospital, London
- 1445-1500 **Sexual Dysfunction & Infertility in Spinal Cord Injured Patients**
Asif Muneer, University College Hospital, London

Hall 11A
1400-1500

Paediatric Urology Debates

Chairs: **Shabnam Undre**, Consultant Adult and Paediatric Urological Surgeon, Lister Hospital, Stevenage and **Anu Paul**, Consultant in Paediatric Urology, Guy's & St Thomas' Hospitals, London

- 1400-1410 **NCEPOD Torsion Report**
Antony Michalski, Consultant Paediatric Oncologist, Great Ormond Street Hospital, London and co-author, National Confidential Enquiry into Patient Outcome and Death (NCEPOD)
- 1410-1420 **Q&A**
- 1420-1440 **Debate on Hypospadias Repair**
- 1420-1422 **Audience Poll**
- 1422-1429 **Nia Fraser**, Paediatric Surgeon, Nottingham University Hospitals
- 1429-1436 **Mohamed Shalaby**, Paediatric Surgeon, Bristol Children Hospital
- 1436-1440 **Audience Poll & Discussion**
- 1440-1500 **UTI & Bowel Management in Children**
- 1440-1447 **UTI Management**
Anu Paul, Consultant in Paediatric Urology, Guy's & St Thomas' Hospitals, London
- 1447-1454 **Bowel Management**
Anne Wright, Consultant in Paediatric Urology, Guy's & St Thomas' Hospitals, London
- 1454-1500 **Discussion and Summary**

Hall 1
1500-1530

BAUS Guest Lecture:

Achieving High Clinical Standards & Looking after the 'Human Capital': Learning from Industry

Chairs: **Amol Pandit**, Morrision Hospital, Swansea and **Lisa Dodgshon**, Chair of the BAUS Digital Strategy Working Group and BAUS Trustee

Ravi Limaye OBE, Managing Director of Wockhardt UK

1630-1730

The Invisible Threat - Burnout and How to Avoid it

Chairs: **Alan McNeill**, Western General Hospital, Edinburgh, and Chair, BJU International and **Sarah Itam**, Frimley Health NHS Foundation Trust

- 1630-1642 **Burnout**
Caroline Elton, Clinical Psychologist
- 1642-1654 **Data from BAUS & Bournemouth**
Steve Payne, BAUS Workforce Lead and Retired Consultant Urologist
- 1654-1702 **How I Recognised I Was Suffering From Burnout**
Jim Adshead, The Lister Hospital, Stevenage
- 1702-1710 **Sabbaticals and How to Use Them**
Ruth Doherty, Norfolk and Norwich University Hospital
- 1710-1718 **Changing On-call Rotas and Other Tips for Surviving the Modern NHS**
Maeve Doohar, Ulster Hospital, Belfast
- 1718-1730 **Q&A and Summary**

Hall 4
1630-1730

Navigating Urological Diagnostic Challenges: Strategies and Innovations

Chairs: **Ben Ayres**, St George's Hospital, London and **Karen Fransis**, Oncological Urologist and Robotic Surgeon, University Hospital Antwerp, Belgium

- 1630-1632 **Introduction by Chairs**
- 1632-1644 **Optimal Diagnostic Pathway for Suspected Upper Tract Urothelial Carcinoma (UTUC)**
Joe Philip, BAUS Honorary Secretary and Southmead Hospital, Bristol
- 1644-1646 **Q&A**
- 1646-1658 **Risk Stratified Approach to PSA Persistence Following Radical Prostatectomy**
Benjamin Lamb, The Royal London Hospital
- 1658-1700 **Q&A**
- 1700-1712 **Navigating Indeterminate Testicular Masses: Diagnostic and Management Approaches**
Asif Muneer, University College Hospital, London
- 1712-1714 **Q&A**
- 1714-1726 **Approach to Indeterminate Renal Masses: Diagnosis and Management Strategies**
Maxine Tran, Royal Free Hospital, London
- 1726-1728 **Q&A**
- 1728-1730 **Conclusion by Chairs**

Hall 8
1630-1730

New Technology in Endourology - Balloon Debate

Chairs: **Sian Allen**, University College Hospital, London and **Matthew Bultitude**, Guy's & St Thomas' Hospital, London

- 1630-1633 **Introduction by Chairs**
One speaker is eliminated via audience vote after each round
- 1633-1653 **Round 1: 4-Minutes Per Speaker**
- 1653-1655 **Poll 1 & Elimination**
- 1655-1707 **Round 2: 3-Minutes Per Speaker**
- 1707-1709 **Poll 2 & Elimination**
- 1709-1718 **Round 3: 3-Minutes Per Speaker**
- 1718-1720 **Poll 3 & Elimination**
- 1720-1724 **Round 4: 2-Minutes Per Speaker**
- 1724-1726 **Poll 4 & Final Elimination**
- 1726-1730 **Conclusion**
Speakers:
- Disposable Scopes**
Oliver Wiseman, Addenbrooke's Hospital, Cambridge
- New Lasers**
Louise Paramore, University Hospital Southampton
- AI Application**
Ben Turney, Churchill Hospital, Oxford
- Suction Devices and Pressure Monitoring**
Vimo Arumham, University College Hospital, London
- Genetics Applications**
Sarah Howles, Churchill Hospital, Oxford

Hall 9
1630-1730

I Have Always Wanted to See... an Instructional Video Session

Chairs: **Arie Parnham**, The Christie NHS Foundation Trust, Manchester and **Ayo Kalejaiye**, University Hospitals, Birmingham

- 1630-1640 **Infrapubic Penile Prosthesis**
Paul Perito, Perito Urology, Miami, United States
- 1640-1650 **VEILND/RAVEIL**
Vivekanandan Kumar, Norfolk and Norwich University Hospital
- 1650-1700 **Grafting with Collagen Fleece**
Georgios Hatzichristodoulou, MD, MHBA, FEBU, FECSM, Department of Urology, Martha-Maria Hospital Nuremberg, Germany
- 1700-1710 **Nesbit Plication**
Kirby Sebro, Western General Hospital, Edinburgh

- 1710-1720 **Penile Fracture Repair**
Marta Skrodzka, St George's Hospital, London
- 1720-1730 **Q&A**

Hall 10
1630-1730

How to Do...

Chairs: **John Stoffel**, University of Michigan, USA and **Helen E. O'Connell AO**, President, Urological Society Australia and New Zealand (USANZ)

- 1630-1642 **Robotic Ileocystoplasty & Male Artificial Urinary Sphincter Insertion**
Anthony Koupparis, Southmead Hospital, Bristol
- 1642-1645 **Q&A**
- 1645-1657 **VVF Repair**
Tamsin Greenwell, University College Hospital, London
- 1657-1700 **Q&A**
- 1700-1712 **Robotic Female AUS**
Benoît Peyronnet, University of Rennes, France
- 1712-1715 **Q&A**
- 1715-1727 **Robotic Mesh Removal**
Arjun Nambiar, Freeman Hospital, Newcastle
- 1727-1730 **Q&A**

Hall 11A
1630-1730

BURST:

Big Data, AI and International Collaboration

Chairs: **Jo Cresswell**, President of BAUS and James Cook University Hospital, Middlesbrough and **Kevin Gallagher**, Western General Hospital, Edinburgh

- 1630-1640 **Welcome and BURST Updates**
Arjun Nathan, Royal Free Hospital, London and **Kevin Byrnes**, North Middlesex University Hospital London
- 1640-1700 **The BURST Guest Lecture: How will Artificial Intelligence (AI) Transform your Clinical Practice?**
Nikhil Vasdev, Lister Hospital, Stevenage

Hall 1 Auditorium

0900-0930 **medac Pharma Satellite Symposium** : medac pharma

See page 21 for details

Hall 1

0930-0950 **Presentation of the St Paul's & St Peter's Medal**

Chair: **Jo Cresswell**, President of BAUS and James Cook University Hospital, Middlesbrough

0930-0940 **Presentation of the St Paul's Medal**

Citation by: **Majid Shabbir**, Guy's & St Thomas' Hospital
Presented to: **Sanjay Kulkarni**, Endosurgery Institute, Pune, India and Past-President, Urological Society of India (USI)

0940-0950 **Presentation of the St Peter's Medal**

Citation by: **Tariq Sami**, City Hospital Birmingham
Presented to: **Muhammad Shamim Khan**, Guy's & St Thomas' Hospitals, London

Hall 1

0950-1010 **President's Address**

Jo Cresswell, President of BAUS and James Cook University Hospital, Middlesbrough

Hall 1

1010-1030 **Presidential Handover**

Investiture of Ian Pearce as President of BAUS

Hall 1

1030-1100 **BAUS Guest Lecture: Cancer: A Lived Experience**

Chairs: **Amol Pandit**, Morriston Hospital, Swansea and **Narin Suleyman**, Lister Hospital, Stevenage

John Hartson, Welsh Former Professional Footballer, Coach & Sports Television Pundit

1100-1130 Refreshments, Networking and Exhibition Viewing

Hall 1
1130-1200

BJUI Guest Lecture and John Blandy Prize Presentation

Chair: **Alan McNeill**, Western General Hospital, Edinburgh, and Chair, BJUI International

1130-1155 **BJUI Guest Lecture:
The NHS Today and the Opportunities for Transformation**
Richard Meddings CBE, Chair of NHS England

1155-1200 **John Blandy Prize Presentation:
The Rapid Assessment for Prostate Imaging and
Diagnosis (RAPID) Prostate Cancer Diagnostic Pathway**
David Eldred-Evans, Imperial College Hospital, London

Hall 8
1130-1230

Fresh Off the Press: Urological Cancer Management

Chairs: **Rakesh Heer**, Charing Cross Hospital, London, **Grant Stewart**, University of Cambridge and Addenbrooke's Hospital, Cambridge and **Caroline Moore**, University College Hospital, London

1130-1132 **Introduction by Chairs**

1132-1143 **Changing Paradigms in Metastatic Urothelial Cancers-
Outcomes of the EV-302 Trial**
Thomas Powles, Professor of Genitourinary Oncology, Queen Mary University of London's Barts Cancer Institute and the Director of the Barts Cancer Centre, St. Bartholomew's Hospital

1143-1145 **Q&A**

1145-1153 **Stereotactic Body Radiotherapy for Localised Prostate
Cancer-PACING Ahead**
Alison Tree, Consultant Clinical Oncologist, The Royal Marsden Hospital, London

1153-1155 **Q&A**

1155-1203 **Is there a PRESIDENT for a UK-Based Trial: Evaluating the
Role of Radical Prostatectomy in Low Volume Hormone-
Sensitive Metastatic Prostate Cancer**
Prasanna Sooriakumaran, University College Hospital, London

1203-1205 **Q&A**

1205-1217 **Highlights of the new NMIBC EAU Guidelines**
Paolo Gontero, Professor of Urology, Chairman Department of Urology, Molinette Hospital, University School of Medicine, Torino, Italy

1217-1220 **Q&A**

1220-1226 **Update from the I-DUNC Audit (Impact of Diagnostic
Ureteroscopy on Radical Nephroureterectomy and
Compliance with Standard Care Practices)**
Bhavan Rai, Freeman Hospital, Newcastle

1226-1228 **Q&A**

1228-1230 **Conclusion by Chairs**

Hall 9
1130-1230

Infections and UTI

Chairs: **Hari Ratan**, Nottingham University Hospitals and **Rashmi Singh**, Kingston Hospital, London

- 1130-1140 **Pre-op Planning and Treatment**
Annie Joseph, Consultant Microbiologist, Nottingham University Hospitals
- 1140-1150 **Fungal Infections**
Anna Wild, Specialist Registrar in Infectious Diseases & Microbiology, Nottingham University Hospitals
- 1150-1200 **Future of UTI Research**
Zafer Tandogdu, University College Hospital, London
- 1200-1210 **Upper Tract Instillation**
Rhana Zakri, Guy's & St Thomas' Hospitals, London
- 1210-1220 **Small Stones and UTIs**
Angela Cottrell, Royal Devon and Exeter Hospital
- 1220-1230 **Q&A**

Hall 10
1130-1230

Everything You Need to Know to Manage Non-neurogenic Overactive Bladder Syndrome

Chairs: **Magda Kujawa**, Stepping Hill Hospital, Stockport and **Nicholas Faure Walker**, King's College Hospital, London

- 1130-1140 **Assessment & Investigation**
Andy Kozan, St James's University Hospital, Leeds
- 1140-1150 **Update on Medications**
Mehwash Nadeem, The James Cook University Hospital, Middlesbrough
- 1150-1200 **Update on Botox**
Mahreen Pakzad, University College Hospital, London
- 1200-1210 **Update on Neuromodulation**
Ased Ali, Pinderfields Hospital, Wakefield
- 1210-1220 **Is There a Place for Bladder Augmentation in 2024?**
Simon Fulford, The James Cook University Hospital, Middlesbrough
- 1220-1230 **Q&A**

Hall 11A
1130-1230

Freedom to Speak Up...Or Not

Chairs: **Tony Tien**, Homerton University Hospital, London and **Radha Sehgal**, Royal Free Hospital, London

- 1130-1150 **Employment Law - Protecting Yourself and Your Career**
Shazia Khan, Cole Khan Solicitors LLP and **Emilie Cole**, Cole Khan Solicitors LLP

- 1150-1210 **Whistleblowing and Being Heard - The Headlines That Shook Up the Country**
Ravi Jayaram, Consultant Paediatrician, Countess of Chester Hospital
- 1210-1230 **The Aftermath from Whistleblowing - Lessons Learnt the Hard Way**
Peter Duffy, ex-Consultant Urologist

Hall 1
1200-1230

The Urology Foundation Guest Lecture: A Survivor Amongst Survivors

Chairs: **Mary Garthwaite**, Chair of The Urology Foundation

Welcome & Introduction

Mary Garthwaite, Chair of The Urology Foundation

Guest Speaker

Alfred Samuels

In 2012, following a successful career in the entertainment industry spanning over 30 years, Alfred Samuels was diagnosed with advanced metastatic prostate cancer. He uses his life changing diagnosis to inspire and motivate men and their families, to challenge men's attitudes and the taboos surrounding prostate cancer and to champion the importance of research. Today Alfred is recognised and celebrated as a Patient Advocate, Author, Award Winning Documentary Filmmaker (A Survivor Amongst Survivors, 2021), Mentor and Inspirational Speaker. He has won 27 international awards, including at the London Cine Week and the Tokyo Short Film Fest.

1230-1400 Lunch, Networking and Exhibition Viewing

Hall 1

Hall 1
1400-1500

Upper Tract Urology Emergencies – Expert or Everyone?

Chairs: **Daron Smith**, University College Hospital, London, **Arun Sahai**, Guy's & St Thomas' Hospital, London and **Sian Allen**, University College Hospital, London

- 1400-1405 **Setting the Scene**
- 1405-1420 **Current Challenges Around Emergency Urology Care and Highlights from the GIRFT Urgent and Emergency Care (UEC) Plan**
Ben Ayres, St George's Hospital, London

1420-1455 **Real Life Upper Tract Emergencies – Dilemmas, Discussions and Decisions**

Panel:

Arun Sahai, Guy's & St Thomas' Hospital, London
Ben Ayres, St George's Hospital, London
James Moore, Eastbourne District General Hospital
Sian Allen, University College Hospital, London
Daron Smith, University College Hospital, London

Case 1:

Ureteric Injury Identified on Table During Laparoscopic Hysterectomy

James Moore, Eastbourne District General Hospital

Case 2:

Acute Ureteric Colic Proximal 7mm Ureteric Stone with Acute Kidney Injury

Sian Allen, University College Hospital, London

Case 3:

Obstructed Infected Kidney

Daron Smith, University College Hospital, London

Case 4:

Delayed Ureteric Injury - 2 Weeks Post Hysterectomy

Arun Sahai, Guy's & St Thomas' Hospital, London

1455-1500 **Concluding Remarks**

Daron Smith, University College Hospital, London, **Arun Sahai**, Guy's & St Thomas' Hospital, London and **Sian Allen**, University College Hospital, London

Hall 4

1400-1500

Holistic Needs Assessment for People with Urological Cancer

Chairs: **Murthy Kusuma**, Royal Surrey Hospital, Guildford, **Helena Burden**, Southmead Hospital, Bristol and **Mary Brown**, Glasgow Royal Infirmary

1400-1402 **Introduction by Chairs**

1402-1417 **New Topic-Systematic Approach to Addressing Erectile Dysfunction Post-Complex Uro-Oncological Pelvic Surgery**

Ian Pearce, Vice-President of BAUS and Manchester Royal Infirmary

1417-1422 **Q&A**

1422-1437 **Mitigating Treatment-Related Regret in Localized Prostate Cancer Patients: A Critical Analysis**

Christopher Wallis, Urologic Oncologist, Mount Sinai Hospital and Assistant Professor at the University of Toronto, Canada

1437-1442 **Q&A**

- 1442-1448 **Cardiovascular Well-Being in Men Undergoing Androgen Deprivation Therapy**
Kerem Atalar, Whipps Cross University Hospital, London
- 1448-1450 **Q&A**
- 1450-1456 **Managing Small Renal Masses in Patients with Concurrent Illnesses or Elderly Patients: A Strategic Approach**
Alice Hartley, Sunderland Royal Hospital
- 1456-1458 **Q&A**
- 1458-1500 **Conclusion by Chairs**

Hall 8
1400-1500

Section of FNUU/AGUS/BAGURS Joint Session: Widen Your Horizons – Update on Stricture, Stenosis and Prosthetics

Chairs: **Ruth Doherty**, Norfolk and Norwich University Hospital and **Paul Anderson**, Russells Hall Hospital, Dudley

- 1400-1412 **Bladder Neck Contracture Management**
Tony Mundy, University College Hospital, London
- 1412-1415 **Q&A**
- 1415-1427 **Robotic VY Plasty for Bladder Neck Stenosis**
Benoît Peyronnet, University of Rennes, France
- 1427-1430 **Q&A**
- 1430-1500 **Mx Complications of Prosthetics**
- 1430-1442 **Male AUS Complications and How to Manage Them**
Suzanne Biers, Addenbrooke's Hospital, Cambridge
- 1442-1445 **Q&A**
- 1445-1457 **How to Manage Penile Prosthesis Complications**
Varun Sahdev, Southampton General Hospital
- 1457-1500 **Q&A**

Hall 9
1400-1500

Update on PUJ Obstruction

Chairs: **Sandeep Pathak**, Consultant Radiologist, Barts Health NHS Trust, London and **Kim Davenport**, Cheltenham General Hospital

- 1400-1410 **Radiology/Imaging in PUJO**
Harry Bardgett, Consultant Uro-radiologist, Bradford Teaching Hospitals NHS Trust
- 1410-1420 **Conservative Management of PUJO**
Mohammed Aldiwani, Pinderfields General Hospital, Wakefield

- 1420-1430 **Initial Management of Primary PUJO**
Muddassar Hussain, Frimley Park Hospital, London
- 1430-1440 **Surgical Management PUJO**
Anurag Golash, Royal Stoke University Hospital
- 1440-1500 **Q&A and Discussion**

Hall 10
1400-1500

International British Urology Society (IBUS): Excellence and Empowering Solutions

Chairs: **Gokul Kandaswamy**, Morrision Hospital, Swansea and **Beenish Qamar**, Russells Hall Hospital, The Dudley Group NHS Foundation Trust

- 1400-1415 **Cross-Cultural Insights in Urological Training and Patient Care: Bridging Practices Between India / South Asia and the UK**
Sanjay Kulkarni, Endosurgery Institute, Pune, India and Past-President, Urological Society of India (USI)
- 1415-1430 **Strategies for Winning National Clinical Excellence Awards: Optimizing Your CV**
Naeem Soomro, Freeman Hospital, Newcastle
- 1430-1445 **Female Leadership & Pioneering**
Helen E. O'Connell AO, President, Urological Society Australia and New Zealand (USANZ)
- 1445-1450 **Q&A**
- 1450-1500 **PRISM Award 2024**
Presented to: **Christopher Chapple**, Sheffield Teaching Hospitals
Citation by: **Suresh Venugopal**, Liverpool University Hospitals

Hall 11A
1400-1500

Urolink

Chairs: **Suzie Venn**, University Hospitals Sussex NHS Foundation Trust and **Wilson To**, University College London Hospitals

- 1400-1410 **Urolink Update**
Suzie Venn, University Hospitals Sussex NHS Foundation Trust
- 1410-1430 **Opportunities for Advancing Surgical Practice in the Global South - the WISA Experience**
Mumba Chalwe, Consultant Urological Surgeon, Ndola Teaching Hospital, Zambia and President of Women in Surgery Africa (WISA)
- 1430-1440 **Meditech Urogynae Workshop in Malawi**
Ala'a Sharaf, Addenbrooke's Hospital, Cambridge
- 1440-1450 **TUF Fellowship Experience**
Wilson To, University College London Hospitals and **Rory Ferguson**, Royal Cornwall Hospital, Truro
- 1450-1500 **Q&A**

1500-1530 Refreshments, Networking and Exhibition Viewing

Hall 1

1530-1630

Prostate and Renal / Upper Tract Cancer MDT – Case Discussions and Snapshot Debates – Everything for All and Then Some

Chairs: **Vijay Ramani**, The Christie Hospital and Manchester University Hospitals NHS Trust, Manchester and **Tom Walton**, Nottingham University Hospitals NHS Trust

Panellists:

Ed Rowe, Southmead Hospital, Bristol

Alison Tree, Consultant Clinical Oncologist, The Royal Marsden Hospital, London

Jose A. Karam, MD Anderson Cancer Center, Texas, United States and Associate Secretary for Europe, Middle East and Africa, American Urological Association (AUA)

Simon Grumett, Consultant Medical Oncologist, University Hospitals Birmingham

3 MDT Cases with Panel Discussion

Management of Morphological Variant of Prostate Cancer, Complex Upper Tract Transitional Cell Cancer – ‘Do’s and Don’ts’, Primary vs Cytoreductive Nephrectomy in 2024

2 Snapshot Debates

1 minute Case Presentation / 4 minutes Per Speaker

Case 1. Should PSMA PET CT scan replace conventional imaging modalities in High-Risk Prostate Cancer?

Presented by: **Tom Walton**, Nottingham University Hospitals

Pro – **Alison Tree**, Consultant Clinical Oncologist, The Royal Marsden Hospital, London

Against – **Ed Rowe**, Southmead Hospital, Bristol

Case 2. Is Adjuvant Pembrolizumab the Wonder Drug for Renal Cancer?

Presented by: **Vijay Ramani**, The Christie Hospital and Manchester University Hospitals

Pro – **Jose A. Karam**, MD Anderson Cancer Center, Texas, United States and Associate Secretary for Europe, Middle East and Africa, American Urological Association (AUA)

Against – **Simon Grumett**, Consultant Medical Oncologist, University Hospitals, Birmingham

Hall 4

1530-1630

What’s New in Urology? Literature Overview

Chairs: **Louise Paramore**, University Hospital Southampton and **Bhaskar Somani**, Southampton General Hospital and Editor-in-chief JCU

1530-1538

Stones

Benjamin Steen, Southern Health Care Trust, Northern Ireland

1538-1546

Benign Prostate Enlargement

Zoe Panayi, Stockport NHS Foundation Trust

1546-1554

Upper Tract Urothelial Cancer, Pelvi-Ureteric Obstruction, Basic Research

Xiang Wei Jonathan Lee, Queen Elizabeth University Hospital, Glasgow

- 1554-1604 **Trials Update - PUrE**
Daron Smith, University College Hospital, London and **Oliver Wiseman**, Addenbrooke's Hospital, Cambridge
- 1604-1619 **Nephrostomy Audit**
Subu Subramonian, Queen Elizabeth University Hospital, Birmingham
- 1619-1630 **Q&A**

Hall 8

1530-1630

The Urology Foundation: Show Me the Money

It's all about the money. We fundraise tirelessly so that we can support you, and the whole Urology community, to the ultimate benefit of Urology patients. The Urology Foundation alumni is extensive and ever growing. However, even if you haven't received direct assistance from us, you and your patients will be benefitting from a wealth of research and innovation supported by funding from The Urology Foundation.

The Urology Foundation welcomes you to a session that will look at how we use our fundraising to support and advance UK Urology. We will introduce our new 5-year research strategy, showcase our funding streams and the ways in which you have benefitted from them, highlight new funding opportunities, inform you on how to access these resources and how you can support us into the future.

- 1530-1540 **Welcome and Overview**
Mary Garthwaite, Chair of The Urology Foundation
- 1540-1550 **The Urology Foundation Research Strategy 2024-2028**
Rakesh Heer, Charing Cross Hospital, London
- 1550-1610 **Stories from TUF Alumni - How Our Support Makes a Difference**
- 1550-1555 **A Current Perspective**
Samantha Conroy, Royal Hallamshire Hospital, Sheffield
- 1555-1600 **A Retrospective View**
Krishna Narahari, University Hospital of Wales, Cardiff
- 1600-1605 **A Message from Overseas: The Malcolm Coptcoat Fellowship**
Eleanor Zimmermann, Derriford Hospital, Plymouth
- 1605-1610 **BURST Collaborations**
Arjun Nathan, Royal Free Hospital, London
- 1610-1630 **Q&A**
Chair:
Mary Garthwaite, Chair of The Urology Foundation
Panel:
Graeme McLennan, Director of the TUF Trials Unit
Louise de Winter, Director of Research & Grants, TUF
Rakesh Heer, Charing Cross Hospital, London
Samantha Conroy, Royal Hallamshire Hospital, Sheffield
Eleanor Zimmermann, Derriford Hospital, Plymouth
Krishna Narahari, University Hospital of Wales, Cardiff
Arjun Nathan, Royal Free Hospital, London

Hall 9

1530-1630

The Papers that Changed Andrology in 2023

Chairs: **Ege Serefoglu**, Biruni University School of Medicine, Istanbul and **Paul Perito**, Perito Urology, Miami, United States and **Aditya Manjunath**, Southmead Hospital, Bristol

- 1530-1540 **Urethral Surgery**
Eleanor Zimmerman, Derriford Hospital, Plymouth and **Katie Moore**, Liverpool University Hospitals Foundation Trust
- 1540-1550 **Peyronie's Disease**
Ameer Alarayedh, Guy's & St Thomas' Hospital, London and **Raveen Sandher**, Guy's & St Thomas' Hospital
- 1550-1600 **Erectile Dysfunction**
Christina Fontaine, Southmead Hospital, Bristol and **Ayo Kalejaiye**, University Hospitals, Birmingham
- 1600-1610 **Penile and Testis Cancer**
Holly Ni Raghallaigh, St George's Hospital, London and **Karen Randhawa**, Altnagelvin Area Hospital, Londonderry
- 1610-1620 **Emergency Andrology**
John Pascoe, Royal Devon & Exeter Hospital and **Richard Percy**, University Hospitals Plymouth
- 1620-1630 **Male Infertility**
Theodora Stasinou, Manchester University Foundation Trust and **Majid Shabbir**, Guy's & St Thomas' Hospital

Hall 10

1530-1630

Innovation in Urology

Chairs: **Tamsin Greenwell**, University College Hospital, London and **Gianluca Maresca**, Western General Hospital, Edinburgh

- 1530-1533 **Introduction by Chairs**
- 1533-1548 **Rise of the New Machines: Innovation in Clinical Robotic Technology**
Ben Challacombe, Guy's & Thomas's Hospital
- 1548-1551 **Q&A**
- 1551-1606 **Urological Innovations in Emerging Countries: From Proof of Concept to Reality**
Zeeshan Hameed, Kasturba Medical College, Manipal, India
- 1606-1609 **Q&A**
- 1609-1624 **Impact of Digital Technology on Urology**
Naeem Soomro, Freeman Hospital, Newcastle
- 1624-1630 **Q&A and Summary**

Hall 11A
1530-1630

BURST: Emergency Inpatient Haematuria - Time for Change!

Chairs: **Nikita Bhatt**, Newcastle Upon Tyne Hospital, **Kevin Byrnes**, North Middlesex University Hospital London and **Ben Challacombe**, Guy's & Thomas's Hospital

1530-1540 **WASHOUT: Ward Admission for Haematuria: An Observational Multicentre Study**

Nikita Bhatt, Newcastle Upon Tyne Hospital, **Kevin Byrnes**, North Middlesex University Hospital London

1540-1625 **The Quick-Fire MDT on Emergency Haematuria**

CEPOD Surgical Management: How and When to go to Theatre?

John McGrath, Royal Devon University Healthcare NHS Foundation Trust

Hyperbaric Oxygen - How It Works and When Should It Be Used

Thomas Lynch, St. James's Hospital and Trinity College, Dublin

When to Involve an Oncologist: Indications for Radiotherapy in the Acute Setting

Amy Clifford, Consultant Clinical Oncologist in Urological Cancers, The Royal Free Hospital, London

Interventional Radiology for Haematuria: Is it underutilised?

Conrad Von Stempel, Consultant Interventional Vascular and Uroradiologist, University College London Hospital

End-stage Surgical Strategies: Considerations for when conservative measures fail

Jhumur Pati, Homerton University Hospital London

Round Table Case Discussion: The experts take on a difficult clinical case of emergency inpatient haematuria

Chair: **Ben Challacombe**, Guy's & Thomas's Hospital

Panel: All Faculty

1625-1630 **The WASHOUT Study - Get Involved Now**

Nikita Bhatt, Newcastle Upon Tyne Hospital, **Kevin Byrnes**, North Middlesex University Hospital London

Hall 11B
1600-1645

Medical Students in Urology

Chairs: **Ben Ayres**, St George's Hospital, London and **Holly Ni Raghallaigh**, St George's Hospital, London

1600-1615 **Medical Student Essay: 'What is the Role of Artificial Intelligence in Urology at Present and 'What Does the Future Hold?'**

Ranya Kumar, University of Cambridge

1615-1620 **Update on GMC Medical Licensing Assessment**

Ben Ayres, St George's Hospital, London

1620-1630 **Simulation Boot Camp for Medical Students**

Thomas Fonseka, Urological Specialty Registrar, Royal Free Hospital, London

- 1630-1640 **The Benefits of Engaging with Medical Student Surgical Societies**
James Akman, BSoT Medical Student Representative and Urological Specialty Registrar, Royal Derby Hospital
- 1640-1645 **The Benefits of Engaging with Medical Student Surgical Societies**
Noor Haddad, St George's Surgical Society and Medical Student, St George's Hospital, London
Elzbieta Gureviciute, St George's Surgical Society and Medical Student, St George's Hospital, London
Konstantinos Devetzis, St George's Surgical Society and Medical Student, St George's Hospital, London
Rebecca Beni, St George's Surgical Society and Medical Student, St George's Hospital, London

Hall 1

1630-1730

Resilience and Sustainability of Complex Uro-oncological Procedures

Chairs: **Edgar Paez-Gueyraud**, Freeman Hospital, Newcastle, **Elizabeth Bright**, Royal Cornwall Hospital, Truro and **Jon Aning**, Southmead Hospital, Bristol

- 1630-1632 **Introduction by Chairs**
- 1632-1645 **Building a Thriving High-Volume Radical Cystectomy Program**
Matthew Perry, Royal Surrey Hospital, Guildford
- 1645-1647 **Q&A**
- 1647-1700 **Balancing Surgeon Workloads: Considerations for On-Call Duties Among Complex High-Volume Procedure Specialists**
Rupesh Bhatt, Queen Elizabeth Hospital, Birmingham
- 1700-1702 **Q&A**
- 1702-1715 **Mitigating Recruitment Challenges for Complex Urological Challenges**
Esther McLarty, Derriford Hospital, Plymouth
- 1715-1717 **Q&A**
- 1717-1726 **Attracting the Next Generation of Surgeons to Excel in Complex Urological Procedures**
Omar El-Taji, Salford Royal Hospital
- 1726-1728 **Q&A**
- 1728-1730 **Conclusion by Chairs**

Hall 4
1630-1730

Common Dilemmas for the Endourology MDT

Chairs: **Daron Smith**, University College Hospital, London and **Sara Ramsey**, Raigmore Hospital, Inverness

Panel:

Sri Sriprasad, Darent Valley Hospital, Kent
Jake Patterson, Royal Hallamshire Hospital, Sheffield
Ninaad Awsare, Whiston Hospital, Prescot
Hari Ratan, Nottingham University Hospitals
Mo Sahu, Queen Alexandra Hospital, Portsmouth

Hall 8
1630-1730

Diversifying the Urology Workforce

Chairs: **Laura Thomas**, Clinical Scientist, Bristol Urological Institute and **Arun Sahai**, Guy's & St Thomas' Hospital, London

- 1630-1642 **How Do We Optimise & Expand the Urology Workforce?**
Mark Rochester, Norfolk and Norwich University Hospital
- 1642-1645 **Q&A**
- 1645-1657 **Does Every Urology Department Need a Clinical Scientist?**
Eskinder Solomon, Consultant Clinical Scientist: Urology, Guy's & St Thomas' Hospital, London
- 1657-1700 **Q&A**
- 1700-1712 **The Role of the ANP**
Julie Jenks, Nurse Consultant, University College Hospital, London
- 1712-1715 **Q&A**
- 1715-1727 **Supporting Roles in the Acute Urology Setting**
Jonathan Broughton, The James Cook University Hospital, Middlesbrough
- 1727-1730 **Q&A**

Hall 9
1630-1730

Benign Andrology MDT

Chairs: **Hussain Alnajjar**, University College Hospital, London and **Vaibhav Modgil**, Manchester Royal Infirmary

- 1630-1650 **Peyronie's Disease - USA vs UK. Is it More Than a Ponds Difference?**
Case Presenter:
Katherine Guest, King's College Hospital, London
Panel:
Asif Muneer, University College Hospital, London
Chi-Ying Li, Whipps Cross University Hospital, London
Paul Perito, Perito Urology, Miami, United States

- 1650-1710 **The Infertile Man**
Case Presenter:
Eleni Anastasiadis, Croydon University Hospital, Surrey
Panel:
Pippa Sangster, University College Hospital, London
Alex Lewis, Manchester University NHS Foundation Trust (Endocrinologist)
Justin Chu, Birmingham Woman Hospital, Reproductive Medicine consultant and lecturer with an interest in MFI
- 1710-1730 **Gotta Get Up to Get Down - Erectile Dysfunction**
Case Presenter:
Rowland Rees, University Hospital Southampton
Panel:
Suks Minhas, Charing Cross Hospital, London
Maria Satchi, Kings College Hospital, London
Paul Perito, Perito Urology, Miami, United States

Hall 10

1630-1730

Section of SAS and Trust Urologists (SSTU)

Chairs: **Kathryn Bandeira de Mello**, Executive Committee Member, SSTU and Wycombe General Hospital, High Wycombe and **SS Murali**, Chair, SSTU and Lincoln County Hospital

- 1630-1635 **Introduction**
Kathryn Bandeira de Mello, Executive Committee Member, SSTU and Wycombe General Hospital, High Wycombe
- 1635-1643 **The Evolution of the BAUS STU Section**
Jo Cresswell, President of BAUS and James Cook University Hospital, Middlesbrough
- 1643-1651 **SSTU - BAUS' Vision for the Future**
Ian Pearce, Vice-President of BAUS and Manchester Royal Infirmary
- 1651-1659 **STUs Aspiring to Join the Specialist Register via the Portfolio Pathway**
Adham Ahmed, Vice-Chair SSTU and West Suffolk Hospital
- 1659-1707 **STUs Aspiring to Become Specialists on the 2021 SAS Contract**
Avinash Deodhar, Specialist, Burns & Plastic Surgery, University Hospitals of Leicester NHS Trust
- 1707-1715 **STUs Aspiring to be Designated as Autonomous Practitioners, as Specialty Doctors**
Govindaraj Rajkumar, Executive Committee Member, SSTU and Basingstoke and North Hampshire Hospital
- 1715-1720 **Next Steps**
SS Murali, Chair, SSTU and Lincoln County Hospital
- 1720-1730 **Q&A and Panel Discussion**

Hall 11A
1630-1730

Urology in the Age of Artificial Intelligence in Urology

Chairs: **Joseph Gabriel**, Royal Surrey Hospital, Guildford and **Bushra Abdelqader**, Kingston Hospital, London

- 1630-1650 **The Future of Urology Training in the era of Artificial Intelligence**
Luis Ribeiro, Croydon University Hospital, Surrey
- 1650-1710 **Deployment of AI in a Real-World Setting**
Jeffry Hogg, Clinical Research Fellow, University Hospitals Birmingham NHS Foundation Trust
- 1710-1730 **Ascent of AI and Augmented Reality in Surgical Urology**
Bhavan Rai, Freeman Hospital, Newcastle Upon Tyne

Hall 11B
1645-1730

Foundation Years and Core Trainees in Urology

Chairs: **Kasra Saeb-Parsy**, Cambridge University Hospital, **Sophia Cashman**, Nottingham City Hospital and **Alexander Light**, Charing Cross Hospital

- 1645-1650 **FY/CT Audit QuIP Competition Introduction**
Kasra Saeb-Parsy, Cambridge University Hospital
- 1650-1655 **Presentation of the winning Audit QuIP Competition: Oncological and Urological Outcomes after Total Pelvic Exenteration for Advanced Pelvic Cancers: A Single-Center Study**
Shri-Ishvarya Rajamoorthy, Morrision Hospital, Swansea
- 1655-1705 **Making a Surgeon: My Experience in the FY/CT Years**
Marena Gray, Peterborough City Hospital
- 1705-1715 **Beyond the Cystoscope: Scripting your Life in FY/Core Training**
Nick Boxall, Sheffield Teaching Hospitals
- 1715-1725 **Research and Early Career Urologist - Why and What For?**
Vincent Gnanapragasam, Cambridge University Hospital
- 1725-1730 **Closing Remarks**
Kasra Saeb-Parsy, Cambridge University Hospital

Making a Lasting Change to the BPH Landscape

Is it Time for a New Standard of Care?

Aquablation therapy – The only BPH treatment that is proven to match TURP's durability & efficacy while preserving sexual function and continence.^{1,2}

The real-time, ultrasound guided, robotic-assisted, heat-free waterjet enables personalised treatment planning combined with robotic precision to maximise tissue resection while protecting areas of the anatomy responsible for erectile and ejaculatory function as well as continence.

WEDNESDAY 26 JUNE

PROGRAMME

ANNUAL
MEETING
24-26 June

Hall 1
0930-1030

Widening Participation: Sex Matters

Chairs: **Ian Eardley**, Leeds Teaching Hospital Trust and **Susan Willis**, Guy's & St Thomas' Hospital, London and **Mumba Chalwe**, Consultant Urological Surgeon, Ndola Teaching Hospital, Zambia and President of Women in Surgery Africa (WISA)

0930-0945 **How Surgeon Sex Influences Patient Outcomes**

Christopher Wallis, Urologic Oncologist, Mount Sinai Hospital and Assistant Professor at the University of Toronto, Canada

0945-0950 **Q&A**

0950-1005 **Breaking the Silence: Sexual Misconduct in Surgery**

Carrie Newlands, Author of 'Breaking the Silence' and Co-Lead of the Working party on Sexual misconduct in Surgery

1005-1010 **Q&A**

1010-1025 **Supporting Colleagues: How to be an Active Bystander**

Susan Willis, Guy's & St Thomas' Hospital, London

1025-1030 **Q&A**

Hall 1
1030-1100

BAUS Guest Lecture: Surgeons as High-Performance Athletes; Learning from a Triple World Champion

Chairs: **Hrishi Joshi**, University Hospital of Wales, Cardiff and **Sophie Rintoul-Hoad**, Epsom General Hospital, Surrey

Colin Jackson CBE, Triple World Champion Sprinter & Hurdling Athlete

Hall 1
1100-1130

AGM

Chair: **Jo Cresswell**, President of BAUS and James Cook University Hospital, Middlesbrough

The AGM Agenda will be available to Members via the BAUS website.

1100-1130 Refreshments, Networking and Exhibition Viewing

Hall 1
1130-1200

JCU Guest Lecture

Global Leadership: Building and Leading an International Centre of Excellence

Chair: **Joe Philip**, BAUS Honorary Secretary and Southmead Hospital, Bristol

Sanjay Kulkarni, Endosurgery Institute, Pune, India and Past-President, Urological Society of India (USI)

Hall 4
1130-1300

Controversies in Uro-Oncology

Chairs: **Vishwanath Hanchanale**, Liverpool University Hospitals Foundation Trust, **Jo Cresswell**, President of BAUS and James Cook University Hospital, Middlesbrough and **Jim Armitage**, Addenbrooke's Hospital, Cambridge

- 1100-1102 **Introduction by Chairs**
- 1102-1115 **TRANSFORMing Prostate Cancer Screening-The Time Has Come**
Hashim Ahmed, Charing Cross Hospital, London
- 1115-1117 **Q&A**
- 1117-1130 **Should We Be Performing Lymph Node Dissection for High Risk RCCs**
Axel Bex, Royal Free Hospital, London
- 1130-1132 **Q&A**
- 1132-1145 **Pelvic Lymph Node Dissection in Prostate Cancer: The Debate Continues**
Krishna Narahari, University Hospital of Wales, Cardiff
- 1145-1147 **Q&A**
- 1147-1200 **Management of Persistent Low Grade Bladder Recurrences Despite Previous Intravesical Therapy with MMC and BCG**
Paolo Gontero, Professor of Urology, Chairman Department of Urology, Molinette Hospital, University School of Medicine, Torino, Italy
- 1200-1202 **Q&A**
- 1202-1215 **Should Molecular Imaging Replace Conventional Imaging in the Staging of Advanced Urothelial Cancer**
Prashant Patel, University College Hospital, London
- 1215-1217 **Q&A**
- 1217-1226 **Can we SCREEN for Cytoreductive Nephrectomy in Patients with Metastatic Renal Cancer**
Jose A. Karam, MD Anderson Cancer Center, Texas, United States and Associate Secretary for Europe, Middle East and Africa, American Urological Association (AUA)
- 1226-1228 **Q&A**
- 1228-1230 **Conclusion by Chairs**

Hall 8
1130-1300

BAUS & ESIU Joint Session: Navigating the Future of Urology: Tackling Antimicrobial Resistance and Redefining the Surgeon's Role

Chairs: **Zafer Tandogdu**, University College Hospital, London and **Mehwash Nadeem**, The James Cook University Hospital, Middlesbrough

Join us for an engaging session tailored for urologists at this year's conference, where we confront the pressing threat of Antimicrobial Resistance (AMR) in urology. Delve into the emerging consequences of AMR on urological procedures and gain practical insights into employing antimicrobial stewardship in clinical practice. Explore strategies for de-escalating antibiotic usage in antimicrobial prophylaxis specifically tailored for urological procedures. Dive into the exciting realm of emerging solutions, focusing on the potential of bacteriophages in urology as a novel approach to tackle AMR. Additionally, gain valuable insights into the DEEP-URO study, an international endeavour shaping the future of antimicrobial prophylaxis in urology. Don't miss this comprehensive exploration of the multifaceted challenges posed by AMR and the innovative tools and studies paving the way for a resilient and proactive urological practice.

- 1130-1135 **Introduction & Welcome**
Zafer Tandogdu, University College Hospital, London
- 1135-1150 **The Threat of AMR in Urology and Emerging Consequences**
Bhaskar Somani, Southampton General Hospital and Editor-in-chief JCU
- 1150-1205 **Tools That Clinicians Can Use in Their Clinical Work to Implement Antimicrobial Stewardship Effectively**
Philip Howard, Consultant Pharmacist in Antimicrobials, Leeds Teaching Hospitals NHS Trust
- 1205-1220 **Emerging Strategies to Tackle AMR: Bacteriophages and Their Potential in Urology**
Shawna McCallin, Clinical Coordinator, Balgrist University Hospital
- 1220-1230 **DEEP-URO Study: An International Study in Setting Up the Future in Antimicrobial Prophylaxis**
Elizabeth Day, University College Hospital, London
- 1230-1245 **UTI Treatment- Discrepancies Between Three Major Guidelines: EAU, NICE & AUA**
Gernot Bonkat, Chair, EAU Guidelines on Urological Infections
- 1245-1300 **Debate: What Are the Next Steps as the Urology Community We Need to Take in Tackling AMR?**
All Speakers and Audience

Hall 9
1130-1300

Section of Endourology & FNUU Joint Session: Ureteric Stricture Management

Chairs: **Suzanne Biers**, Addenbrooke's Hospital, Cambridge and **Sri Sriprasad**, Darent Valley Hospital, Kent

- 1130-1142 **REJOIN Audit Update 2024**
Findlay MacAskill, Guy's & St Thomas' Hospital, London
- 1142-1145 **Q&A**
- 1145-1157 **Endoscopic Management of Ureteric Strictures**
Alistair Rogers, Freeman Hospital, Newcastle
- 1157-1200 **Q&A**
- 1200-1212 **An Alternative to Endoscopic Management in Robotic Buccal Mucosal Grafting**
Raj Nair, Guy's & St Thomas' Hospital, London
- 1212-1215 **Q&A**
- 1215-1227 **Open Urinary Tract Reconstruction – Is It Still Relevant in 2024**
Voula Granitsioti, Western General Hospital, Edinburgh
- 1227-1230 **Q&A**
MDT of Challenging Cases
- 1230-1237 **Uretero-ileal Stenosis**
Joe Philip, BAUS Honorary Secretary and Southmead Hospital, Bristol
- 1237-1240 **Q&A**
- 1240-1247 **Impact of Endometriosis on the Ureter**
Nikesh Thiruchelvam, Addenbrooke's Hospital, Cambridge
- 1247-1250 **Q&A**

Shorter PSA-DT of ≤10 months is a key indicator of metastatic progression²

You can play a key role in delaying metastases

Refer your high-risk nmCRPC patients to oncology

This advert is intended for GB healthcare professionals only, not for further distribution. This advert has been organised and funded by Bayer.

nmCRPC

In the randomised, phase III, double-blind, ARAMIS study, the safety profile and efficacy of NUBEQA in patients with high-risk nmCRPC was investigated, NUBEQA + ADT (n=955) vs. placebo + ADT (n=554).^{2,4}

NUBEQA added to ADT significantly slowed tumour progression by 22 months, extended survival by 31%, and postponed pain progression in patients with high-risk nmCRPC vs. ADT alone^{2,3}

The only ARI with no increase in treatment discontinuation when added to ADT in phase III clinical trial²

Access the latest on prostate cancer and NUBEQA on the Oncology Hub

SCAN HERE

NUBEQA was the first NICE-recommended and SMC-accepted ARI in nmCRPC, with proven efficacy, tolerability and a distinct molecular structure.^{1,4,5}

The most common adverse reactions in patients receiving darolutamide were fatigue/asthenic conditions (15.8%). The most common serious adverse reactions were ischaemic heart disease (1.9%), urinary retention (1.6%), pneumonia (1.4%), haematuria (1.0%) and heart failure (1.0%).¹

ADT, androgen deprivation therapy; AE, adverse event; ARI, androgen receptor inhibitor; MFS, metastasis-free survival; NICE, National Institute for Health and Care Excellence; nmCRPC, non-metastatic castration-resistant prostate cancer; PSA-DT, prostate specific antigen doubling time; QoL, quality of life; SMC, Scottish Medicines Consortium.

Imaging and nmCRPC – the big debate
Bayer Sponsored Symposium
Monday 24th June, Hall 1, 12:00-13:00

Prescribing information for NUBUQA (darolutamide) can be viewed on the following page

▼ NUBEQA® (darolutamide) 300 mg film-coated tablets Prescribing Information – Great Britain

(Refer to full Summary of Product Characteristics (SmPC) before prescribing)

Presentation: Each film-coated tablet contains 300 mg of darolutamide.

Indication(s): NUBEQA is indicated for the treatment of adult men with non-metastatic castration resistant prostate cancer (nmCRPC) who are at high risk of developing metastatic disease or with metastatic hormone-sensitive prostate cancer (mHSPC) in combination with docetaxel. **Posology & method of administration:** Treatment should be initiated and supervised by a specialist physician experienced in treatment of prostate cancer. Medical castration with a luteinising hormone-releasing hormone (LHRH) analogue should be continued during treatment of patients not surgically castrated. For oral use. The tablets should be taken whole with food. **Adults:** 600 mg darolutamide (two tablets of 300 mg) taken twice daily, equivalent to a total daily dose of 1200 mg. mHSPC patients should start darolutamide in combination with docetaxel. The first of 6 cycles of docetaxel should be administered within 6 weeks after the start of darolutamide treatment. Treatment with darolutamide should be continued until disease progression or unacceptable toxicity even if a cycle of docetaxel is delayed, interrupted, or discontinued. If a patient experiences a \geq Grade 3 toxicity or an intolerable adverse reaction related to darolutamide, dosing should be withheld or reduced to 300 mg twice daily until symptoms improve. Treatment may then be resumed at a dose of 600 mg twice daily. **Children & adolescents:** There is no relevant use of darolutamide in the paediatric population. **Elderly:** No dose adjustment is necessary. **Renal Impairment:** No dose adjustment is necessary for patients with mild or moderate renal impairment. For patients with severe renal impairment (eGFR 15-29 mL/min/1.73 m²) not receiving haemodialysis, the recommended starting dose is 300 mg twice daily. **Hepatic Impairment:** No dose adjustment is necessary for patients with mild hepatic impairment. The available data on darolutamide pharmacokinetics in moderate hepatic impairment is limited. Darolutamide has not been studied in patients with severe hepatic impairment. For patients with moderate and severe hepatic impairment (Child-Pugh Classes B and C), the recommended starting dose is 300 mg twice daily. **Contra-indications:** Hypersensitivity to the active substance or to any of the excipients. Women who are or may become pregnant. **Warnings & precautions:** Monitor for signs and symptoms of ischaemic heart disease. Optimise management of cardiovascular risk factors. Discontinue darolutamide for Grade 3-4 ischaemic heart disease. Seizure occurred in patients receiving darolutamide. Advise patients of the risk of developing a seizure while receiving darolutamide. Consider discontinuation of darolutamide in patients who develop a seizure during treatment. Cases of idiosyncratic drug-induced liver injury (DILI) with increases in alanine aminotransferase (ALT) and/or aspartate aminotransferase (AST) to ≥ 5 and ≥ 20 x upper limit of normal (ULN) have been reported. Idiosyncratic DILI has been reported in clinical trials and the post-marketing setting. Liver function test abnormalities were reversible upon darolutamide discontinuation. In case of liver function test abnormalities suggestive of idiosyncratic drug-induced liver injury, permanently discontinue darolutamide. The available data in patients with severe renal impairment are limited. As exposure might be increased those patients should be closely monitored for adverse reactions. The available data in patients with moderate hepatic impairment are limited, and darolutamide has not been studied in patients with severe hepatic impairment. As exposure might be increased those patients should be closely monitored for adverse reactions. Patients with clinically significant cardiovascular disease in the past 6 months including stroke, myocardial infarction, severe/unstable angina pectoris, coronary/peripheral artery bypass graft, and symptomatic congestive heart failure were excluded from the clinical studies. Therefore, the safety of darolutamide in these patients has not been established. Use of strong CYP3A4 and P-gp inducers during treatment with darolutamide may decrease the plasma concentration of darolutamide

and is not recommended, unless here is no therapeutic alternative. Selection of an alternate concomitant medicinal product with less potential to induce CYP3A4 or P-gp should be considered. Patients should be monitored for adverse reactions of BCRP, OATP1B1 and OATP1B3 substrates as co-administration with darolutamide may increase the plasma concentrations of these substrates. Co-administration with rosuvastatin should be avoided unless there is no therapeutic alternative. In patients with a history of risk factors for QT prolongation and in patients receiving concomitant medicinal products that might prolong the QT interval, physicians should assess the benefit-risk ratio including the potential for Torsade de pointes prior to initiating NUBEQA. NUBEQA 300mg film-coated tablets contains lactose. Patients with rare hereditary problems of galactose intolerance, total lactase deficiency or glucose galactose malabsorption should not take this medicinal product. **Interactions:** For the effect of other medicinal products on the action of darolutamide (e.g CYP3A4, P-gp inducers and CYP3A4, P-gp and BCRP inhibitors, UGT1A9 inhibitors and docetaxel) and the action of darolutamide on other medicinal products (BCRP, OATP1B1, OATP1B3 substrates, P-gp substrates, docetaxel, CYP3A4 substrates and other medicinal products that prolong the QT interval) refer to the relevant SmPCs. **Pregnancy & lactation:** Darolutamide is not indicated in women of childbearing potential, and it is not to be used in women who are, or may be, pregnant or breast-feeding. Unknown whether darolutamide or its metabolites are present in semen. If the patient is engaged in sexual activity with a woman of childbearing potential, a highly effective contraceptive method (<1% failure rate per year) should be used during and for 1 week after completion of treatment. Unknown whether darolutamide or its metabolites are excreted in human milk. No studies in animals have been conducted to evaluate the excretion of darolutamide or its metabolites into milk. A risk to the breast-fed child cannot be excluded. There are no human data on the effect of darolutamide on fertility. Based on animal studies, darolutamide may impair fertility in males of reproductive potential. **Effects on ability to drive and use machines:** Darolutamide has no or negligible influence on the ability to drive and use machines. **Undesirable effects:** Adverse reactions observed in patients with nmCRPC Very common: fatigue/asthenic conditions, neutrophil count decreased, bilirubin increased, AST increased. Common: ischaemic heart disease, heart failure, rash, pain in extremity, musculoskeletal pain, fractures. Serious adverse reactions: urinary retention, pneumonia, haematuria, seizure. Adverse reactions observed in patients with mHSPC treated with darolutamide in combination with docetaxel Very common: hypertension, rash, blood bilirubin increased, ALT increased, AST increased. Serious adverse reactions: fractures, ischaemic heart disease, seizure, febrile neutropenia, neutrophil count decreased, pneumonia. Prescribers should consult the SmPC in relation to other side effects (see section 4.8 of SmPC). **Overdose:** In the event of intake of a higher than recommended dose, treatment with darolutamide can be continued with the next dose as scheduled. There is no specific antidote for darolutamide and symptoms of overdose are not established. **Legal Category:** POM. **Package Quantities & Basic NHS Costs:** Pack of 112 film-coated tablets, £4,040. **MA Number(s):** PLGB 00010/0677. **Further information available from:** Bayer plc, 400 South Oak Way, Reading RG2 6AD, United Kingdom. Telephone: 0118 206 3000. **Date of preparation:** November 2023

PP-NUB-GB-1413 | November 2023

St Paul's Medal &
Journal of Clinical Urology (JCU) Guest Speaker

Sanjay Kulkarni

Journey

Dr Sanjay Kulkarni was born in Pune, India. He attended BJ Medical College at Pune. Dr PK Bharucha was his post graduate teacher for 3 year residency in surgery at KEM Hospital in Pune.

Sanjay underwent Urology training in England from 1981 to 1986. He was trained by Mr Michael Heal at Leighton Hospital in Crewe, followed by Mr Richard Turner Warwick, considered as father of urethral reconstruction. Dr Kulkarni returned to motherland India to serve the people of his country. Dr Jyotsna Kulkarni his wife and Sanjay were pioneers in introducing Laparoscopy in India. They started India's first animal laboratory for Laparoscopy training.

Institute

In 1995 they established Centre for Reconstructive Urology. On 1Jan 2023 "UROKUL" Kulkarni UroSurgery Institute in Pune a 100 bed ultra-modern, single speciality hospital and training centre was inaugurated. The centre performs one of the largest number of Genito-Urinary Reconstructive Surgeries in the world today. In 2023 ,654 urethroplasties were performed The centre is ethical and no patient is denied surgery for economic grounds.

Training Next Gen

Kulkarni School of Urethral Surgery was established in 2006. The centre is engaged in permanent educational activities for urologists who are interested in the in-depth training in reconstructive urethral surgery. They conduct an operative workshop on a weekend once every month where about 8-10 Urologists from India and abroad attend inside the OR and watch surgeries LIVE. Kulkarni School of Urethral Surgery is very popular amongst the urologists. This is a purely academic activity with no registration fees.

International Faculty

Dr Sanjay Kulkarni was invited as a faculty to demonstrate urethroplasties in 50 countries. He is nicknamed Workshop Kulkarni. He has travelled extensively teaching reconstructive urology and creating a Reconstructive Leader in each country he visited.

Innovations and Contribution

Dr Kulkarni invented many techniques of reconstruction. The "Kulkarni Urethroplasty" for pan urethral stricture is popular around the world and is published in Hinman's Atlas of Urology, American text book. Dr Kulkarni has authored chapter on Urethra and Penis in the 2022 Edition of Love and Bailey, Practice of Surgery.

Prestigious Awards

- 2016 “Dr BC Roy” award by the President of India for developing new speciality
- 2011 “President’s Gold Medal” by the Urology Society of India for outstanding contribution to Urology India.
- 2017 Honorary membership of the Royal College of Surgeons of England.
- 2018 Honorary member of Urology Society of Australia and New Zealand
- 2019 Honorary member of the British Association of Urological Surgeons
- 2023 “Life Time Achievement award” from Genito Urinary Reconstructive Surgeons Society.
- 2023 SIU-Felix Guyon Award for Outstanding service to the Society.

Positions

- President of the Society of Genito Urinary Reconstructive Surgeons in 2014
- President of the Society International de Urology, SIU (2019-21).
- Immediate Past President of the Urological Society of India (2023)
- Dr Kulkarni is ranked in top 1% of Experts in the field of Reconstructive Urology in the world

St Peter's Medal

Muhammad Shamim Khan OBE

Born in a remote village and under-privileged family in Pakistan, Professor Khan attended an open-air primary school. Then with support of relatives moved to a larger city in the pursuit of further education but lived in an accommodation, lacking light and toilet facilities. From such humble beginnings with unwavering determination and commitment to aiding others, led him to a career in medicine. Responsibilities to support the family forced him to seek an employment in the Middle East before moving to Ireland for training in Urology.

Clinical & Science

He started consultant career on 1st October 1999 with appointment in the department of Urology & Transplantation in Guy's & St Thomas' Hospital, London. Professor Khan jointly with Professor Prokar Dasgupta started the robotic urological surgery in the UK. He mentored multiple urologists across UK and Europe and initiated the first robotic urology program in Pakistan. Prof Khan established the UK's inaugural BAUS/RCS approved Robotic fellowship in Bladder Cancer, trained 16 Fellows from around the globe & 4 consultant colleagues, led The Urology Foundation sponsored robotic training consortium and co-authored the BAUS training curriculum. Contributed to the regional pelvic exenteration and endometriosis surgical services. Two key areas of interest in basic science research has been the study of mucosal cell biology in bladder receptor function and role of markers in the development of bladder cancer.

Urological Simulation

He championed the regional simulation training, forming a blueprint for national training in Urology, assessed simulation facilities in 11 regions of UK & Ireland and co-authored the simulation curriculum approved by the GMC. His initial work in simulation led to the largest international trial of Surgical Simulation in the world (SIMULATE) involving trainees and patients from UK, Europe, USA, Canada, Japan and China the results of which were published in the European Urology in 2021.

National & International Education/Training

Prof Khan led the BAUS Office of Education, introducing crucial reforms to uplift standards and structure. Served on SAC, JCST and has been an examiner for PhD, FRCS Urol. (2010-2013) Int FRCS Urol (2018-2019) FCPS (Urol) and Chair JSCFE (Int FRCS Urol.) (2020-2024).

On an entirely voluntary basis he spearheaded the development of advanced clinical practices in Urology throughout Pakistan, by training and mentoring at multiple centres (14) across the country. Established a 25-bed urology unit providing free treatment for underprivileged patients. Initiated and conducted multiple free

revision courses since 2016 and launched the pioneering kidney transplantation program in Rwanda.

Academic Output

Authored over 500 publications (280 papers and over 300 abstracts), co-edited two books, and delivered more than 180 international lectures. Successfully supervised academic students, co-supervised 7 PhDs, 5 BSCs and raised 2.5 million in grants and has been the key investigator in multiple seminal trials besides contributing data to the international robotic cystectomy consortium.

Humanitarian Work

He Co-founded “4Peace of mind”, aiding 1000s of victims of natural disasters worldwide providing housing, clean water, and education support in several countries.

Awards

Prof Khan is recipient of several awards including OBE in 2007 (humanitarian work), Silver Cystoscope 2017 for trainer of the year, Tamgha-e-Imtiaz 2018 (services to medicine in Pakistan), Lifetime Achievement Award All Pakistan Association of Physicians & Surgeons UK (APPS) 2020 and Zenith Global Foundation (2023).

Acknowledgements

Prof Khan most sincerely acknowledges the support of the family, colleagues (P Dasgupta / A Sahai, & all Guy’s Consultants), trainees (K Ahmed, A Aydin, N Raison, A Gavazzi), collaborators (M Sheriff/ F Mumtaz / T Tasadaq/A CH, Trustees 4POM) and numerous others in the above accomplishments.

Gold Medal

Jean McDonald

Jean McDonald graduated from the University of the West Indies following which she spent 9 years in the Bahamas working in a variety of surgical roles. She arrived in London in 1982 and spent her initial years training in general surgery and urology before being appointed a Consultant Urological surgeon at North Middlesex University Hospital London. During her 33-year career in Urology, she has been a driver for change and improved patient care. Miss McDonald became a consultant during a challenging period when there were only a few female consultants in the UK. As the first black female Urologist in the UK, Jean has been a shining light for Urology having inspired many of her trainees to become Urologists. She has motivated every health professional she has been in contact with, to believe that they too can have an important role in Medicine. This has all been done with little fanfare and a large amount of skill and determination.

Her senior roles at the North Middlesex University Hospital have included Clinical lead, Surgical tutor, audit lead, and deputy chair of the medicines management committee. She has been instrumental in developing the Urology department from a two-consultant unit when she was appointed, to its current, modern state of the Art service with 5 consultants and a dedicated Urology suite with clinical nurse specialists. Miss McDonald, has championed, trained and empowered nurses to offer nurse led specialist clinics such as LUTS Clinics, functional urology clinics and nurse led procedures such as urodynamics, cystoscopy sessions, and PTNS. She introduced precision point LA TP biopsies to her department helping to train colleagues to deliver a modern streamlined service. During her early years, she pioneered the use of translator services within the hospital to aid communication with patients; many of whom did not speak English. This was years before it became the standard of care across the country.

She has been a dedicated trainer of colleagues at all levels. She is fondly described as being a master trainer of the TURP as well as for her expertise at teaching anatomy and physiology. She always encourages her trainees and nurses to practice independently offering constant support and guidance

A chance meeting with Professor Serigne Gueye from Senegal at the SIU meeting in Honolulu in 2004, opened a new frontier in her career. Over the next 20 years Miss McDonald and her team would make regular trips to Dakar to Hopital Idris Youssi to teach and train doctors and nurses in Modern Core urological practice and run educational sessions and conferences. From their initial role as doctors' assistants without any independent practice, the nurses in Senegal now perform independent clinics reviewing patients with a wide variety of Urological conditions including cystoscopies and biopsies similar to their British counterparts. Every year, this project is organised with her own personal funds and time. In addition, she has invited her trainees and nurses on

the trip to give them experience of working in a developing country. She has also mentored several Caribbean trainees via placements at the N. Middlesex in collaboration with the University of the West Indies. These trainees have gone on to teach and work as substantive Urologists in their own countries, exponentially multiplying her impact.

Jean's other roles have included being a Member of the Board of directors and Nominations committee of the SIU and a Trustee for St. Luke's healthcare. Her tireless work has been recognised with multiple medals and honours from around the globe. Despite all her innovations and work, she remains a keen and competitive tennis player and mentor to many young and 'old' Urologists.

Her motto of 'teach one, cure many' symbolises what Urologists should always aspire to achieve.

Karl Storz Golden Telescope

Hashim Ahmed

Hashim is currently Chair of Urology and Head of the Section of Specialty Surgery at Imperial College London which incorporates breast, ENT, head and neck, neurosurgery, ophthalmology, urology and vascular surgery. He heads up the Imperial Prostate group since 2017 when he took up the Chair of Urology having previously been at UCL as a MRC Clinical Research Training Fellow for his PhD, followed by an MRC Clinician Scientist Fellowship which incorporated his position as Clinical Senior Lecturer and then Reader in Urology. He was Chair of the NCRI Prostate Group for 6 years to 2023 and Chair of the NHS England Prostate Expert Group (2017-2019). He currently holds a Wellcome Senior Research Fellowship (2017 to 2027).

His research interests are in health technology assessment with a strong focus on clinical trials that bring innovative and transformative changes to the prostate cancer pathway from screening through to treatment of advanced disease. This has been and is supported by a grant income over the last 10 years of approximately £30M as lead applicant and £12M as co-applicant. He has well over 400 peer reviewed publications. He is active clinically, dealing with benign and malignant diseases of the prostate within the outpatient setting and operatively with minimally invasive approaches. As a result, he has and continues to train and support numerous urologists internationally in the specialised techniques that he has pioneered.

John Anderson Award

Suzie Venn

It is a great honour to receive this award, firstly because John was a wonderful man, but also because the previous recipients are some of my heroes.

I could write a cheesy bio telling you what a privilege it is to be a Urological Surgeon, and that I doubt there is a better job in world, not least because it opens the world of opportunities. I could then go on to thank my wonderful parents, siblings, husband, sons and many friends in urology who have supported me over the years. All of which is true, and I love you all lots.

Instead, I am going to use this opportunity to extol the benefits I have enjoyed working with Urological colleagues in low resource countries. I started visiting KCMC in Tanzania in 2005 for the biannual workshop. The week was restorative, and I came home less critical of the failings of our beloved NHS. Over time, the 'Africa bug' has grown and Richard and I have visited more often. In 2015 I was asked to chair Urolink, and so widened my visits to the other centres we now partner in East Africa. The 'work' is rewarding. I gain much more than our partners do. Now our incredible job has allowed us to annualise and spend more time in Africa for the next few years we continue to work.

The reason for writing about this is to try and inspire more of you to get involved. You don't need any special skills beyond core urology to teaching and training, and if you can't travel abroad now, you can support from home with donating equipment, on-line support or fundraising.

Certificate of Distinction

Rob Feasey

Rob entered the healthcare industry in 2013 as Trainee Sales Specialist with KARL STORZ UK. With a number of years' experience under his belt, Rob was promoted to manage his first territory - the East Midlands and Cambridge area - and successfully did so for 4 years. It was during these years that Rob worked closely with Richard Greenhalgh, Urology Liaison Manager at KARL STORZ, who mentored him within the market and together they supported the urology community in the East Midlands.

Throughout his time in the field, a strong philosophy was instilled into Rob: the importance of training the next generation of urologists and collaborating with them through the support of regional meetings. In 2019, Rob stepped into the role of Urology Business Manager and he set about implementing this philosophy into his new national position. One year later, COVID-19 struck the globe. As time went on and healthcare professionals grappled with their "new normal", Rob observed that a crucial aspect of the industry was lying dormant in the wake of the pandemic: training and education. KARL STORZ UK responded by building the state-of-the-art Training and Technology Centre (AKA, the TTC) within their Slough Head Office, and alongside the head of trainee education, Hari Ratan, Rob reintroduced training to urologists across the country. Rob wanted to offer masterclasses, lectures and hands-on workshops which featured the best equipment, facilities and teaching faculty available. With the support of BAUS, KARL STORZ proudly introduced a series of workshops which pushed the boundaries of teaching. A Ureteroscopy Workshop aimed at ST3/4 trainees was the first event to be held at the TTC in early 2022, followed later that year by the Endoscopic Skills Workshop which covered techniques for trainees and specialist doctors. Both workshops are now regular events in the BAUS calendar. Under the supervision of Ms Sian Allen and Ms Suzanne Biers, each event runs twice a year and are often oversubscribed. Rob's dedication to supporting industry meetings, congresses and courses can be seen across the country. Be it the Annual Urology Boot Camp held in Leeds or the BAUS Annual and Section Meetings.

And we cannot overlook the long-standing relationship between KARL STORZ and BSoT, a collaboration that's blossomed in the years under Rob's supervision. Rob has continued the support of all ST3 BAUS memberships, introduced the BSoT Bronze award for 'Best Trainee of the year in UK & Ireland' to compliment the pre-existing 'Silver Telescope' award, and facilitated record breaking attendance at the annual BAUS BSoT social events.

BAUS Guest Speaker

Ravi Limaye OBE

Ravi Limaye is the Managing Director for Wockhardt in UK since Feb 2019. He is responsible for the company's overall operations in UK. Wockhardt is one of the leading manufacturers of speciality and generic injectables as well as other dosage forms and is one of the largest suppliers to NHS for over two decades. Wockhardt UK also supplies critical medicines to Europe, Middle East, Africa and Asia Pacific.

Ravi is a senior business leader with over 30 years' experience in the pharmaceutical Industry globally in diverse roles in Sales, Marketing, Business Development, M & A, Corporate Strategy and General Management.

Before joining Wockhardt, Ravi has held increasingly senior positions in the pharmaceutical industry in global companies like GlaxoSmithKline and Novartis. He has played a key role in managing global businesses across US, Europe as well as Emerging Markets

Ravi is an MS in Pharmacology followed by an MBA from Bombay University. Ravi has also completed an advanced Management Development Program from INSEAD.

On the personal front, Ravi is an ardent sports lover with particular interest in Cricket, Tennis and Golf. He is married to Yamini who is an architect and they have one daughter who works in Germany.

BAUS Guest Speaker

John Hartson

John Hartson is a Welsh former professional footballer, coach and sports television pundit for S4C, Sky Sports, Premier Sports TV and BT Sport.

John Hartson is an inspirational speaker who has battled with cancer in a courageous manner that has earned him the admiration of all who have followed his touching story.

John was capped 51 times by Wales; he was a barnstorming striker with Luton, Arsenal, West Ham, Wimbledon, Coventry, Celtic and West Bromwich Albion.

Swansea-born John never gave less than 100 percent on the pitch, and he took this attitude into his fight for life when, in 2009, he was diagnosed with testicular cancer that spread to his brain.

In the spring of 2010 after long hours of chemotherapy doctors were able to report that all traces of cancer have been eliminated. John now gives motivational talks, mixing stories of how he conquered cancer with riveting tales of his life in football.

BAUS Guest Speaker

Colin Jackson CBE

Early Life

Born in Cardiff on the 18th of February 1967, Colin Ray Jackson has ancestors with Jamaican, Maroon, Taino, and Scottish origins. He attended Llanedeyrn High School and took part in numerous sports, playing basketball and rugby for his school and cricket and football for his county.

He has said that athletics felt as though it came naturally to him, especially the 110-metre hurdle event. As a youth he joined a local athletics club called the Birchgrove Harriers, learning new skills and finding the support he needed to pursue his dream career. Jackson went on to be a successful junior sportsman, rising through the ranks and training hard to improve his performance.

Sporting Career

Jackson first became a household name when he won a silver medal at the 1986 Commonwealth Games. He went on to win silver for his performance in the 110 metre hurdles at the Olympic Games in Seoul just two years later. Jackson's success continued and he won gold in the 110 metre hurdles at the European Championships in 1990, 1994, 1998 and 2002. Between 1989 and 1994, he also won three golds in the 60 metre hurdles at European Championship indoor events. As well as winning titles within European competitions, Jackson continued to be successful on an international level. He won gold in his favourite competition, the 110 metre hurdles, at the World Championships in Stuttgart (1993) and Seville (1999), winning the indoor 60 metre hurdles at Maebashi in 1999. Jackson also won gold for his 110-metre hurdle performance at the Commonwealth Games in 1990 and 1994. In addition to his numerous golds, Jackson holds many silver medals and a bronze. His dream of succeeding at another Olympics was thwarted by injury in 1992; he failed to reach a top three position in any of the events he entered.

Jackson was awarded an MBE in 1990 for services to athletics and in 1992 was awarded the even higher accolade of a CBE due to his continued achievements.

World Record Holder

Jackson set the world record time of 12.91 seconds for the 110m hurdles in 1993 at the Stuttgart World Championships, a record which stood for thirteen years. In 1994, he set another world record time of 7.30 seconds at the indoor 60m hurdles. This record is yet unbeaten.

Life After Sport

Colin Jackson retired from professional competitive sport in 2003, after the World Indoor Championships. He has since been a coach to several high-profile sports people and has worked for the BBC as an athletics commentator.

Jackson worked for the BBC as a host of the popular Born to Win, a show in which young sports people compete to win a bursary to enable them to pursue their sporting ambitions. Always keen to inspire and encourage young people, he has also presented Raise Your Game with Colin Jackson in which he interviews sporting celebrities. He has appeared on several other TV shows, including Strictly Come Dancing and Who Do You Think You Are.

After writing his books, Jackson contributed some hints and tips for new writers for the BBC's Raw Words, a website which aims to help adults to improve their skills.

With Richard Owen, a former Executive Producer for the BBC, Jackson set up his own media production and consultancy company, Red Shoes.

Jackson is a specialist in sport and culture for the Zeitz Foundation, a not-for-profit organisation involved in preserving eco-systems, providing innovation in sustainable land management, and assisting people in need.

BJU International Guest Speaker

Richard Meddings CBE

Richard Meddings joined the Board of NHS England as Chair in March 2022.

From 2002 to 2014, Richard was a Group Executive Director at Standard Chartered, and Group Finance Director for eight years. Prior to that he was Group Finance Director at the Woolwich and Group Financial Controller of Barclays. He has in the past been Chairman of TSB Bank, served on the Board of HM Treasury, as a Non-Executive Director on the Boards of Credit Suisse, Legal & General, 3i Group, Jardine Lloyd Thompson Group and at Deutsche Bank A.G. He has in these roles variously chaired Audit, Risk and Remuneration Committees. He has additionally sat as a panel member for HM Treasury on several Major Projects Reviews and undertaken Independent Commercial Assessments of DFID and of the FCO.

From 2004 to 2014, Richard was Chairman of Seeing is Believing, a charity focused on curing avoidable blindness. He was a Trustee, and more recently Deputy Chair, of Teach First from 2016 to January 2022 and served on behalf of the Department of Education, for four years as Chairman of the Hastings Opportunity Area.

He is an Associate of the Institute of Chartered Accountants in England and Wales, attended Wolverhampton Grammar School and has a Degree in Modern History from Exeter College, Oxford. Richard is married, with three adult children, and lives in East Sussex.

The Urology Foundation Guest Speaker

Alfred Samuels

In 2012, following a successful career in the entertainment industry spanning over 30 years, Alfred Samuels was diagnosed with advanced metastatic prostate cancer. He uses his life changing diagnosis to inspire and motivate men and their families, to challenge men's attitudes and the taboos surrounding prostate cancer and to champion the importance of research. Today Alfred is recognised and celebrated as a Patient Advocate, Author, Award Winning Documentary Filmmaker A Survivor Amongst Survivors, Mentor and Inspirational Speaker. He has won 46 international film awards, including the London Cine Week and the Tokyo Short Film Fest.

The Full Freehand Transperineal Prostate Biopsy

A review of Cost-Effectiveness | Diagnostic Accuracy | and Greater Control

Overall Cancer detection rates of **60.7% - 81.8%** ^{1,2,3,4,5}

Mean patient tolerance has shown as: **VAS score of 2/ Biopsy NRS of 3.1** ^{6,7,8}

Full freehand has demonstrated to be **reproducible** ⁵

Potential cost reduction per procedure ^{9,10}

Date:

Wednesday 26th June

Time:

13.30 - 14.00

Place:

Hall 1 Auditorium

Speakers:

- **Prof Raj Persad**
- **Mr. Amar Mohee**
- **& other Urology Experts**

This symposium will provide an in-depth exploration of the Full Freehand TP Biopsy Technique. The event will be segmented into several key presentations, each focusing on real world clinical experience of the Full Freehand technique.

Prof Persad will set the stage for the symposium, introducing the technique and its significance in the field of prostate biopsy. This symposium promises to be an enlightening event for all attendees, offering a deep dive into the potential capabilities of the Full Freehand technique, without the use of a guide, for transperineal prostate biopsy.

P3-10 Urethral pressure profile (UPP) and external urethral sphincter electromyography (EUS-EMG) in the diagnostic pathway of women with idiopathic non-obstructive urinary retention (NOUR): are they necessary before a trial of sacral nerve stimulation (SNS)?

Mr Alejandro Mercado-Campero¹, Dr Marc Furrer¹, Miss Habiba Yasmin¹, Mr Richard Nobrega¹, Mr Anthony Noah¹, Ms Helena Gresty¹, Mr Jeremy Ockrim¹, Prof Jalesh Panicker¹, Ms Tamsin Greenwell¹, Ms Mahreen Pakzad¹

¹University College London Hospitals NHS Foundation Trust, London, United Kingdom

EPOSTER SESSIONS

6 minutes for each ePoster Presentation

4 minutes for presentation | 2 minutes for Q&A and turnaround

ANNUAL
MEETING
24-26 June

Tuesday 25 June, 0800-0900, Hall 10

ePoster Session 4

Andrology, Genitourethral Reconstruction, Infertility & Male Genital Cancers

Chairs: **Susan Wong**, Manchester Royal Infirmary and **Michelle Christodoulidou**, Chelsea & Westminster Hospital, London

P4-1 Clinical Pathway for Painful Nocturnal Erections (PNE): A Prospective Single-Centre, Observational Cohort Study

Mr Ameer Alarayedh¹, Mohamed Gad¹, Kenji Tomita^{1,2}, Celina J Pook^{1,2}, Muza Rexford¹, Igalada-Martinez Paula¹, Colette Pollard¹, Arunan Sujenthiran¹, Joerg Steier^{1,3}, Tet Yap¹

¹Guy's and St Thomas' NHS Foundation Trust, United Kingdom, ²GKT School of Medical Education, King's College, United Kingdom, ³Faculty of Life Sciences and Medicine, King's College, United Kingdom

P4-2 Exploring the Complexities of Problematic Pornography Use: An Unveiling of Its Impact on Mental and Sexual Health

Mr Ibrahim Samy^{1,2}, Miss Nadine Elshafei³, Mr Tet Yap¹

¹Guy's And St Thomas' NHS Trust, London, United Kingdom, ²Cairo University Hospitals, Cairo, Egypt, ³American University in Cairo, Cairo, Egypt

P4-3 Phentolamine and Aviptadil as second-line injection therapy for refractory erectile dysfunction

Mr Abdullah Al-Mitwalli¹, Ms F Holden¹, Mr G Chiriaco¹, Mr D Ralph¹, Mr WG Lee¹

¹University College London Hospital, London, United Kingdom

P4-4 Comparing Chlorhexidine 0.05% Antiseptic Monotherapy to Conventional Combined Antibiotic Irrigation During Penile Prosthesis Implantation: A Two-Center Prospective Randomized Controlled Non-Inferiority Study (Preliminary Data)

Mr Elsayed Desouky¹, Mr Peter Tsambarlis¹, Mr Laurence A. Levine¹

¹Rush University Medical Center, Chicago, United States

P4-5 The use of CircCurer™ Stapler Circumcision in Adults in the United Kingdom: first large case series

Dr Ruhul Amin¹, Dr Samuel Ghani¹, Mr Matthew Liew²

¹Circumcision Pro, London, United Kingdom, ²Liverpool University Hospitals NHS Foundation Trust, , Liverpool, UK

P4-6 The impact of microfluidic sperm selection on Assisted Reproductive outcomes

Mr Ibrahim Samy^{1,4}, Mr Yau Thum², Mr Tim Bracewell-Milnes², Mr Suks Minhas³, Mr Jonathan Ramsay², Mr Tet Yap¹

¹Guy's And St Thomas' NHS Trust, London, United Kingdom, ²The Lister Hospital HCA, London, United Kingdom, ³Imperial College Hospital, London, United Kingdom, ⁴Cairo University Hospitals, Cairo, Egypt

P4-7 Factors associated with gonadal recovery in men stopping anabolic-androgenic steroids

Dr Anjali Pradeep¹, Mr John Campbell², Miss Anjali Pradeep¹, Angela D. Burns³, Mr Paul Bassett⁴, Dr Ali Abbara¹, Dr Priyadarshi Saket², Professor Sukhbinder Minhas⁵, Professor James McVeigh⁶, Dr Channa Jayasena¹, et al.,

¹Section Of Investigative Medicine, Imperial College London, London, United Kingdom, ²Glasgow Alcohol & Drug Recovery Services, NHS Greater Glasgow & Clyde, Glasgow, United Kingdom, ³Department of Clinical Biochemistry, Queen Elizabeth University Hospital, Glasgow, United Kingdom, ⁴Statsconsultancy Ltd, Bucks, United Kingdom, ⁵Department of Urology, Charing Cross Hospital, London, United Kingdom, ⁶Department of Sociology, Manchester Metropolitan University, Manchester, United Kingdom

P4-8 A prospective audit evaluating the efficacy of Optilume balloon dilation of bulbar urethral strictures

Mr Muhesh Taheem, Miss Holly Ni Raghallaigh, Miss Pareeta Patel, Professor Nicholas Watkin

¹Epsom & St Helier University Hospitals, London, United Kingdom, ²St. George's University Hospitals NHS Foundation Trust, London, United Kingdom

P4-9 Comparison of oncological outcomes and survival between video endoscopic and open inguinal lymph node dissection for penile cancer over a 15-year period

Miss Ranya Vardini Kumar¹, Professor Krishna Sethia², Mr Vivekanandan Kumar²

¹University Of Cambridge, The School Of Clinical Medicine, Addenbrooke's Hospital, Hills Road, Cambridge, United Kingdom, ²Norfolk and Norwich University Hospital NHS Trust, Norwich, United Kingdom

P4-10 Optimising surveillance imaging in high risk nodal (N+) penile cancer: proposal of an updated surveillance protocol

Mr Thomas Kynaston¹, Mr Benjamin Ayres¹, Professor Nicholas Watkin¹, Miss Sylvia Yan¹, Mr Michael Ager², Dr Angela Pathmanathan³

¹St Georges University Hospitals NHS Trust, London, United Kingdom, ²Charing Cross Hospital, London, United Kingdom, ³Royal Marsden Hospital, London, United Kingdom

EPOSTER SESSIONS

ANNUAL
MEETING
24-26 June

Tuesday 25 June, 0800-0900, Hall 11A

ePoster Session 5

Uro-technology /Artificial Intelligence & Urology Apps

Chairs: **Dora Moon**, Royal Preston Hospital and **Sanjay Rajpal**, Airedale Hospital

P5-1 Novel Patient Information Video – a pilot study assessing feasibility and appetite for shared decision-making to enhance the surgical consent process

Mr Ankur Mukherjee¹, Miss Pragnitha Chitteti¹, Mr Raj Gowda¹, Mr Abdalla Deb¹, Mr Gianmarco Isgro¹, Mr Brian Chaplin¹

¹The James Cook University Hospital, South Tees NHS Trust, Middlesbrough, United Kingdom

P5-2 Revolutionizing patient information and enhanced consent in Urology - The impact of simulation and multimedia tools

Dr Carlotta Nedbal^{1,2}, Dr Patrick Juliebø-Jones³, Dr Eamonn Rogers⁴, Dr Clara Cerrato¹, Dr James N'Dow⁵, Dr Maria Ribal⁶, Dr Jens Rassweiler⁷, Dr Evangelos Liatsikos⁸, Dr Hein Van Poppel⁹, Prof Bhaskar Kumar Somani¹

¹Southampton University Hospital, Southampton, United Kingdom, ²Azienda Ospedaliero-Universitaria delle Marche, Polytechnic University of Le Marche, Ancona, Italy, ³Haukeland University Hospital, Bergen, Norway, ⁴University College Hospital, Galway, Ireland, ⁵University of Aberdeen, Aberdeen, UK, ⁶Hospital Clinic, University of Barcelona, Barcelona, Spain, ⁷Danube Private University (DPU), Krems-Stein, Austria, ⁸University of Patras, Greece, ⁹KU Leuven, Leuven, Belgium

P5-3 Artificial Intelligence Versus Human Touch : Can Artificial Intelligence Accurately Generate A Litterature Review On Laser Technologies ?

Dr Frederic Panthier¹, Dr Alberto Melchionna¹, Dr Hugh Crawford-Smith¹, Mrs Daniela Velinova¹, Ms Ikran Mohamed¹, Ms Siobhan Price¹, Dr Simon Choong¹, Dr Vimoshan Arumham¹, Dr Sian Allen¹, Dr Daron Smith¹

¹Department of Urology, Westmoreland Street Hospital, UCLH NHS Foundation Trust, London, United Kingdom

P5-4 Evaluating the performance of an AI Large Language Model (ChatGPT-4) in the classification of CT kidney ureter and bladder (KUB) radiology reports

Dr Habeeb Abdulrasheed¹, Mr Waleed Elsayed¹, Mr Ivo Dukic¹

¹Heartland Hospital, University Hospital Birmingham NHS Trust, Birmingham, United Kingdom

P5-5 A Machine Learning (ML) Predictive Model for Ureteroscopy lasertripsy (URSL) Outcomes in a Paediatric Population – Results from a large Endourology Tertiary Centre

Dr Carlotta Nedbal¹, V.A Sairam², Shilpa Gite², Nithesh Naik³, Prof Bhasar Kumar Somani¹

¹University Hospitals Southampton, NHS Trust, Southampton, United Kingdom, ²Symbiosis institute of technology, Pune, India, ³Manipal Academy of Higher Education, Manipala, India

P5-6 A new innovative EPR (electronic patient records) integrated Ureteric Stent Register

Mr Damiete Harry¹, Miss Nisa Sekhon¹, Ms Eleanor Buck¹, Mr Iftekhar Khan¹, Ms Surbjit Kudhail¹, Ms Priya Parasuraman¹, Mr Junaid Masood¹

¹Barking, Havering and Redbridge University Hospitals NHS Trust, Romford, United Kingdom

P5-7 Quantitative Evaluation of Vascular Pattern of Intra-Testicular Lesions on High Frequency Colour Doppler Ultrasound Examination

Dr Michael Conroy¹, Dr Dean Huang²

¹Kent & Canterbury Hospital, Canterbury, United Kingdom, ²King's College Hospital, London, United Kingdom

P5-8 Enhancing Non-Muscle Invasive Bladder Tumour Identification and Resection: A Machine-Learning Driven Map and Co-Pilot

Mr Kirandeep Saini^{1,2}, Mr Felix Holm^{2,5}, Ms. Hanna Hoffmann^{2,4}, Mr Vivek Singh^{2,6}, Dr Rafael Moreta Martínez², Dr Monica Ortenzi^{2,3}

¹Churchill Hospital, Oxford, United Kingdom, ²SDS, Institute of Image Guided Surgery, University of Strasbourg, France, ³Universita Politecnica delle Marche, Ancona, Italy, ⁴NCT Dresden, Dresden, Germany, ⁵TUM School of Computation, Information and Technology, Technical University of Munich, Munich, Germany, ⁶Boston University School of Medicine, Boston, USA

P5-9 Using wearable device monitoring and artificial intelligence to develop predictive models for predicting survival after radical cystectomy for bladder cancer - a secondary outcome analysis of the iROC trial

Mr Prमित Khetrapal¹, Mr Yansong Liu², Prof Nikhil Vasdev³, Prof Imran Ahmed⁴, Mr Philip Charlesworth⁵, Prof Muhammad Shamim Khan⁶, Mr Vishwanath Hanchanale⁷, Mr Sanjeev Kotwal⁸, Mr Ed Rowe⁹, Mr John McGrath¹⁰, et. al, et. al,

¹King George's Hospital, London, United Kingdom, ²University College London, London, United Kingdom, ³Lister Hospital, Stevenage, Stevenage, United Kingdom, ⁴University of Glasgow, CRUK Scotland Institute and the School of Cancer Sciences, Glasgow, United Kingdom, ⁵Royal Berkshire Hospital, Reading, United Kingdom, ⁶Guy's Hospital, London, United Kingdom, ⁷Royal Liverpool University Teaching Hospital, Liverpool, United Kingdom, ⁸St James University Hospital, Leeds, United Kingdom, ⁹North Bristol NHS Trust, Bristol, United Kingdom, ¹⁰Royal Devon and Exeter Hospital, Urology, Exeter, United Kingdom

P5-10 WITHDRAWN

Tuesday 25 June, 0800-0900, Hall 11B

ePoster Session 6

Management/Governance/Education/Quality Improvement 1

Chairs: **Brian Duggan**, The Ulster Hospital, Belfast and **Sarah Howles**, Churchill Hospital, Oxford

P6-1 Medical Students' Outpatient Skills Experiences and Training in Urology Clinics: A quality improvement project

Usaamah Ramzan², Dr Nadeem AlShunaigat², Dr Ravi Banthia¹, Mr Steve Leung^{1,2}

¹Western General Hospital, Edinburgh, United Kingdom, ²University of Edinburgh, Edinburgh, United Kingdom

P6-2 The introduction of a Urology Foundation Doctor Mentorship Scheme at a District General Hospital

Miss Vishali Sharma¹, Mr Joshua Rabinowitz¹, Mr Ray Hsu¹, Miss Shabnam Undre¹, Mr Andrew Brodie¹

¹Lister Hospital, East and North Herts NHS Trust, Stevenage, United Kingdom

P6-4 Supporting performance from outside the operating theatre: A pilot study of the acceptability and relevance of performance enhancement coaching to newly appointed urology trainees

Miss Lilli Cooper¹, Mr Karan Wadhwa², Mr Mark Rochester³, Mr Chandra Shekhar Biyani⁴, Mrs Ruth Doherty³

¹Real Battersea Clinic, London, United Kingdom, ²Broomfield Hospital, Chelmsford, United Kingdom, ³Norfolk & Norwich University Hospital, Norwich, United Kingdom, ⁴Leeds Teaching Hospitals NHS Trust, Leeds, United Kingdom

P6-5 Differential attainment and Factors Associated with Training applications and Outcomes (DE FACTO) Study: Urology in the United Kingdom

Miss Martina Spazzapan¹, Mr Siddarth Raj², Miss Sarika Grover², Dr Beth Russell³, Mr Simon Fleming⁴, Ms Stella Vig⁵, Mr Sachin Malde¹

¹Urology Department, Guy's and St. Thomas' NHS Foundation Trust, London, United Kingdom, ²University Hospitals Coventry and Warwickshire NHS Trust, Coventry, UK, Coventry, United Kingdom, ³Translational Oncology and Urology Research (TOUR), School of Cancer and Pharmaceutical Sciences, King's College London, London, United Kingdom, ⁴Department of Trauma and Orthopaedics, Barts Health NHS Trust, London, United Kingdom, ⁵Department of Vascular and General Surgery, Croydon Health Services NHS Trust, London, United Kingdom

P6-6 The Surgeon as the Second Casualty: Results from a National Survey on the Personal Impact of Complications in Surgeons

Ms Sorcha O'Meara¹, Prof. Eva Doherty², Prof Kilian Walsh³

¹Dept. of Surgery, Royal College Of Surgeons of Ireland, Dublin, Ireland, ²Dept. of Surgical Affairs, Royal College of Surgeons of Ireland, Dublin, Ireland, ³Dept. of Urology, University College Hospital Galway., Galway, Ireland

P6-7 Litigation trends in Urology compared to other surgical specialties in the UK National Health Service: an analysis of claims over 17 years

Dr Abhinav Tiwari¹, Miss Jenni Lane¹, Professor Bhaskar Somani^{1,2}

¹University Hospital Southampton NHS Foundation Trust, Southampton, United Kingdom, ²Faculty of Medicine, Southampton General Hospital, University of Southampton, Southampton, United Kingdom

P6-8 Have Information Videos Improved Patient Understanding of Complex Urological Surgeries?

Mr Chris Richards¹, Dr Sohail Nakhuda¹, Mr Craig Jones¹, Mr Pete Smith¹, Mr Yuhao Zhang¹, Ms Emma Ryan¹, Mr Steve Bromage¹, Mr James Dyer¹, Mr Paul Cleaveland¹

¹Stockport NHS Foundation Trust, Manchester, United Kingdom

P6-9 Use of QR codes in the urology outpatient department: Acceptability for patients and staff

Dr Ashwini Kulkarni¹, Ms Jessica Gallagher¹, Prof Hashim Hashim¹

¹Bristol Urological Institute, Bristol, United Kingdom

P6-10 Exploring Sustainable Practices: Unveiling Evidence in Urology

Dr Habeeb Abdulrasheed¹, Mr Daniel Madarshahian¹, Mrs Banan Osman¹

¹Heartland Hospital, University Hospital Birmingham NHS Trust, Birmingham, United Kingdom

P6-3 Emergency Urology Crash Course: Teaching Frontline Non-Urologists Pays Back

Mr Elsayed Desouky¹, Mr Mohamed Ibrahim², Mr mohamed Koura², Mr Mohamed Dallash², Mr Jas Kalsi²

¹RUSH University Medical Center, Chicago, USA, ²Wexham Park Hospital, Slough, UK

Wednesday 26 June, 0800-0900, Hall 4

ePoster Session 7

Bladder Cancer: Muscle & Non-Muscle Invasive

Chairs: **Jayne Douglas Moore**, Leicester General Hospital and **James Douglas**, University Hospital Southampton

P7-1 Quality improvement in TURBT: Experience from one centre with 45 years of prospectively collected data

Professor Paramanathan Mariappan^{1,2}, Mrs Tanya Lord-McKenzie¹, Ms Silje Welsh³, Dr Joni Miller³, Dr Sorna L Paramanathan⁴, Dr Amy Forbes³, Ms Grace Loy⁴, Dr Serena Baker⁴, Mr Roland Donat³, Mr Gordon Smith³

¹Edinburgh Bladder Cancer Surgery (EBCS), Western General Hospital, Edinburgh, United Kingdom, ²The University of Edinburgh, Edinburgh, United Kingdom, ³Department of Urology, Western General Hospital, Edinburgh, United Kingdom, ⁴Edinburgh Medical School, The University of Edinburgh, Edinburgh, United Kingdom

P7-2 Does enhanced audit and feedback with education improve quality indicator (QI) achievement and reduce early recurrence rates in TURBT surgery for NMIBC? Results from the RESECT cluster randomised trial

Mr Kevin Gallagher^{1,5,9,10}, Miss Nikita Bhatt^{2,9}, Mr. Keiran Clement^{3,9}, Mr. Sinan Khadhour^{11,9}, Dr. Fortis Gaba^{4,9}, Miss Aqua Asif^{5,9}, Dr. Alexander Light^{6,9}, Mr. Steven MacLennan⁷, Professor Paramanathan Mariappan⁸, Mr. Veeru Kasivisvanathan^{5,9}, RESECT Global Study Group⁹

¹Department of Urology, Western General Hospital, Edinburgh, United Kingdom, ²Department of Urology, Newcastle Hospitals NHS Trust, Newcastle, United Kingdom, ³Department of Urology, NHS Greater Glasgow and Clyde, Glasgow, United Kingdom, ⁴Department of Urology, Albany Medical Centre, Albany, United States, ⁵Division of Surgery and Interventional Science, University College London, London, United Kingdom, ⁶Department of Surgery and Cancer, Imperial College London, London, United Kingdom, ⁷Health Services Research Unit, University of Aberdeen, Aberdeen, United Kingdom, ⁸Edinburgh Bladder Cancer Surgery, Western General Hospital, Edinburgh, United Kingdom, ⁹British Urology Researchers in Surgical Training, London, United Kingdom, ¹⁰Cancer Informatics, Institute of Genetics and Cancer, University of Edinburgh, Edinburgh, United Kingdom, ¹¹University of St. Andrews School of Medicine, St. Andrews, United Kingdom

P7-3 Effectiveness of joint specialist POPS (Peri-Operative care of Older People undergoing Surgery) and Urology management in bladder cancer patients with apparent frailty

Professor Paramanathan Mariappan^{1,2}, Dr Helen Jones³, SN Rebecca Dryburgh³, SN Patsy Bathgate³, SN Yolonde Mackie-Titterton³, Dr Deborah Morley⁴, Mr Suriaraj Karppaya¹, Dr Irwin Foo⁴, Dr Elizabeth MacDonald³

¹Edinburgh Bladder Cancer Surgery (EBCS), Western General Hospital, Edinburgh, United Kingdom, ²The University of Edinburgh, Edinburgh, United Kingdom, ³Peri-Operative care of Older People undergoing Surgery (POPS), Medicine of the Elderly Department, Western General Hospital, Edinburgh, United Kingdom, ⁴Department of Anaesthetics and Critical Care, Western General Hospital, Edinburgh, United Kingdom

P7-4 Oncological and Urological Outcomes after Total Pelvic Exenteration for Advanced Pelvic Cancers: A Single-Center Study

Dr Shri-Ishvarya Rajamoorthy¹, Dr Alexandra Uren, Mr Karthik Rajan², Mr Mohamed Mubarak², Miss Catherine Dixon¹, Miss Faye Jeavons¹, Mr Pradeep Bose¹, Mr Jonathan Featherstone¹, Mr Nicholas Gill¹, Mr Gokul Vignesh Kandaswamy¹

¹Department of Urology, Morriston Hospital, Swansea, United Kingdom, ²Department of Urology, Sunderland Royal Hospital, Sunderland, United Kingdom, ³Department of Urology, University Hospital of Wales, Cardiff, United Kingdom

- P7-5 The unmet need for bladder sparing treatments in BCG Failure in the UK - mapping to emerging treatment options**
Miss Elizabeth Day¹, Ms Rachel Aquilina², Mr Ashwin Sridhar¹, Mr John Kelly¹, Ms Bernadett Szabados¹
¹University College London Hospital, London, United Kingdom, ²University College London, London, United Kingdom
- P7-6 Long Term Outcome of Transurethral Laser Ablation (TULA) of Non-Muscle Invasive Bladder Cancer (NMIBC): A 1-year and 5-year EORTC Risk-Matched Study**
Mr Chase Peng Yun Ng¹, Dr Charis Eleftheriou¹, Dr Oliver Hug¹, Dr Ellie Richardson¹, Dr Tarra Gill-Taylor¹, Mr Altaf Shamsuddin¹, Mr Hamid Abboudi¹
¹Imperial College Healthcare NHS Trust, London, United Kingdom
- P7-7 Fluorescence confocal microscopy performed by the surgical team for the analysis of margins during robotic radical cystectomy - a feasibility study**
Dr Ricardo Almeida-Magana¹, Miss Elizabeth Day¹, Dr Alex Freeman¹, Dr Aiman Haider¹, Mr Anthony Ta¹, Prof. John Kelly¹, Prof Greg Shaw¹
¹University College London Hospital, London, United Kingdom
- P7-8 Impact of palliative cystectomy on the quality of life and hospital admissions in bladder cancer patients**
Dr Rui Luo, Dr Maham Zaidi, Mr Ghulam Nandwani
¹Department of Urology, Ninewells Hospital, Dundee, United Kingdom
- P7-9 Could we use the bladder tissue microbiome to identify which bladder cancer patients may not respond to standard treatments**
Miss Madhavi Natarajan¹, Dr Nicola Annels², Mr Matthew Perry^{1,2}, Dr Izhar Bagwan¹, Prof Hardev Pandha^{1,2}
¹Royal Surrey Hospital, Guildford, United Kingdom, ²University of Surrey, Guildford, United Kingdom
- P7-10 Incidence and Predictors of Recurrence in Low grade non-invasive Upper tract urothelial cancer following Radical Nephroureterectomy**
Kalpesh Parmar¹, Karthik Rajan¹, Rob Geraghty¹, Kamran Haq¹, Mark Johnson¹, David Rix¹, Bhavan Prasad Rai¹
¹Freeman Hospital, Newcastle Upon Tyne, United Kingdom

Stones / Imaging / Upper Tract Disorders 2

Chairs: **Kay Thomas**, Guy's & St Thomas' Hospital, London and **Matthew Clark**, Royal Preston Hospital

P8-1 Manual Hand-Pump versus Pressurised-Bag Irrigation During Flexible Ureterorenoscopy and the Impact on Intrarenal Pressure : A Multicentre Randomized Trial

Ms [Stefanie Croghan](#)^{1,2,3}, Ms. [Sorcha O'Meara](#)^{1,2,3}, Dr. [Eoghan M. Cunnane](#)⁴, Prof. [Michael T. Walsh](#)⁴, Prof. [Fergal J. O'Brien](#)⁵, Prof. [Rustom P. Manecksha](#)^{6,7}, Prof. [Barry B. McGuire](#)^{8,9,10}, Mr. [Kieran J. Breen](#)^{8,9}, Prof. [Niall F. Davis](#)^{1,2,10}

¹Beaumont Hospital, Dublin, Ireland, ²Blackrock Clinic, Dublin, Ireland, ³Royal College of Surgeons in Ireland (StAR Programme), Ireland, ⁴School of Engineering, Bernal Institute, University of Limerick, Ireland, ⁵Tissue Engineering Research Group (TERG), Royal College of Surgeons in Ireland, Ireland, ⁶Tallaght University Hospital, Ireland, ⁷Department of Surgery, Trinity College Dublin, Ireland, ⁸St. Michael's Hospital, Dublin, Ireland, ⁹St. Vincent's Hospital, Dublin, Ireland, ¹⁰Department of Surgery, Royal College of Surgeons in Ireland, Ireland

P8-2 Causal effects of renal cysts on kidney stone disease

Miss [Catherine Lovegrove](#)^{1,2}, Professor [John Sayer](#)³, Professor [Rajesh Thakker](#)¹, Professor [Michael Holmes](#)⁴, Professor [Dominic Furniss](#)^{1,2}, Dr [Sarah Howles](#)^{1,2}

¹University of Oxford, Oxford, United Kingdom, ²Oxford University Hospitals NHS Foundation Trust, Oxford, United Kingdom, ³Newcastle University, Newcastle, United Kingdom, ⁴University of Bristol, Bristol, United Kingdom

P8-3 Genetic variants associated with DGKD, CYP24A1, and SLC34A1 predisposing to increased risk of kidney stone disease via effects on serum calcium or phosphate concentrations

Miss [Catherine Lovegrove](#)^{1,2}, [Michelle Goldsworthy](#)¹, [Jeremy Haley](#)³, [Diane Smesler](#)³, [Fadil Hannan](#)¹, [Monish Suri](#)⁴, [Omid Sadeghi-Alavijeh](#)⁵, [Daniel Gale](#)⁵, [Michael Holmes](#)⁶, [Rajesh Thakker](#)¹, [Dominic Furniss](#)^{1,2}, [Sarah Howles](#)^{1,2}

¹University of Oxford, Oxford, United Kingdom, ²Oxford University Hospitals NHS Foundation Trust, Oxford, United Kingdom, ³Geisinger Medical Center, Danville, USA, ⁴Nottingham University Hospitals NHS Trust, Nottingham, United Kingdom, ⁵University College London, London, United Kingdom, ⁶University of Bristol, Bristol, United Kingdom

P8-4 Adverse events related to holmium laser fibers and laser machines during ureteroscopy and stone lithotripsy: Insights from an updated 10-year analysis of the US MAUDE database

[Patrick Juliebø-Jones](#)¹, Dr [Francesco Ripa](#)⁵, [Mathias Sørstrand Æsøy](#)¹, [Christian Beisland](#)¹, [Vincent de Coninck](#)², [Etienne Xavier Keller](#)³, [Lazaros Tzelves](#)⁴, [Peter Gjengstø](#)¹, [Christian Arvei Moen](#)¹, [Øyvind Ulvik](#)¹, [Bhaskar Somani](#)⁵, [Carlotta Nedbel](#)⁵

¹Haukeland University Hospital, Bergen, Norway, ²AZ Kliina, Brasschaat, Belgium, ³University Hospital Zurich, Zurich, Switzerland, ⁴National and Kapodistrian University of Athens, Athens, Greece, ⁵University Hospital Southampton NHS Trust, Southampton, United Kingdom

P8-5 Comparative study of Thulium fibre laser vs Holmium laser for kidney stones in miniaturized percutaneous nephrolithotomy: A randomised controlled single centre trial

Dr [Aruj Shah](#)¹, Dr [Deval Parikh](#)¹, Dr [Abhishek Singh](#), Dr [Arvind Ganpule](#), Dr [Ravindra Sabnis](#), Dr [Mahesh Desai](#)

¹Muljibhai Patel Urological Hospital (MPUH), Nadiad, India

P8-6 How much energy do we need to ablate 1 cubic millimeter of stone during Thulium Fiber laser lithotripsy? An in vitro study

Dr Frederic Panthier^{1,2,3}, Dr Marie Chicaud^{1,2,3}, Dr Steeve Doizi^{1,2,3}, Dr Laurent Berthe³, Dr Mariela Corrales^{1,2}, Dr Olivier Traxer^{1,2,3}

¹GRC 20 Urolithiasis, Sorbonne University-Tenon Hospital, Paris, France, ²Urology Department, Sorbonne University-Tenon Hospital, Paris, France, ³PIMM Lab, UMR 8006 CNRS-Arts et Métiers ParisTech, Paris, France

P8-7 Comparative study of Thulium fibre laser vs Holmium laser with Moses technology for ureteric stones in semirigid ureteroscopy: A randomised controlled single centre trial with a 2 year follow up

Dr Aruj Shah¹, Dr Ankit Gupta¹, Dr Raj Makani¹, Dr Abhishek Singh¹, Dr Arvind Ganpule¹, Dr Ravindra Sabnis¹, Dr Mahesh Desai¹

¹Muljibhai Patel Urological Hospital (MPUH), Nadiad, India

P8-8 NEW IMAGING FINDINGS RATE AND IMPACT DURING STONE MULTIDISCIPLINARY TEAM MEETING : A RETROSPECTIVE ANALYSIS

Ms Eduarda Alvarez¹, Dr Frederic Panthier¹, Dr Clare Allen², Dr Daron Smith¹

¹Department of Urology, Westmoreland Street Hospital, UCLH NHS Foundation Trust, London, United Kingdom, ²Department of Radiology, University College London Hospitals, London, United Kingdom

P8-9 Patients' priorities in kidney stone disease

Mr Victor Popoola¹, Miss Grace Wheeler¹, Dr Sarah Howles^{2,3}, Dr Catherine Lovegrove^{2,3}

¹Oxford University Medical School, Oxford, United Kingdom, ²Nuffield Department of Surgical Sciences at the University of Oxford, Oxford, United Kingdom, ³Department of Urology, Oxford University Hospitals NHS Foundation Trust, Oxford, United Kingdom

P8-10 Clinical significance of stone culture during endourological procedures in predicting post-operative urinary sepsis - Should it be a standard of care? Evidence from a systematic review and meta-analysis

Dr Francesco Ripa¹, Clara Cerrato², Carlotta Nedbal², Zafer Tandogdu³, Mr Simon Choong³, Professor Bhaskar Somani²

¹Whittington Health NHS Trust, London, United Kingdom, ²University Hospital Southampton NHS Foundation Trust, Southampton, United Kingdom, ³University College London Hospitals NHS Foundation Trust, London, United Kingdom

24-26 June

Wednesday 26 June, 0800-0900, Hall 9

ePoster Session 9

Prostate Cancer 1

Chairs: **Ashwin Sachdeva**, The Christie NHS Foundation Trust, Manchester and **Catherine Hobbs**, Churchill Hospital, Oxford

P9-1 Early return to continence, oncological safety and significance of membranous urethral length in anterior Retzius sparing (ARS) robot assisted radical prostatectomy (RARP)

Mr Nithesh Ranasinha^{1,2}, Mr Anthony Bates¹, Mr Thineskrishna Anbarasan², Mr Abhishek Sharma¹, Prof Richard Bryant^{1,2}, Mr Aaron Leiblich¹, Mr Tom Leslie¹, Mr Francisco Lopez¹, Mr Alastair D Lamb^{1,2}

¹Department of Urology, Oxford University Hospitals NHS Foundation Trust, Oxford, United Kingdom, ²Nuffield Department of Surgical Science, University of Oxford, Oxford, United Kingdom

P9-2 Cardiovascular and Fracture Risks associated with LHRH analogue treatment and assessing those at risk: A Retrospective Cohort Study

Dr John Gibson¹, Mr Stephen Bromage²

¹East Lancashire Hospitals NHS Trust, Blackburn, United Kingdom, ²Stockport NHS Foundation Trust, Stockport, United Kingdom

P9-3 Correlation between MRI and Pathological Primary Tumour Staging in T3a Prostate Cancers with Broad Capsular Contact: A Study on 383 Patients

Mr Jonathan Ferguson¹, Dr Jonathan Ferguson¹, Mr Dimitrios Papadopoulos¹, Mr Constantinos Adamou¹, Mr Julian Peacock¹, Mr Torath Ameen¹, Mr Umberto Carbanara¹, Mr Joseph Gabriel¹, Mr Wissam Abou Chedid¹, Mr Venkata Ramana Murthy Kusuma¹, Mr Dimitrios Moschonas¹, Mr James Hicks¹, Mr Krishna Patil¹, Mr Matthew Perry¹

¹Royal Surrey County Hospital, Guildford, United Kingdom

P9-4 ProFocal®- novel, cooled Laser Focal Therapy. Pivotal trial results of 100 men with localised Prostate Cancer

Dr Jonathan Kam¹, Dr Mohan Arianayagam¹, Dr Bertram Canagasingham¹, Dr Ahmed Saeed Goolam¹, Dr Nicola Jeffery¹, Dr Matthew Winter¹, Prof Mohamed Khadra¹, A/Prof Raymond Ko¹, Dr Nicholas Mehan¹, Dr Isaac Thangasamy¹, A/Prof Celi Varol², Rick Popert

¹Nepean Urology Research Group, Sydney, Australia, ²Medlogical Innovations, Sydney, Australia

P9-5 The Man Van Project: Subgroup Analysis of Patients From A Single Primary Care Centre

Mr Masood Moghul^{1,2}, Miss Fionnuala Croft¹, Dr Netty Kinsella¹, Mr Declan Cahill¹, Professor Nicholas James^{1,2}

¹Royal Marsden Hospital, London, United Kingdom, ²Institute of Cancer Research, London, United Kingdom

P9-6 Development and Internal Validation of a Multivariable Prognostic Model for Mental Wellbeing Outcomes in Prostate Cancer Patients

Mr Oliver Brunckhorst¹, Mr Jaroslaw Liszka¹, Dr Jack Fanshawe², Dr Robert Thomas³, Mr Shahid Khan⁴, Mr Matin Sheriff⁵, Prof Hashim Ahmed⁶, Prof Mieke Van Hemelrijck¹, Prof Prokar Dasgupta¹, Mr Kamran Ahmed¹, et al.,

¹King's College London, London, United Kingdom, ²Queen Elizabeth Hospital, London, United Kingdom, ³Bedfordshire Hospitals NHS Foundation Trust, Bedford, United Kingdom, ⁴East Surrey Hospital, Redhill, United Kingdom, ⁵Medway NHS Foundation Trust, Gillingham, United Kingdom, ⁶Imperial College London, London, United Kingdom

P9-7 IDEAL Stage 2 implementation of the Medtronic Hugo Robotic-Assisted Surgery (RAS) in radical prostatectomy: Comparative study from the first UK centre

Mr Mehrshad Sultani Tehrani¹, Mr Andrew Shepherd², Mr Angus Bruce², Mr Daniel Chia², Mr Findlay MacAskill³, Mr Christian Brown², Mr Jonathan Noel², Mr Ata Jaffer², Mr Prokar Dasgupta², Mr Ben Challacombe²

¹King's College London, London, United Kingdom, ²Guy's and St Thomas' NHS trust, London, United Kingdom, ³Guy's and St Thomas' NHS trust on behalf of Guy's Post Pelvic Surgery Research Group, London, United Kingdom

P9-8 Morphine, Naloxone and Beta-endorphin inhibit the proliferation of PC3, LNCaP and a benign prostate cell line and inhibit TNF-Alpha-induced release of IL-6, IL-8 and IL-1 Beta in vitro: Clinical significance in prostate cancer management?

Miss Prapussara Sirikhansaeng¹, Muhammadbakhoree Yusuh¹, Laurie Lau², Omar Abdelwahab¹, Associate Professor Brian Birch³, Professor Bashir Lwaleed¹

¹University Of Southampton, Faculty of Health Sciences, Southampton, United Kingdom, ²University of Southampton, Faculty of Medicine, Southampton, United Kingdom, ³University Hospital Southampton NHS Foundation Trust, Dept. of Urology, Southampton, United Kingdom

P9-9 Empowering local communities: The "ThisVanCan" Experience. An awareness campaign and mobile case finding project for black men and other high-risk individuals for developing prostate cancer

Mr Harry Alexander Rudman¹, Ms Hannah Leather¹, Ms Millie Wadley¹, Mr Sotonye Karl Tolofari¹

¹Salford Care Organisation (Northern Care Alliance), Salford, United Kingdom

P9-10 Omentoplasty improves anastamotic leak rate and post operative catheter dwell time after salvage robotic prostatectomy

Mr Arjun Nathan¹, Dr Aqua Asif¹, Dr Gulz Dhanoya¹, Dr Tushar Narain¹, Professor Senthil Nathan¹

¹UCL, London, United Kingdom

TUF-BAUS Best of the Regions

Chairs: **Mark Lynch**, Croydon University Hospital, Surrey and **Tharani Nitkunan**, Epsom General Hospital, Surrey

P10-1 Creating A Decision Aid For Prostate Cancer Diagnostics Using Local Data

Miss Rion Healy¹, Mr Nick Burns-Cox², Mr Liam Blaney²

¹North Bristol Trust, Bristol, United Kingdom, ²Somerset NHS Foundation Trust, Taunton, United Kingdom

P10-2 Regional disparities in BOO surgical management in 2023: a pilot study

Dr Edward Armstrong¹, Mr Richard Menzies-Wilson, Professor Ben Turney

¹Oxford University Hospitals, Oxford, United Kingdom

P10-3 Malignancy Rate of Bosniak 3 and 4 Complex Renal Cystic Lesions

Mr Abhishek Reekhaye¹, Kathryn Brown¹, Joanne Oakley¹, Harbinder Sharma¹, Amr Emar¹, Manar Malki¹, Neil Barber¹, Muddassar Hussain¹

¹Frimley Park Hospital, Frimley, United Kingdom

P10-4 Robotic Assisted Partial Nephrectomy - A Belfast Experience

Mr Andrew Carlile, Ms Aisling Devine, Mr David Curry

¹Belfast City Hospital, Belfast, United Kingdom

P10-5 The impact of a new primary ureteroscopy service for the emergency treatment of ureteric stones in a busy university hospital

Ms Maryam Rasheed¹, Mr Tarek Aly, Mr Khaled Ghanem, Dr Kevin George, Dr Mazharuddin Shaikh, Mr Junaid Masood

¹Barking, Havering and Redbridge University Hospitals, Romford, United Kingdom

P10-6 Outcomes of men undergoing surgery for Gleason 8-10 prostate cancer: A UK tertiary centre experience

Miss Stephanie Smith¹, Miss Kate Manley¹, Mr Rob Mills¹

¹Norfolk And Norwich University Hospitals, Norwich, United Kingdom

P10-7 Is there a need for flexible cystoscopies in patients with recurrent Urinary Tract Infections?

Mr Anton Wong¹, Miss Beverly James¹, Miss Anna Mainwaring¹, Mr Pradeep Bose¹, Mr Gokul Kandaswamy¹

¹Swansea Bay Hospitals, Swansea, United Kingdom

P10-8 Scrub team-led theatre fluoroscopy radiation: ALARA? An update

Miss Feng Tse¹, Mrs Sharon Scriven, Mr Dhaval Bodiwala, Mr Hari Ratan, Mr Stephen Miller, Miss Susan Hall, Mr Jerry Raju

¹Nottingham City Hospital, Nottingham, United Kingdom

P10-9 Cardiovascular and Fracture Risks associated with LHRH analogue treatment and assessing those at risk: A Retrospective Cohort Study

Dr John Gibson¹, Mr Craig Jones², Mr Stephen Bromage²

¹East Lancashire Hospitals NHS Trust, Blackburn, United Kingdom, ²Stockport NHS Foundation Trust, Stockport, United Kingdom

P10-10 Real world high-risk non-muscle invasive bladder cancer: Long-term outcomes from a consecutive cohort screened for the BRAVO randomised feasibility trial of radical cystectomy versus intravesical BCG immunotherapy

Miss Samantha Conroy¹, Mr Ibrahim Jubber¹, Mr Aidan P Noon¹, Dr Jon Griffin¹, Prof Derek Rosario⁴, Dr Rachel Hubbard¹, Mr Ramanan Rajasundaram², Mr Suresh Venogupal³, Prof Syed Hussain¹, Prof James Catto¹

¹Sheffield Teaching Hospitals and University Of Sheffield, Sheffield, United Kingdom, ²Doncaster Royal Infirmary, Doncaster, United Kingdom, ³The Royal Liverpool and Broadgreen University Hospitals, Liverpool, United Kingdom, ⁴Sheffield Teaching Hospitals and Sheffield Hallam University, Sheffield, United Kingdom

P10-11 WITHDRAWN

P10-12 Scottish National Complex Renal Cyst Surveillance Protocol

Dr Benjamin Parkin¹, Mr Gavin Lamb, Dr Nikolas Arestis, Ms Jane Hendry, Mr James Blackmur, Ms Sara Ramsey, Mr Ross Clark, Dr Anna Brown, Dr Zack Slevin, Mr Steve Leung, Et al.

¹Ayr Hospital, Ayr, United Kingdom

P10-13 Is there a geographical incidence variation in upper urinary tract urothelial carcinoma in the Highlands and Islands?

Miss Charlotte Gunner, Dr Caitlin Critchley, Dr Siddharth Basetti, Mr Ian Wilson

¹NHS Highland, Inverness, United Kingdom

P10-14 Robotic Assisted Retroperitoneal Lymph Node Dissection : Defining Selection Parameters and Assessment of Morbidity and Short-Term Oncological Outcomes: A B-SAFE approach

Mr Kamran Haq¹, Mr Usman M Haroon¹, Mr Akinlolu Oluwole-Ojo¹, Mr Daniel Chia¹, Miss Fairleigh Reeves, Dr Hema Verma¹, Dr Sarah Rudman¹, Dr Jonathan Shamash², Mr Timothy O'Brien¹, Miss Archana Fernando¹, Mr Ben Challacombe¹

¹Guy's Hospital London, London , United Kingdom, ²BARTS Health London , London

P10-15 Characterisation of iatrogenic human ureteral injury due to contact from the Ho:YAG laser at commonly used lithotripsy settings

Ms Sorcha O'Meara¹, Dr. K. Sheehan^{2,3}, Dr. J. Fay^{2,6}, Dr. T. O'Grady^{2,6}, Ms. S.M. Croghan^{1,4,5}, Dr. E.M. Cunnane^{7,8}, Prof. M.T. Walsh^{7,8}, Prof. F.J. O'Brien⁹, Prof. N.F. Davis^{4,5}

¹Royal College Of Surgeons Of Ireland, Dublin, Ireland, ²Dept. of Pathology, Royal College of Surgeons of Ireland, Dublin, Ireland, ³Dept. of Pathology, Blackrock Health, Ireland, ⁴Dept. of Urology, Blackrock Health, Ireland, ⁵Dept. of Urology, Beaumont Hospital , Ireland, ⁶RCSI Biobank, Royal College of Surgeons of Ireland, Ireland, ⁷Biomaterials Cluster, Bernal Institute, University of Limerick, Ireland, ⁸School of Engineering, University of Limerick, Ireland, ⁹Tissue Engineering Research Group, Royal College of Surgeons in Ireland, Ireland

EPOSTER SESSIONS

6 minutes for each ePoster Presentation

4 minutes for presentation | 2 minutes for Q&A and turnaround

ANNUAL
MEETING
24-26 June

Wednesday 26 June, 0800-0900, Hall 11A

ePoster Session 11

General Urology

Chairs: **Matthew Thomas**, Diana, Princess of Wales Hospital, Grimsby and **Melissa Davies**, Salisbury District Hospital

P11-1 Efficacy of different surgical treatment modalities for radiation cystitis- lessons from 7 years of a specialist radiation cystitis service

Dr Jonathan Kam¹, Ms Yasmin Abu-Ghanem¹, Ms Elsie Mensah¹, Mr Rajesh Nair¹, Prof Shamim Khan¹, Mr Ramesh Thurairajah¹, Georgia Heaver-Wren¹

¹Guy's Hospital, London, United Kingdom

P11-2 WITHDRAWN

P11-3 Gram Negative Bacteria related Urinary Tract Infections: spectrum of antimicrobial resistance over 9 years in a University tertiary referral Hospital

Dr Carlotta Nedbal^{1,2}, Dr Nitin Mahobia¹, Mr Dave Browning¹, Prof Bhaskar Somani¹, Dr Clara Cerrato¹

¹University Hospital Southampton NHS Trust, Southampton, United Kingdom, ²Azienda Ospedaliero-Universitaria delle Marche, Polytechnic University of Le Marche, Ancona, Italy

P11-4 Baseline lower urinary tract symptoms correlation with motor and cognitive function in patients with treatment naïve and non-treatment naïve Parkinson's Disease

Mr Nikan Golesorkhi¹, Dr Leta Valentina², Professor Kallol Ray Chaudhuri², Mr Nicholas Faure Walker³

¹King's College London, Faculty of Life Sciences and Medicine, London, United Kingdom, ²King's College London, Dept. of Neurology, London, United Kingdom, ³King's College London, Dept. of Urology, London, United Kingdom

P11-5 Aligning the Patient Pathway: Getting It Right First Time in Bladder Outlet Obstruction

Mr Abdul Shugaba¹, Mr Neil Harvey¹

¹Royal Bolton Hospital, Bolton, United Kingdom

P11-6 Rezum steam ablation of the prostate for patients with urinary retention

Mr Arthur Day¹, Mr Omar El-Taji¹, Mr Nicholas Harrison¹, Mr John McCabe¹

¹Mersey and West Lancashire Teaching Hospitals NHS Trust, Prescot, United Kingdom

P11-7 The Comparing UroLift Experience Against Rezūm (CLEAR) RCT: Preliminary analyses suggest a superior early patient experience with UroLift PUL (PUL)

Mr Mark Rochester¹, Mr. Neil Barber², Dr. Brian Mazzeola³, Dr. Christopher Cantrill⁴, Dr. Bilal Chughtai⁵, Dr. Arnold Cinman⁶, Dr. Jeffrey Schiff⁷, Dr. Claus Roehrborn⁸

¹Norfolk and Norwich University Hospital, Norwich, United Kingdom, ²Frimley Park Hospital, United Kingdom, ³Urology Austin, United States, ⁴Urology San Antonio, United States, ⁵Weill Cornell Medicine, United States, ⁶Tower Urology, United States, ⁷NYU Langone, United States, ⁸UT Southwestern, United States

P11-8 Robotic water jet ablation (Aquablation™) to treat urinary retention in men with benign prostatic enlargement

Nadia Bitar¹, Ayesha Unadkat¹, Ahmed Khattak¹, Oussama Elhage¹, Jonathan Noel¹, Rick Popert¹, Mr Sachin Malde¹

¹Guy's And St Thomas' Hospital, London, United Kingdom

P11-9 A comparison of aquablation versus holmium laser enucleation of the prostate (HoLEP) as a treatment option for BPH: Preliminary analysis of our perioperative experience

Mr Mohammed Shahid¹, Mr William Finch¹, Mr Robert Mills¹, Mr Utsav Reddy¹, Mr Mark Rochester¹

¹Norfolk And Norwich University Hospitals NHS Trust, Norwich, United Kingdom

P11-10 Inter-operator variability in performing HoLEP: a single-centre study assessing the impact of surgeon experience and technique on procedural efficiency

Mr Enamur Rahman¹, Mr Branimir Penev¹, Mr Mark Cynk¹

¹Maidstone And Tunbridge Wells NHS Trust, Maidstone, United Kingdom

EPOSTER SESSIONS

6 minutes for each ePoster Presentation

4 minutes for presentation | 2 minutes for Q&A and turnaround

ANNUAL
MEETING
24-26 June

Wednesday 26 June, 0800-0900, Hall 11B

ePoster Session 12

Management/Governance/Education/Quality Improvement 2

Chairs: **Shabi Ahmad**, Sandwell District General Hospital, West Bromwich and **Katie Chan**, Southmead Hospital, Bristol

P12-1 Developing a robust Urology Pre-Operative Urine Culture pathway to reduce patient cancellations: a full cycle Quality Improvement Project

Mr Rustam Karanjia¹, Miss Oluwabunmi Tayo¹, Mr Pallab Sarkar¹, Miss Christine Boswell¹, Mr Michael Conroy¹, Dr Stephen Glass¹, Miss Jemma Hale¹

¹Kent & Canterbury Hospital, Canterbury, United Kingdom

P12-2 Assessment of the investigation and management of patients presenting with symptoms of Urinary Tract Infections in primary care: A multi-disciplinary, closed loop audit

Miss Molly Nichols¹

¹Whipps Cross University Hospital, London, United Kingdom

P12-3 Initial experience of Uromune® in Cornwall to reduce frequency of UTI in patients with recurrent UTI

Mr Nadeem Iqbal¹, Mr Buraq Imran¹, Mr Matthew Hotston¹, Mr Christopher Blake¹

¹Rcht, Truro, Cornwall, United Kingdom⁴

P12-4 Total Cost and Hidden Cost of Equipment Choices for Flexible Cystoscopy and LAMP

Mr Toni Mihailidis¹, Mr Jonathan Ord

¹Cheltenham General Hospital, Cheltenham, United Kingdom

P12-5 A Cost-Consequence Analysis of the Man Van Project: Comparing Prostate-specific Antigen Testing on a Nurse-led Mobile Service with Primary Care

Mr Masood Moghul^{1,2}, Miss Deokhee Yi³, Miss Fionnuala Croft¹, Miss Fiona Mutch¹, Miss Elizabeth Westaway¹, Dr Netty Kinsella¹, Mr Declan Cahill¹, Professor Nicholas James^{1,2}

¹Royal Marsden Hospital, London, United Kingdom, ²Institute of Cancer Research, London, United Kingdom,

³Imperial College London (Convergence Science Centre), London, United Kingdom

P12-6 A Developing evidence-based guidance for the use of prostate specific antigen testing in men over 80 years old

Dr David Faluyi¹, Mr Ben Lamb², Ms Elizabeth Bright³

¹Academy Of Medical Royal Colleges, London, United Kingdom, ²Cambridge University Hospitals NHS Foundation Trust, ³Royal Cornwall NHS Hospital Trust

P12-7 A Facilitating the move to outpatient LA Rezum water vapour therapy; The Schelin catheter

Mr Mohamed Alnoomani¹, Mr Omar Alabed Allat¹, Mr Mohamed Noureldin¹, Mr Ramzy Elnabarawy¹, Patricia Musuka¹, Emma Potter¹, Prof Richard Hindley¹, Mr Amr Emara¹

¹Basingstoke And North Hampshire Hospitals, Basingstoke, United Kingdom

P12-8 Quality and readability of google search information on HoLEP for benign prostate hyperplasia

Dr Yam Ting Ho¹, Dr Jeremy Saad^{1,2}, Dr Femi Ayeni², Dr Mohamed Khadra^{1,2}, Dr Mohan Arianayagam¹, Dr Bertram Canagasingham¹, Dr Nicholas Mehan¹, Dr Celi Varol¹, Dr Nicola Jeffrey¹, Dr Isaac Thangasamy^{1,2}, et al.,

¹Nepean Hospital, Kingswood, Australia, ²University of Sydney, Camperdown, Australia

P12-9 DESCENT: Departmental Evaluation of Scrotal imaging Considering European and National Testicle Guidelines

Mr Darryl Bernstein², Dr Harry Manning¹, Dr Kapila Jain¹, Dr Sebastian Chang¹, Mr Abraham Cherian³, Miss Shabnam Undre¹

¹East and North Hertfordshire Hospitals NHS Trust, Stevanage, United Kingdom, ²Division of Surgery and Interventional Science, University College London, London, United Kingdom, ³Great Ormond Street Hospital, London, United Kingdom

P12-10 Improving the Emergency Urology Stone Pathway with Elective Theatre Utilisation: A Closed Loop Audit

Mr Arjun Nathan¹, Dr Luke Zhu², Dr Natacha Rosa², Dr Alexander Ng², Mr Maen Khalifeh², Dr Matthew Riley², Mr Gidon Ellis², Mr Rajesh Kucheria², Mr Leye Ajayi², Urology Consultants and CNS²

¹UCL, London, United Kingdom, ²Royal Free Hospital, London, United Kingdom

ePoster Session 13

Prostate Cancer 2

Chairs: **Rohit Chahal**, Bradford Royal Infirmary and **Flora Rodger**, Queen Elizabeth University Hospital, Glasgow

P13-1 WITHDRAWN

P13-2 Urinary Continence Definitions following Robot-assisted Radical Prostatectomy (RARP): A Systematic Review

Miss Nikki Kerdegari^{1,3}, Mr Findlay MacAskill^{2,3}, Mr Majed Shabbir^{2,3}, Mr Arun Sahai^{2,3}

¹King's College London, London, United Kingdom, ²Guy's and St Thomas' NHS Foundation Trust, London, United Kingdom, ³Guy's PPS Research Group, London, United Kingdom

P13-3 The Man Van Project: Second Phase Interim Results

Mr Masood Moghul^{1,2}, Miss Fionnuala Croft¹, Miss Fiona Mutch¹, Miss Elisabeth Westaway¹, Dr Netty Kinsella¹, Mr Declan Cahill¹, Professor Nicholas James^{1,2}

¹Royal Marsden Hospital, London, United Kingdom, ²Institute of Cancer Research, London, United Kingdom

P13-4 Are Systematic Prostate Biopsies necessary? A comparative analysis of Targeted vs Combination Local Anaesthetic Transperineal (LATP) Biopsies on Cancer Detection and Clinical Impact on Patient Management

Mr Rustam Karanjia¹, Dr Ben King¹, Mr Pallab Sarkar¹, Mr Osama Haider¹, Mr Vishnu Basavaraju¹, Mr Curtis Phelan¹, Miss Oluwabunmi Tayo¹, Mr Edward Streeter¹, Mr Ben Eddy², Professor Sashi Kommu¹

¹Kent & Canterbury Hospital, Canterbury, United Kingdom, ²East Kent University Hospitals NHS Foundation Trust, School of Bioscience University of Kent, Canterbury, United Kingdom, Canterbury, United Kingdom

P13-5 Mind and body in Prostate Cancer: Is there an association between mental wellbeing and 1-year functional outcomes?

Mr Oliver Brunckhorst¹, Mr Jaroslaw Liszka¹, Dr Jack Fanshawe², Prof Robert Thomas³, Mr Shahid Khan⁴, Prof Matin Sheriff⁵, Prof Hashim Ahmed⁶, Prof Mieke Van Hemelrijck¹, Prof Prokar Dasgupta¹, Mr Kamran Ahmed¹, et al.,

¹King's College London, London, United Kingdom, ²Queen Elizabeth Hospital, London, United Kingdom, ³Bedfordshire Hospitals NHS Foundation Trust, Bedford, United Kingdom, ⁴East Surrey Hospital, Redhill, United Kingdom, ⁵Medway NHS Foundation Trust, Gillingham, United Kingdom, ⁶Imperial College London, London, United Kingdom

P13-6 Identification of factors associated with the detection of localised radiorecurrent prostate cancer: an analysis from the FORECAST trial

Mr Alexander Light¹, Ms Abi Kanthabalan², Prof Shonit Punwani², Prof Hashim U. Ahmed¹, Mr Taimur T. Shah¹, FORECAST Trial Study Group

¹Imperial Prostate, Imperial College London, London, United Kingdom, ²University College London, London, United Kingdom

P13-7 Salvage focal ablation versus radical prostatectomy for localised radiorecurrent prostate cancer: a propensity-score matched comparison

Mr Alexander Light¹, Giorgio Callaris², Paolo Gontero², Hashim U. Ahmed¹, Giancarlo Marra², Taimur T. Shah¹, HEAT and ICE User Group, Salvage Radical Prostatectomy Consortium

¹Imperial Prostate, Imperial College London, London, United Kingdom, ²University of Turin, Turin, Italy

P13-8 The Trans-Atlantic Recommendations for prostate Gland Evaluation with MRI after focal Therapy (TARGET) international consensus recommendations

Mr Alexander Light¹, Nikhil Mayor¹, Emma Cullen¹, Jan van der Meulen², Hashim U. Ahmed¹, Taimur T. Shah¹, TARGET Working Group

¹Imperial Prostate, Imperial College London, London, United Kingdom, ²London School of Hygiene and Tropical Medicine, London, United Kingdom

P13-9 Focal HIFU and cryotherapy for prostate cancer: a HEAT and ICE analysis of 15-year usage trends in the United Kingdom

Mr Alexander Light¹, Hashim U. Ahmed¹, Taimur T. Shah¹, HEAT and ICE Users Group

¹Imperial Prostate, Imperial College London, London, United Kingdom

P13-10 Morphine inhibits PC3 cell proliferation of and pro-inflammatory cytokine release fin vitro via the inhibition of the JNK/PI3K-Akt/GSK-3 Beta/Src/Lck signalling pathway: Clinical significance in prostate cancer management?

Miss Prapussara Sirikhansaeng¹, Muhammadbakhoree Yusuh¹, Laurie Lau², Omar Abdelwahab¹, Associate Professor Brian Birch³, Professor Bashir Lwaleed¹

¹University of Southampton, Faculty of Health Sciences, Southampton, United Kingdom, ²University of Southampton, Faculty of Medicine,, Southampton, United Kingdom, ³University Hospital Southampton NHS Foundation Trust, Dept. of Urology, Southampton, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

Monday 24 June, 1015-1100, Hall 3 Exhibition Gallery Level

Gallery Poster Display 1 Prostate Cancer

Chairs: **Kalyan Gударu**, Buckinghamshire NHS Trust and **Kathie Wong**, Cumberland Infirmary, Carlisle

GP1-1 Does inhalational methoxyflurane (Pentrox®) improve pain control during local anaesthetic transperineal biopsy of the prostate?

Miss Danielle Whiting¹, Azka Yousaf, Mr Constantinos Adamou, Mr Danny Darlington, Mr Dimitrios Papadopoulos, Mr Umberto Carbonara, Mr Murthy Kusuma, Mr Krishna Patil, Mr Dimitrios Moschonas, Mr Matthew Perry, Mr Wissam Abou Chedid

¹Frimley Park Hospital, Camberley, United Kingdom

GP1-2 Did the robot (and centralisation) improve margin rates, and has this influenced PSA recurrence in organ-confined prostate cancer?

Mr Ibrahim Ibrahim¹, Dr Sanjana Ilangovan¹, Dr Melanie Sneddon¹, Ms Sarika Nalagatla¹, Ms Carol Marshall¹, Professor Imran Ahmad¹

¹Queen Elizabeth University Hospital, Glasgow, United Kingdom

GP1-3 Justified Risks or Risky Justifications: Outcomes of locally advanced prostate cancer patients who underwent radical prostatectomy

Dr Ziting Wang¹, Dr Netty Kinsella¹, Mr Bradley Russell¹, Ms Justyna Sobczak¹, Dr Rahul Jena¹, Dr Declan Cahill¹

¹The Royal Marsden, London, United Kingdom

GP1-4 Evaluation of Spinal vs Non-spinal anaesthetic regime in day-case Robotic Assisted Radical Prostatectomy

Mr Dimitrios Papadopoulos¹, Mr Danny Darlington Carbin¹, Dr Piers Johnston¹, Dr Zara Edwards¹, Mr Krishna Patil¹, Mr James Hicks¹, Mr Murthy Venkata Kusuma, Mr Dimitrios Moschonas¹, Mr Matthew James Alexander Perry¹, Mr Wissam Abou Chedid¹

¹Royal Surrey County Hospital, Surrey, United Kingdom

GP1-5 The PI-RADS 3 lesion: Pi-RADS alone oversimplifies decision-to-biopsy but what should the ideal nomogram include?

Miss Madhavi Natarajan¹, Dr Azka Yousaf¹, Dr Santiago Uribe¹, Mr Umberto Carbonara¹, Mr Wissam Abou-Chedid¹, Mr Dimitrios Moschonas¹, Mr Krishnaji Patil¹, Mr Murthy Kusuma¹, Mr Matthew Perry¹

¹Royal Surrey Hospital, Guildford, United Kingdom

GP1-6 Prostate cancer and multiparametric MRI scanning: Is a bone scan still required?

Mr Thomas Farmer¹, Miss Lauren Holt, Mr Mamoon Siraj, Mr Oladapo Feyisetan

¹Leighton Hospital, Crewe, United Kingdom

GP1-7 Radiogenomics map-based molecular and imaging phenotypical characterization in localised prostate cancer using pre-biopsy biparametric MR imaging

Miss Abeer Al-hussaini, Dr Chidozie Ogbonnaya, Dr Neil Kernohan, Professor Ghulam Nabi¹

¹University of Dundee, DUNDEE, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

GP1-8 Local anaesthetic trans-perineal biopsy of the prostate for patients with no rectum.

Mr NaderMudassir Gaballa¹, Mr Nader Gaballa¹, Mr Keval Patel¹, Mr Balraj Dhesi¹

¹University Hospital Birmingham, Birmingham, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

Tuesday 25 June, 1100-1130, Hall 3 Exhibition Gallery Level

Gallery Poster Display 2 Bladder Cancer

Chairs: **Mark Haynes**, Belfast City Hospital and **Helena Burden**, Southmead Hospital, Bristol

GP2-9 Investigation of sexual function and oncological outcomes following prostate capsule- and nerve-sparing robot-assisted radical cystectomy.

Dr Lazaros Tzelves¹, Dr Elizabeth Day¹, Mr Amit Bhudia¹, Mr Mark Markov¹, Dr Osama Al-Bermani¹, Dr Joanna Olphert¹, Mr Ashwin Sridhar¹, Professor John Kelly¹, Dr Anthony Ta¹

¹Department of Urology, University College London Hospitals, London, United Kingdom

GP2-10 Age-Related Differences in Outcomes of Patients with Non-Muscle-Invasive Bladder Cancer: A Biological Basis for Epidemiological Disparities?

Miss Niyati Lobo¹, Dr Zhigang Duan², Dr Akshay Sood², Dr Sia Lindsdreg³, Professor Lars Dyrskjot³, Dr Hui Zhao², Dr Stephen B. Williams⁴, Dr Sharon H. Giordano², Professor Ashish M. Kamat²

¹Royal Free London NHS Foundation Trust, London, United Kingdom, ²University of Texas MD Anderson Cancer Center, Houston, United States of America, ³Aarhus University, Aarhus, Denmark, ⁴University of Texas Medical Branch, Galveston, United States of America

GP2-11 Compliance and outcomes following risk-adapted changes to national Quality Performance Indicators (QPIs) for NMIBC.

Professor Paramanathan Mariappan¹, Mr Mathew Trail^{3,4}, Mr Allan Johnston⁵, Ms Lucy Drummond⁶, Mrs Claire Sharpe⁷, Mr Sami Hamid⁴, Mr Barend A Dreyer⁶, Ms Sara Ramsey⁸, Dr Luisa Padovani³, Ms Roberta Garau³, Dr Alasdair Boden⁹, Mr Gianluca Maresca¹⁰, Mr Rami Hasan^{3,11}, Mr Graham Hollins¹¹, Mr Benjamin G Thomas^{3,12}, Mr Angus Reid¹³, Mr Lucas Ho¹³, Ms Julia Guerrero Enriquez¹³, Mr Saad Siddiqui¹⁰, Mr Muhammad Arshad Khalil¹⁰, Ms Helen Simpson⁶, Mr Suriaraj Karppaya¹, Mr Jaimin Bhatt⁵, Professor Imran Ahmad^{5,14}, Mr Ghulam M Nandwani⁴, Mr Altaf H Chaudhry⁷, Mr Rehan S Khan⁹, Mr Ross Clark¹¹, Mr Konstantinos Dimitropoulos¹⁰, Dr Catriona Graham¹⁵, Mr David Hendry⁵, The Scottish Bladder Cancer QPI collaborative

¹Edinburgh Bladder Cancer Surgery (EBCS), Western General Hospital, Edinburgh, United Kingdom, ²The University of Edinburgh, Edinburgh, United Kingdom, ³Department of Urology, Western General Hospital, Edinburgh, United Kingdom, ⁴Department of Urology, Ninewells Hospital, Dundee, United Kingdom, ⁵Department of Urology, Queen Elizabeth University Hospital, Glasgow, United Kingdom, ⁶Department of Urology, Victoria Hospital, Kirkcaldy, United Kingdom, ⁷Department of Urology, Dumfries & Galloway Royal Infirmary, Dumfries, United Kingdom, ⁸Department of Urology, Raigmore Hospital, Inverness, United Kingdom, ⁹Department of Urology, University Hospital Monklands, Airdrie, United Kingdom, ¹⁰Department of Urology, Aberdeen Royal Infirmary, Aberdeen, United Kingdom, ¹¹Department of Urology, University Hospital Ayr, Ayr, United Kingdom, ¹²Department of Urology, Borders General Hospital, Melrose, United Kingdom, ¹³Edinburgh Medical School, The University of Edinburgh, Edinburgh, United Kingdom, ¹⁴School of Cancer Sciences, University of Glasgow, Glasgow, United Kingdom, ¹⁵Edinburgh Clinical Research Facility, University of Edinburgh, Western General Hospital, Edinburgh, United Kingdom

GP2-12 Cancer following reconstruction for benign urological conditions: Case series and systematic review to describe management and outcomes.

Dr Alisha Pati-Alam¹, Miss Elizabeth Day¹, Miss Hyka Shaikh, Dr Anastasia Frost¹, Mr Ashwin Sridhar¹, Professor John Kelly¹, Professor Anthony Mundy¹, Mr Jeremy Ockrim¹, Miss Tamsin Greenwell¹, Mr Anthony Oluwaseun Noah¹

¹University College Hospital, London, London, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

GP2-13 Female Sexual Function after Radical Cystectomy: a cross-sectional study

Miss Riya Sabharwal, Mr Santosh Nagasubramian, Ms Elizabeth Day, Mr Anthony Ta, Mr Ashwin Sridhar, Professor John Kelly

¹University College London Hospital, United Kingdom

GP2-14 The 'Pluck Procedure' in a Laparoscopic Nephroureterectomy: Does it affect oncological outcomes?

Dr Shri-Ishvarya Rajamoorthy¹, Mr Dominic Thompson¹, Mr Neil John Fenn¹

¹Department of Urology, Morrision Hospital, Swansea, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

Tuesday 25 June, 1500-1530, Hall 3 Exhibition Gallery Level

Gallery Poster Display 3 Management/Governance/Education/Quality Improvement

Chairs: **Rebecca Saunders**, Royal Gwent Hospital and **Su-Min Lee**, Southmead Hospital, Bristol

GP3-15 PSA text message reminders to improve prostate cancer surveillance at a single centre

Dr Alisha Pati-Alam², Miss Sascha Ali¹, Mr Mohamed Ferdous Hussain¹, Ms Vanita Patel¹, Mr Anish Patel¹, Miss Lehana Yeo¹, Miss Jhumur Pati¹

¹Homerton University Hospital, London, United Kingdom, ²University College Hospital, London, London, United Kingdom

GP3-16 Audit on Faster Diagnosis Standards in 2-Week Wait (2WW) Haematuria Clinic

Dr Yamin Pa Pa Lin, Dr Ashwini Kulkarni, Ms Kate Warren

¹Bristol Urological Institute, Bristol, United Kingdom, ²North Bristol NHS Trust, Bristol, United Kingdom

GP3-17 How effective is a dedicated smoking cessation service in a standard haematuria clinic?

Mrs Brinda Loganathan¹, Miss Tania Fortes¹, Mr Benjamin Ayres¹

¹St George's University Hospitals, London, United Kingdom

GP3-18 Evaluating the clinical need for Group and Save for TURBT at a District General Hospital in London

Dr Mami Samejima¹, Dr Mami Samejima¹, Dr Omololu Ajayi¹, Mr Garfield Parker¹, Mr Damiete Harry¹, Mr Gopalakrishnan Nair¹

¹North Middlesex University Hospital, London, United Kingdom

GP3-19 Introduction of the 'Uro-Go' grab-bag for difficult catheterisation

Dr Rachael O'Halloran¹, Miss Samara Fleville¹, Mr Ajay Pahuja¹

¹Ulster Hospital Dundonald, Belfast, United Kingdom

GP3-20 Patient-initiated Follow up (PIFU) is a more preferable outpatient model for patients and clinician: a local Urology outpatient programme review.

Mr Fouad Maqboul¹, Mr Srijit Banerjee¹, Dr Daniella Mateescu¹, Dr Sally Spur¹

¹Darent Valley Hospital, Dartford, United Kingdom

GALLERY POSTER DISPLAY AND Q&A PRESENTATIONS

ANNUAL
MEETING
24-26 June

Wednesday 26 June, 1100-1130, Hall 3 Exhibition Gallery Level

Gallery Poster Display 4

Stones / Imaging / Upper Tract Disorders

Chairs: **Louise Paramore**, Princess Royal Hospital, Haywards Heath and **Ninaad Awsare**, Whiston Hospital, Prescot

GP4-21 Long term outcomes in Nephrocalcinosis: Comparative study between Renal Tubular Acidosis and Medullary Sponge Kidney

Dr Ahmed Farag¹, Ms Emily Cooper, Dr Graham Lipkin, Mr Kesavapilla Subramonian

¹University Hospitals Birmingham, Birmingham, United Kingdom

GP4-22 Is stent on a string (SOS) the new gold standard for post-ureteroscopy ureteric drainage? Evidence from a systematic review

Mr Nick Harrison¹, Dr Charlotte Hughes, Professor Bhaksar Somani

¹Mersey And West Lancashire Teaching Hospitals NHS Trust, Prescot, United Kingdom

GP4-23 Nephrectomy in enlarged autosomal dominant polycystic kidneys- should hand-assisted laparoscopic approach be the new standard of care? Retrospective Experience at a single tertiary care center

Mr Abhishek Chandna¹, Miss Artemisia Lango, Mr Anurag Golash, Mr Pankaj Panwar, Mr Herman Fernando, Mr Christopher Luscombe, Dr Kerry Tomlinson, Dr Julie Wessels, Dr Dominic de Takats

¹University Hospitals North Midland NHS Trust, Stoke On Trent, United Kingdom

GP4-24 Comparison of ureteroscopy and laser stone fragmentation (URSL) between Holmium:YAG laser with MOSES vs Non-MOSES technology: A prospective single-centre propensity score-matched analysis using similar laser settings

Dr Victoria Jahrreiss^{1,2}, Dr Francesco Ripa³, Dr Clara Cerrato¹, Dr Carlotta Nedbal¹, Dr Amelia Pietropaolo¹, Prof Bhaskar Somani¹

¹University Hospital Southampton, Southampton, United Kingdom, ²Medical University Vienna, Vienna, Austria,

³University College London Hospitals, London, United Kingdom

GP4-25 Percutaneous nephrolithotomy; Is supine superior ? Experience at a single tertiary care unit in Sri Lanka

Mr Sagara Ruwan Kumara Maduwe Gedara¹, Mr Ambegoda Madura³, Dr Anuruddha Abeygunasekera², Prof. Srinath Chandrasekara², Dr Ashantha Weerakkody², Dr Sinthuja Mahadevan²

¹Royal Cornwall Hospitals NHS Trust, TRURO, United Kingdom, ²Colombo South Teaching Hospital, Colombo, Sri Lanka, ³Chesterfield Royal Hospital, Chesterfield, United Kingdom

GP4-26 The impact of a new primary ureteroscopy service for the emergency treatment of ureteric stones in a busy university hospital

Dr Tarek Aly¹, Mrs Raya Rasheed, Dr Kevin George, Mr Khaled Ghanem, Dr Mazharuddin Shaikh, Mr Shailesh Kulkarni, Mr Junaid Masood.

¹Queens Hospital, Barking, Havering And Redbridge University Hospitals, Romford, United Kingdom

TEACHING & SKILLS COURSES INTRODUCTION

ANNUAL
MEETING
24-26 June

By the Honorary Secretary Elect

Welcome to the BAUS 2024 programme. Education and skill development is a central priority for our BAUS membership and we have therefore focussed this year on ensuring novel and relevant teaching courses.

We have ensured a broad range of courses to appeal to our whole membership, reflecting the feedback from last year with predominately new leadership and a focus on new courses. There is a significant emphasis on face to face this year.

We are delighted to announce a collection of hands-on training courses: ultrasound training led by Asad Abedin with a team of consultant radiologist and radiographers, which no doubt will prove to be popular with both trainees and consultants. Stefanos Bolomytis will lead the Cognitive/MRI Fusion LA Transperineal Biopsy of Prostate incorporating the latest in prostate biopsy techniques along with Consultant Radiologists and specialist nurses. Vishwanath Hanchanale will offer another opportunity to attend the successful introduction to robotics course.

I am particularly pleased to announce brand-new courses focused on important and growing areas of practice: We have Managing Active Surveillance for Prostate Cancer directed by Mr Vincent Gnanapragasam. A new medico legal course provided by The Medical Protection Society and led by Dr James Thorpe which will support us in an increasingly litigious environment. We also have a new course on the Management of Functional Urology Emergencies will be led by Sachin Malde, addressing an educational need in urological practice.

From the newly formed SAS and Trust Urologists Section Adham Ahmed will update us and provide a detailed guide on achieving GMC speciality registration in urology, via the new Portfolio Pathway. We have the pleasure of Nav Johal from Great Ormond Street Hospital leading the revamped Paediatric urology course that will increase knowledge and informed practice in this important area.

Prof Hashim Hashim will be delivering the ever-popular FNUU Course on Urodynamics, an essential part of the BAUS offering. BSoT this year will offer interview practice for Urology NTN Interviews led by Bushra Abdelqader, helping young urologists overcome an important hurdle in their career development.

Focused virtual courses include those on Penile Cancer, Male infertility and an important course on research methodology and a Bladder Cancer Masterclass.

As always I am grateful to the BAUS Section Chairs, Course Directors and the Events Team led by Harry Heald, all of whom are critical to the entire process of course generation and delivery. We look forward to seeing you in the summer at a dynamic, relevant and exciting programme in my home town of Birmingham.

Mo Belal

Honorary Secretary Elect

TEACHING & SKILLS COURSES OVERVIEW

ON-SITE COURSES

ANNUAL
MEETING
24-26 June

No.	Course Title	Course Director(s)	Cost	No. of Spaces	Location	Time
MONDAY 24 JUNE						
1	Teaching Course: Paediatric Urology	Navroop Johal	£45 BAUS Member £75 Non-Member	60	Hall 11B	1100-1230
2	Skills Course: Hands on Ultrasound Training	Asad Abedin	£50 BAUS Member £90 Non-Member	20	Hall 7	1100-1230
3	Teaching Course: Succeed the Portfolio Pathway	Adham Ahmed & Rickaz Raheem	£45 BAUS Member £75 Non-Member	60	Hall 11B	1400-1530
4	Skills Course: Hands on Ultrasound Training	Asad Abedin	£50 BAUS Member £90 Non-Member	20	Hall 7	1400-1530
5	Skills Course: Hands on Ultrasound Training	Asad Abedin	£50 BAUS Member £90 Non-Member	20	Hall 7	1630-1800
6	Teaching Course: Good Urodynamics Practice	Hashim Hashim	£45 BAUS Member £75 Non-Member	60	Hall 11B	1630-1800

TUESDAY 25 JUNE

7	Skills Course: Cognitive/MRI Fusion LA Transperineal Biopsy of Prostate	Stefanos Bolomytis	£50 BAUS Member £90 Non-Member	20	Hall 7	0800-0930
8	Teaching Course: The Medical Protection Society: Medico Legal Course	Dr James Thorpe	£45 BAUS Member £75 Non-Member	60	Hall 11B	1100-1230
9	Skills Course: Cognitive/MRI Fusion LA Transperineal Biopsy of Prostate	Stefanos Bolomytis	£50 BAUS Member £90 Non-Member	20	Hall 7	1100-1230

Course 1: Teaching Course - Paediatric Urology

Monday 24 June 2023

Hall 11B

1100-1230

60 Places

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Navroop Johal**, Consultant Paediatric Urologist, Great Ormond St Hospital for Children

Outline and Objectives

The aim of this course is to reinforce and support the practice of paediatric urology outside a specialist unit. We are grateful that we can continue to provide a focus on children within the BAUS meeting and an opportunity for established Consultants and interested trainees to meet. There will also be didactic mini lectures on key topics, each led by a paediatric urologist and illustrated by appropriate clinical scenarios.

We do hope, as usual, to provide an interactive feast that will leave delegates better equipped – be it for forthcoming FRCS (Urol) exams or next paediatric clinic.

Faculty

Abraham Cherian, Consultant Paediatric Urologist, Great Ormond St Hospital for Children

Divyesh Desai, Clinical Lead and Director of Urodynamics, Great Ormond St Hospital for Children

Alex Cho, Consultant Paediatric Urologist, Great Ormond St Hospital for Children

Anu Paul, Consultant Paediatric Urologist, Evelina Hospital

Shabnam Undre, Consultant Urologist, Lister Hospital

Courses 2, 4 & 5: Skills Course - Hands on Ultrasound Training

Monday 24 June 2024	Hall 7	1100-1230
Monday 24 June 2024	Hall 7	1400-1530
Monday 24 June 2024	Hall 7	1630-1800
20 Places Per Course	Cost: £50 BAUS Member & £90 Non-Member	

Course Director: **Asad Abedin**, Russells Hall Hospital, Dudley

Outline and Objectives

Point of care ultrasound scanning (POCUS) is fast becoming an important skill across medicine, to improve bedside patient assessment, both in the emergency & elective setting. To this end, this course will allow delegates to be taught hands on ultrasound scanning technique of the kidneys, bladder and testes, in small groups of three, with a faculty member. We have arranged for patients who have appropriate pathologies, to be present as subjects for scanning. High end ultrasound machines will be provided by Fujifilm (formerly Hitachi). Each station will have 3 candidates with one faculty member and patients with some of the following pathologies. The aim is to help candidates in becoming confident in level 1 urological ultrasound scanning, i.e. being able to recognise normal anatomy, detecting when something is abnormal and referring on for further imaging.

The following areas will be covered within this course:

- Technique of performing an ultrasound scan of the kidneys, urinary bladder, testes and transabdominal scan of the prostate (measuring prostate volume).
- How to optimise an ultrasound image, using the common machine knobs controlling overall gain, time-gain compensation, focus, depth and scanning frequency. Faculty members will briefly discuss different ultrasound tools such as tissue harmonic imaging, compounding and reducing sectoral width to achieve clearer images.
- Recognition of the normal appearance of the kidneys, urinary bladder, testes and prostate.
- Recognition of some of these common abnormalities within the urinary tract:
 - › Renal cysts
 - › Hydronephrosis
 - › Renal stones
 - › Small renal masses
 - › Thick walled bladder & trabeculation
 - › Prostate enlargement, median lobe of the prostate
 - › Epididymal cysts
 - › Hydrocele
 - › Varicocele

Faculty

Kiran Randhawa, Consultant Radiologist, Russells Hall Hospital, Dudley

Ian Wright, Senior Ultrasonographer, Dudley Group NHS Foundation Trust

Ian Kayinamura, Sonographer, Dudley Group NHS Foundation Trust

Course 3: Teaching Course - Succeed the Portfolio Pathway

Monday 24 June 2024

Hall 11B

1400-1530

60 Places

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Adham Ahmed**, West Suffolk Hospital and **Rickaz Raheem**, Bedford Hospital

Outline and Objectives

Understand the essential curriculum requirements for the portfolio pathway in urology.
Master the evidence collection procedure necessary for completing the portfolio pathway application.
Acquire the knowledge and skills needed to prepare a robust and compelling application for the urology portfolio pathway.

1400-1403	Introduction
1403-1418	Navigating the Portfolio Pathway in Urology: Key components from the curriculum Mehwash Nadeem , James Cook University Hospital, Middlesbrough and Trust CESR lead
1418-1433	Evidence collection for portfolio pathway: A pragmatic approach Murugu Kalai Selvan Masilamani New Cross Hospital, Wolverhampton
1433-1440	Portfolio Pathway Journey in Urology: Navigating Struggles and Overcoming obstacles Archana Raysee , Maidstone and Tunbridge wells NHS Foundation Trust
1440-1500	Requirement and expectations: From assessor's perspective Justine Royle , Aberdeen Royal Infirmary and Chair, SAC in Urology
1500-1530	Q&A and Panel Discussion: Building a Robust Application: focus on the solutions to tackle the challenges Justine Royle , Aberdeen Royal Infirmary and Chair, SAC in Urology Tharani Nitkunan , Epsom and St Helier University Hospitals Mehwash Nadeem , James Cook University Hospital, Middlesbrough and Trust CESR lead Murugu Kalai Selvan Masilamani , New Cross Hospital, Wolverhampton Rickaz Raheem , Bedford Hospital

Courses 6: Teaching Course - Good Urodynamics Practice

Monday 24 June 2023

Hall 11B

1630-1800

60 Places Per Course

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Hashim Hashim**, Southmead Hospital, Bristol

Outline and Objectives

This course aims to provide focused teaching to enable urologists to improve their skills in urodynamics. There will be an emphasis on practical aspects of urodynamics including interpretation of traces, quality control and troubleshooting. The speakers are involved in similar courses, which have been running successfully in the United Kingdom and Internationally. The small group format has been shown to work well in addressing individual needs. Access to teaching aids will simulate the clinical scenario as much as possible. The aim is to teach and emphasise good urodynamic practice using accepted international standards. At the end of the workshop delegates should feel more confident in their practice of urodynamics, specifically interpretation of traces which is a required skill for the FRCS (Urol) viva examination.

Introduction (5 mins)

Hashim Hashim, Bristol Urological Institute

Physics of Urodynamics in a nutshell (15 mins)

Laura Thomas, Clinical Scientist, Bristol Urological Institute

Update on Good Urodynamics Practice (15 mins)

Hashim Hashim, Bristol Urological Institute

Troubleshooting (20 mins)

Laura Thomas, Clinical Scientist, Bristol Urological Institute

Interpretation of Results and Traces using clinical scenarios (30 mins)

Hashim Hashim, Bristol Urological Institute

Conclusion (5 mins)

Hashim Hashim, Bristol Urological Institute

Faculty

Laura Thomas, Clinical Scientist, Bristol Urological Institute

Course 7, 9, 11 & 13: Skills Course - Cognitive/MRI Fusion LA Transperineal Biopsy of Prostate

Tuesday 25 June 2024	Hall 7	0800-0930
Tuesday 25 June 2024	Hall 7	1100-1230
Tuesday 25 June 2024	Hall 7	1400-1530
Tuesday 25 June 2024	Hall 7	1600-1730

20 Places **Cost: £50 BAUS Member & £90 Non-Member**

Course Directors: **Stefanos Bolomytis**, Southmead Hospital, Bristol

Outline and Objectives

- Develop hands-on skills for performing transperineal prostate biopsies under local anesthesia.
- Understand and apply proper procedural techniques.
- Gain basic skills in incorporating MRI fusion technology into the biopsy procedure.
- Learn the principles of aligning pre-biopsy MRI images with real-time ultrasound for targeted biopsy.
- Enhance the ability to interpret prostate MRI scans.
- Identify and understand imaging features relevant to biopsy decision-making and cognitive targeting.
- Develop effective communication skills for explaining the procedure and its benefits to patients.

These objectives aim to provide participants with a comprehensive skill set, integrating both the technical aspects of the biopsy procedure and the nuanced interpretation of MRI scans for improved diagnostic accuracy.

Faculty

Neil Trent, Musgrove Park Hospital, Taunton

Mohamed Noureldin, Basingstoke and North Hampshire Hospital

Douglas Kopcke, Consultant Radiologist, North Bristol NHS Foundation Trust

Angus McCormick, Nurse Practitioner, North Bristol NHS Foundation Trust

Jonah Rusere, Nurse Practitioner, Guy's and St Thomas Hospital, London

Amar Mohee, Manchester Royal Infirmary

Rajan Veeratterapillay, Freeman Hospital, Newcastle

Nadeem Iqbal, Royal Cornwall Hospital, Truro

Course 8: Teaching Course: The Medical Protection Society: Medico Legal Course

Tuesday 25 June 2024

Hall 11B

1100-1230

60 Places Per Course

Cost: £45 BAUS Member & £75 Non-Member

Course Directors: **Dr Emma Green and Dr James Thorpe**, The Medical Protection Society

Outline and Objectives

Medical Protection in association with the British Association of Urological Surgeons are pleased to present this 2-hour workshop which will highlight the ethical and legal challenges facing urological surgeons.

This interactive session will feature urology cases and claims from the Medical Protection archive with a particular focus on informed consent in view of the recent Supreme Court judgment in *McCulloch and others v Forth Valley Health Board*. In addition, common themes commonly encountered in claims for compensation arising from modern urological practice will be presented and discussed.

*Course fees are charged to cover all venue & administration costs. MPS are kindly contributing to the conference at no cost to BAUS with no direct financial gain.

Course 10: Teaching Course - Simulated Course for Urology NTN Interviews

Tuesday 25 June 2024

Hall 4

1100-1230

60 Places

Cost: £25 BAUS Member & £35 Non-Member

Course Directors: **Bushra Abdelqader**, Kingston Hospital, London

Outline and Objectives

The primary objective of this course is to provide participants with a comprehensive understanding of the national ST3 interview format while offering invaluable individualized feedback. Furthermore, candidates will have the opportunity to engage in one-on-one portfolio sessions to enhance their preparation for the selection process.

Target Participants

This course is tailored for Core Surgical Training level trainees and trust grade doctors who are gearing up to apply for national selection in either 2025 or 2026. It is designed to cater to individuals seeking to strengthen their interview skills and optimize their portfolios for a successful application.

Programme

The session will kick off with a dynamic 10-minute presentation delivered by candidates who have excelled in recent rounds of national selection. They will share invaluable insights, strategies, and practical advice on how to maximise their portfolio scores, as well as how to prepare meticulously for the interview.

Following the presentation, the course will feature five structured stations, each lasting 15 minutes, aimed at providing participants with a holistic understanding of the ST3 interview process:

1. Portfolio Station
2. Emergency Station
3. Outpatient Station
4. Communication Skills Station
5. Skills Station station

Overall, the programme aims to provide participants with a comprehensive and immersive experience, equipping them with the knowledge, skills, and confidence necessary to excel in the Urology NTN interview process.

Course 12: Teaching Course - An Evidence Based Approach to Managing Active Surveillance for Prostate Cancer

Tuesday 25 June 2023

Hall 11B

1400-1530

60 Places

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Vincent Gnanapragasam**, University of Cambridge

Outline and Objectives

The aim of this course is to educate and inform clinicians at all levels on the evidence base around management of early prostate cancer and in particular, disease suitable for active surveillance (AS). The course will cover recent understanding on the epidemiology and natural history of prostate cancer and the importance of competing risks in deciding the benefit of treatment versus a conservative approach. The use and value of risk estimation aids to help new patients understand their prognosis will be explored and how they underpin informed decision making and confidence in active surveillance. The integration of these concepts in an evidence-based approach to AS will be outlined as well as how it can be used to stratify and rationalise follow up and refine use of imaging, clinic visits and biopsy. Lectures will also cover the process and practical aspects of setting up a robust and reliable AS service and also explore patient empowerment and support when on AS. The overall aim is to help participants develop a structured AS programme in their units and reduce the current significant variability in how AS is managed across the NHS. Time will be allotted to question-and-answer sessions and also practical aspects of setting up a high-quality AS service.

Courses 15 & 17: Skills Course - Introduction to Robotics

Wednesday 26 June 2024 Hall 7 1130-1300

Wednesday 26 June 2024 Hall 7 1400-1530

20 Places

Cost: £50 BAUS Member & £90 Non-Member

Course Director: **Vishwanath Hanchanale**, Royal Liverpool University Hospital and **Justine Royle**, Aberdeen Royal Infirmary

Outline

Delegates will be split into two groups, with first group having practical skills session and the second learn the basic concepts in robotics with emphasis on robotic urological procedures.

Group 1: 2 trainees at each station (12-15 minutes with each station)

- Station A: Robotic skills with the simulator
- Station B: Patient positioning, docking, undocking,
- Station C: Approach, instruments, energy sources

Group 2:

Learning Concept of Robotic Urology with emphasis on robotic urological procedures

Didactics

- Welcome
- Introductions to Robotics
- Emergency scenarios and troubleshooting
- Robotic Urological procedures

Practical Elements

- Introduction to the robotic platform - robot features, movement and positioning in theatre, sterile draping.
- Instruments; insertion/removal
- Docking and undocking
- Emergency undocking and communication

Faculty

Course 14: Teaching Course - Updates in Stone Management

Wednesday 26 June 2024

Hall 11B

1130-1330

60 Places

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Bhaskar Somani**, Southampton General Hospital & Editor-in-chief JCU and **Hari Ratan**, Nottingham University Hospitals

Outline and Objectives

This course will provide an update for management of stone disease taking into account the latest developments in ESWL, Ureteroscopy, PCNL, Metabolic and Conservative management. We will also cover the latest technological concepts, nuances and evidence base to support it.

We will then have a few cases or video-based presentations from the faculty with discussion and audience participation. It will cover some practical aspects and 'tips and tricks' to help with decision making at all stages of patient journey.

Faculty

Sian Allen, University College Hospital, London

Jake Patterson, Royal Hallamshire Hospital, Sheffield

Course 16: Teaching Course - Management of Functional Urology Emergencies

Wednesday 26 June 2023

Hall 11B

1400-1530

60 Places

Cost: £45 BAUS Member & £75 Non-Member

Course Director: **Sachin Malde**, Guy's & Thomas's Hospital, London

Outline and Objectives

This course is essential for all urologists that will encounter functional urological emergencies in their practice, especially for those with a specialist interest in functional and reconstructive urology. Through interactive lectures, this course aims to provide a step-by-step practical guide for the diagnosis, evaluation, and treatment of commonly encountered emergencies. This includes the management of iatrogenic urinary tract injuries, ureteric and bladder reconstruction, emergencies in neuropaths, and emergencies in pregnancy, where relevant to functional and reconstructive urology.

Bladder/ureteric injury and fistula (15 mins)

Suzanne Biers, Addenbrooke's Hospital, Cambridge

Prosthesis (AUS/SNM) emergencies (15 mins)

Andy Kozan, St James's University Hospital, Leeds

Emergencies in reconstructed urinary tracts/continent bladder replacement/Mitrofanoff (15 mins)

Sachin Malde, Guy's & Thomas's Hospital, London

Emergencies in neuropaths – autonomic dysreflexia, neurogenic bladder and spinal shock, cauda equina? (15 mins)

Nicholas Faure Walker, King's College Hospital, London

Management of Intraoperative Complications in Open Procedures – arterial, venous, rectal (15 mins)

Muhammad Shamim Khan, Guy's & St Thomas' Hospitals, London

Faculty

Suzanne Biers, Addenbrooke's Hospital, Cambridge

Andy Kozan, St James's University Hospital, Leeds

Nicholas Faure Walker, King's College Hospital, London

Muhammad Shamim Khan, Guy's & St Thomas' Hospitals, London

Emergency announcement

If it becomes necessary to evacuate the building, the following message will be broadcast:

“Ladies and Gentlemen, may I have your attention please. We must ask you to leave the building by the nearest exit as quickly as possible. Do not use the lifts and do not stop to collect personal belongings”

First Aid Emergencies

In cases of medical emergency call Security Control (0121 200 2000 option 1) giving the exact location of the casualty and details of injuries sustained. Security Control will then arrange for all necessary assistance. Alternatively, please contact the nearest Host.

Fire Procedures

An intelligent fire alarm system and audible sounders protect the ICC and Symphony Hall. There are portable fire extinguishers, fire hoses and a sprinkler system throughout.

In the event of discovering a fire in your vicinity:

- 1) Raise the alarm by breaking the glass in the fire alarm call point.
- 2) Inform the Security Control Room on an internal telephone by dialling 3333 or inform the nearest Host giving location and nature of the fire.
- 3) Turn off all electrical equipment in your area, where safe and practicable to do so.
- 4) Follow Hosts' instructions.
- 5) Make your way to the nearest fire exit; do NOT use lifts or escalators.
- 6) Do NOT go back to collect personal belongings.
- 7) Report to the assembly point on Civic Centre Estate and await instructions.
- 8) Please notify a Security Officer if you believe a member of your team is missing.
- 9) Only return to the building when instructed by a fire officer.

Security

Please remember to be vigilant throughout your event to ensure the safety of your property. If items cannot be watched then it is important that they are properly secured.

Evacuation Area

Located at Civic Centre Estate

ICC Birmingham
24-26 June 2024
